TAFT ASKS WORLD INQUIRY INTO THE HIGH COST OF LIVING

SPECIAL MESSAGE ON CRUEL PRICES

President Seeks Through Congress to Bring Nations Into Conference to Search for Relief.

BELIEVES IT WOULD AID THE CONSUMER

Washington, Feb. 2.—President Taft, in a message to congress today, urged an international inquiry into the high cost of living. The president asked authority to invite the nations of the world to a conference in this city or elsewhere to make plans for the investigation of the "high prices that have so distressed the people of the world."

Mr. Taft also urged the appointment of a federal commission to make "searching inquiry into the subject of industrial relations."

Proposes International Inquiry.

"For some years past," said the president, "the high and steadily increasing cost of living has been a matter of such grave public concern that I deem it of great public interest that an international conference be proposed at this time for the purpose of preparing plans, to be submitted to the various governments, for an international inquiry into the high cost of living, its extent, causes, effects and possible remedies.

"There is no doubt but that a commission could be appointed of such unprejudiced and impartial persons, experts in investigation of economic facts, that a great deal of very valuable light could be shed upon the reasons for the high prices that have so distressed the people of the world, and information given upon which action might be taken to reduce the cost of living.

Baffled in Seeking Causes.

"Those who have conducted investigations, have found that the phenomenon of rising prices is almost if not quite general throughout the world; but they are baffled in the attempt to trace the causes by the impossibility of making any accurate international comparisons. This is because, in spite of the number of investigations already made, we are still without adequate data and because as yet no two countries estimate their price levels on the same basis or by the same methods."

As to the commission on industrial relations, the president said:

"There should be an inquiry by the federal government into the general conditions of labor in the United States, notwithstanding the fact that some of the remedies will lie with the separate states, or even entirely outside the sphere of governmental activity, in the hands of private individuals and of voluntary agencies.

Enlightenment May Promote Relief.

"One legitimate object of such an official investigation and report is to enlighten and inform public opinion, which of itself will often induce or compel the reform of unjust conditions or the abatement of unreasonable demands.

"Unquestionably the time is now ripe for a searching inquiry into the subject of industrial relations which shall be official, authoritative, balanced and well grounded, such as only the federal government can successfully undertake. The present widespread interest in the subject makes this an opportune time for an investigation which in any event can not long be postponed. It should be nonpartisan, comprehensive, thorough, patient and courageous."

COMBING OUT A TRAINED SLEUTH

Detective Bailey Given a Hot Cross-Quiz in the Lorimer Case.

IS DICTAGRAPH MAN

Washington, Feb. 2.—The story of how a private detective and a phonograph figured in the alleged "trapping" of Charles McGowan, a witness in the Lorimer senatorial investigation was continued today before the special senate committee.

A. C. Bailey, a detective, who has testified that when McGowan "admitted" to him that he had received money for testifying as a Hines-Lorimer witness, a phonographic record of the alleged admission was made by a machine concealed under a table cloth, continued on the witness stand.

Attorney Hanecy, for Senator Lorimer, was waiting to hear the cross examination of Bailey when the committee began its daily hearing.

Effort to Discredit Witness.

Attorney W. J. Hynes, representing particularly Edward Hines, the lumber man, first took Bailey in hand. For 15 years, the witness said, he had been "roping" for detective agencies.

"We don't understand 'roping,'" interrupted Chairman Dillingham.

"That is what we call getting a man's confidence and leading him to tell

(Continued on Page Two, Sixth Column.)

DEMOCRATIC EDITORS OF STATE ENDORSE MARSHALL

Approve His Course as Governor and Commend Him to the National Party for Leadership.

Indianapolis, Feb. 2.—The Democratic Editorial association, at its mid-winter business session today, adopted resolutions praising the administration of Governor Marshall, indorsing his candidacy for the presidency, pointing to present democratic state officials as exponents of true "Jacksonian democracy," declaring pride in the records of Senators Kern and Shively and the democratic members of the congressional delegation and otherwise glorifying in the records of democratic achievements, and in future hopes of party success.

Officers Elected.

Officers also were chosen, Frank Gwinn, of the New Albany Public Press, who has been a vice president, succeeding to the presidency.

The other officers elected were as follows:

Charles J. Arnold, Greencastle Star-Banner, first vice president; Oscar Cravens, Bloomington World-Courier, second vice president L. M. O'Bannon, Corydon Democrat, secretary; H. F. Shricker, Knox Democrat, treasurer.

Held a Banquet.

The Editorial association held its annual banquet last night, entertained a number of friends, among them party leaders. Covers were laid for 190 persons.

A report from the resolutions committee was expected but it was announced that it would not be made until the business session tomorrow. As it is the custom of the association to elevate its vice president to the presidency, it was expected that Vice President Gwynn, of the New Albany Ledger, would be given that honor.

When Thomas Taggart was introduced as the man who had attracted more editorial comment than any other member of the democratic party the applause was equal to that given Governor Marshall when he arose to speak.

The Governor's Remarks.

Among other things Governor Marshall said:

"Let us be content to declare in our platform a few things about which all honest men in America think alike. The young men have left our party because of the little things. Democracy means that every man is entitled to have a fair chance. When any government attempts to prevent any man from having a fair chance it is not a democratic government."

A noisy ovation was tendered Mr. Taggart, after President Poynter had concluded with "whether friend or foe we all admire the gracious and good qualities of his personality."

"I am pleased to be with you," said Mr. Taggart, "but I am somewhat embarrassed. When I stand here and look in the faces of men who have stood up for the last 25 years to defend me I feel as though I were out of the way in taking up their time at this late hour. It may be true that there were some who were not throwing American beauties and violets at me but they did little harm, because they went over my head."

Taggart Defends Himself.

"I may have been called a machine man, a boss, but I have always stood for the platform and the men who were nominated. I have been in politics for many years. I have had harsh things said about me. I forgive the republicans for doing it because they knew no better. But no democrat has the right to say I run a Monte Carlo, or that I have not been on the square. I have tried to live an open life.

"I would rather do my enemies a favor than an injury, and I forgive them all. I want to see the best men nominated. I hope the day will soon come when every county in the state will select its candidates in primaries. I want to say to you that if Governor Marshall is elected president and he appoints me postmaster general that I will see that you are all taken care of, as I will appoint you postmasters."

Samuel M. Ralston, of Lebanon, and Albert J. Veneman, former speaker of the house of representatives, also spoke briefly. Mr. Ralston is one of the candidates for governor, while Mr. Veneman represented Congressman Boehne, who was not able to be present.

BERGER OPPOSED FLOOR PRIVILEGE

Socialist Congressman Did Not Want Austrian Nobleman to Talk.

THE DAY IN CONGRESS

Washington, Feb. 2.—Count Francis Von Luetzok, of Bohemia, chamberlain to Emperor Francis Joseph, of Austria, addressed the house of representatives today upon universal peace, during a fifteen minute recess asked by Democratic Leader Underwood. Victor Berger, the socialist congressman from Milwaukee, protested against a foreign nobleman addressing the house and remarked that so such distinction would ever be accorded a foreign socialist.

"Two months ago," he said, "a famous Bohemian socialist, who is a member of the reichstag, was in Washington, but was not asked to address the house."

"But surely no one objected to his being asked," said Representative Underwood.

"Oh, no," said Mr. Berger, "but I knew I would have no chance if I asked to have a foreign socialist speak to the house."

Mr. Berger withdrew his objection.

CRITICISES THE STEEL TRUST.

Washington, Feb. 2.—John A. Fitch, of Pittsburg, who has made investigations into conditions surrounding steel workers at Pittsburg and Birmingham, was a witness today before the Stanley investigating committee.

Mr. Fitch's testimony was similar to that given by Louis D. Brandeis, of Boston, who criticized the United States steel corporation's attitude toward labor and conditions under which men work in its mills.

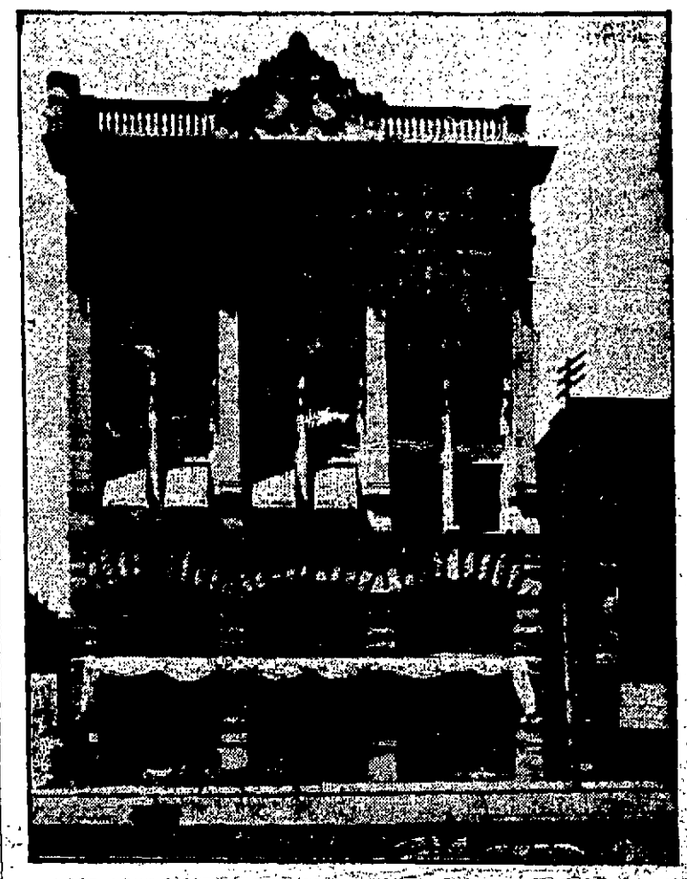
Mr. Fitch discussed the profit sharing plan of the steel corporation, its pension policy and its relief for injured workmen to the disadvantage of the company. He dwelt on methods alleged to be employed by the company to discourage labor unionism and said they were inimical to the best interests of the laborer.

"The steel corporation wields such an enormous power that it is a menace to the country," said Mr. Fitch at the conclusion of his statement.

"Conditions of work in the steel mills are demoralizing. Thinking red blooded workingmen do not care as much about welfare work as they do their rights. They are not as anxious for sanitation as they are for justice."

(Continued on Page 2, Column 3.)

Elektron Building to Become Permanent Home of the Lincoln Life.



LINCOLN LIFE PURCHASES THE ELEKTRON BUILDING

Big Insurance Company Purchases Permanent Home on East Berry Street and Will Improve Property.

The Lincoln Life Insurance company today purchased from Judge Robert S. Taylor the Elektron building, on East Berry street, and within a short time will begin extensive improvements upon the property preparatory to its occupancy as a permanent home by the big Fort Wayne life insurance organization.

The price paid for the property was not made public, but Arthur F. Hall, vice president and general manager of the Lincoln Life, stated this afternoon that the property with the completion of improvements in contemplation would represent an investment of about $100,000. A new entrance is to be constructed, new elevators installed and the building modernized down to the latest approved detail of present-day construction.

Possession is to be given March 1, and the improvements will be made during the coming summer, so that by fall the general offices of the company will be moved from their present quarters in the Shoaff building to the new home, the name of which will be changed to the Lincoln Life building.

The property has a frontage of 60 feet on East Berry street and a depth of 150 feet. It is occupied by a splendid, fire proof building, five stories in height, of stone, brick and steel construction, erected in 1895 by Judge Taylor. It was the first example of fire proof building construction in Fort Wayne, and the work is of unusually substantial character. It was designed as an office building and it has always been used as such. The improvements planned by the Lincoln Life will make it still more desirable as a building of this character.

W. F. Williams, formerly proprietor of the Home and the Maryland restaurants, has purchased the Summit City restaurant, on West Wayne street. Mr. Williams is now in charge.

MANY TRUE BILLS IN DYNAMITE CASE

Thirty Indictments Will be Voted on Next Tuesday by Federal Grand Jury in Indianapolis.

Indianapolis, Feb. 2.—Thirty indictments or more growing out of the investigation into the dynamite conspiracy have been drawn up and the possibility that they will be voted on by the federal grand jury next Tuesday was admitted at the office of United States Attorney Miller today.

After its six weeks' inquiry to ascertain who besides John J. McNamara, James B. McNamara, Ortie E. McManigal and other men already indicted were responsible for the hundred or more explosions which occurred from Massachusetts to California in the last few years and which culminated in the blowing up of the Los Angeles Times building the grand jury will report to Federal Judge A. B. Anderson.

Indictments Will Be Secret.

The indictments, if any are returned, will be secret, although the number of indictments will be made public. Who are involved will be kept secret until arrests are effected. This will be accomplished after the papers for the arrests are received in the federal districts in which the accused men are known to be.

That the grand jury had completed the examination of witnesses and was practically ready for action on its final report was announced by Mr. Miller when he adjourned the jury until Tuesday at 2 p. m. Between now and Tuesday his clerks and assistant attorneys will be engaged in drawing up papers as directed by the jury. It is said three charges upon which the government based its search for evidence were:

Violation of the federal laws regulating interstate transportation of explosives.

Conspiracy to violate the laws regulating transportation of explosives.

Concealment of knowledge of the guilt of those who committed any of the other two crimes.

McManigal's Evidence Important.

McManigal, who confessed to carrying dynamite and nitroglycerine about in suit cases and who became the government's chief witness in tracing the complicity of others, has left Indianapolis and is believed to be on his way to Los Angeles. The importance of McManigal's information to the government covering his career as a member of McNamara's "dynamiting crew" from June, 1909, down to his arrest last April and his experiences with others, it is said, will be emphasized by the jury's report.

"I believe the jury will be ready to begin forming its report on Tuesday," said Mr. Miller, "but I do not know that all the work will be done by that time. The necessity of keeping secret the names of those indicted, if any indictments, are returned will be increased in this case because of the wide territory that might be involved.

The Indiana supreme court today made the order of dismissal of the appeal of John J. McNamara and the International Association of Bridge and Sstructural Iron Workers from the order of Judge Markey in giving the evidence in the dynamite case to District Attorney Miller for use in the federal court.

(Continued on Page 16, Column 1.)

STORM THE JAIL AT CHIHUAHUA

Mutineers Attempt Liberation of Political Prisoners, But Fail.

TROUBLE IS SERIOUS

Chihuahua, Mexico, Feb. 2.—A mob of 150 men assaulted the penitentiary today. They were repulsed after two hours' hard fighting by troops. Three rural guards were killed. General Orozco commanded the defenders.

It is reported that 400 men are mobilizing in the vicinity of the town declaring that they will cut the water supply.

NEWS IS CONFIRMED.

Mexico City, Feb. 2.—An attack was made today on the penitentiary at Chihuahua for the purpose of liberating Antonio Rojas, who surrendered with his followers at Moris, in the southern part of the state, where he and his followers had revolted while stationed at the Dolores mines.

According to reports received by the department of the interior an attempt was also made to release Juan Alatorro.

Antonio Rojas, a few deeks ago, led a band of insurrectionists in favor of Emelino Vasquez Gomez. The mob was led by Captain Medoza, who formerly was a captain of the rural guard, but lately was discharged from the service by General Pasqual Orozco. No official advices as the result of the fight have been received.

TEXAS GOVERNOR IS READY.

Austin, Texas, Feb. 2.—In a message sent to President Taft today Gov. Colquitt today advised the president that

(Continued on Page 2, Column 2.)

SEEK TO JUSTIFY RATES.

Washington, Feb. 2.—Efforts were begun today by the express companies at the hearing of express rates before the interstate commission to justify existing rates because of the expenses of handling and transportation and delivery. In detail George C. Taylor, vice president of the American Express company and general manager of the western department, explained the operations of that company.

PRESIDENT ASKS LAWS FOR ALASKA

In Special Message Recommends Government Trunk Railway---Considers Whole Public Domain.

Washington, Feb. 2.—President Taft today sent to congress his promised message on Alaska and the public domain in general. In urging the construction of a government railroad, a commission form of government and other needed legislation for the far-away territory, President Taft declared there was nothing in the history of the United States which afforded such just reason for criticism as the failure of the federal government to extend the benefit of its fostering care to Alaska.

"I am not in favor of government ownership where the same certainty and efficiency of service can be had by private enterprise," said the president, "but I think the conditions presented in Alaska are of such a character as to warrant the government, for the purpose of encouraging the development of that vast and remarkable territory, to build and own a trunk line railroad, which it can lease on terms which may be varied and changed to meet the growing prosperity and development of the territory."

President Taft said there was little likelihood that the Morgan-Guggenheim interests would open up a railroad under the present conditions in Alaska.

The president would have a commission form of government for Alaska, one-half of the commission to be elected and the other half appointed by the president.

A leasing system was proposed by the president for government coal and phosphate lands in Alaska, as well as in the United States.

Reclamation.

The reclamation laws of the United States should be modified, in the opinion of the president, so that a homesteader might be guaranteed a patent at the end of five years of cultivation and three years of occupation. The president also would relieve homesteaders from the requirement of occupation at a time when the condition of the land would make it burdensome and difficult.

Following a suggestion of Secretary of the Interior Fisher, President Taft declared in his message that the control of water power sites should remain in the national government rather than be turned over to the states. He would have the sites disposed of by direct lease from the government, the rental to be used in improvement of the stream and for the benefit of the local community where the power site was located. The president would give to the states the right to regulate the rates at which the converted power was sold. The proper disposition of water power sites has been one of the most serious subjects discussed by conservationists. President Taft believes that the leasing system he now suggests is the best solution of the problem; that it would mean honesty of administration and the prevention of abuses which a monopoly of absolute ownership in private persons or companies would make possible.

Text of Message.

The text of the president's message is as follows:

To the Senate and House of Representatives:

There is no branch of the federal jurisdiction which calls more imperative

(Continued on Page 3, Column 1.)

WOMAN TO BE NEW YORK'S SUPERVISOR OF BUYING

New York, Feb. 2.—Henceforth the city's marketing is to be done under the eye of a woman. Mrs. Anna W. Von Hohoff has been made examining inspectress of the inspection bureau of the finance department of New York, and that means that it becomes largely her duty to watch all purchases of the city and to certify whether they are according to specifications. Whenever James J. Moore, chief inspector, is away, Mrs. Von Hohoff will be acting chief inspector in command of the bureau.

Mrs. Von Hohoff will have a pleasing satisfaction of ordering dealers to send up right away to Mrs. Von Hohoff, care of the city of New York, samples of anything they have to sell which the city wants to buy.

DID NOT SEE HIS SHADOW.

Danville, Ind., Feb. 2.—One groundhog, at least, did not come out of its hole today to see whether it had a shadow. This groundhog is owned by Ray Fronk and it has been hibernating since Nov. 5 in a hole under the drug store of Julius Marsh. Fronk captured the little animal when it was only a few days' old. For weeks it took milk from a spoon and soon developed an abnormal appetite for ice cream in cones. Later it would eat raw meat. Dick, as the groundhog was named, had the freedom of the store and was soon a great pet.

About the middle of October Dick began digging a hole under the floor. On Nov. 5 it went into the hole for its winter sleep and since that time it has not shown itself. A close watch was kept today, but not a sign of the groundhog was seen.

ELECT FRED SIMS; TO ENDORSE TAFT

New Republican State Committee Picks Chairman to Succeed Lee and Will Approve Taft Candidacy.

Indianapolis, Ind., Feb. 2.—Fred A. Sims, of Frankfort, was elected chairman of the republican state committee by the new committeemen at the Claypool hotel this afternoon.

Will H. Hays, of Sullivan, a member of the committee, was to be elected vice chairman, and Frank D. Stalnaker, of Indianapolis, treasurer.

The committee is expected to adopt a resolution, before adjournment, in which the candidacy of President Taft for renomination will be endorsed.

Sims Says He's Willing.

Just before the committee went into session this afternoon it was announced that Mr. Sims had decided he would accept the chairmanship and this practically decided the matter. As the result of an informal discussion among the committeemen it was shown that they were agreed that President Taft should let the party's nominee for the presidency. They said they felt that their position would not be misunderstood if they adhered to the rule of the state committee to refrain from adopting a resolution endorsing any candidate for the presidency. The committeemen expressed the opinion that the people of Indiana would know that they were favorable to Mr. Taft, as all the thirteen district conventions of the state, except one, had shown themselves favorable to him, and that one had not have any resolutions on any subject.

Other Committee Officers.

It was expected that the committee would elect Will H. Hayes, of Sullivan, vice chairman, and Frank D. Stalnaker, of Indianapolis, treasurer of the committee. The new state chairman probably will not announce the appointment of a secretary or the make-up of the executive committee for two or three weeks.

The committee was to choose a date for the preliminary state convention to be held for the purpose of electing delegates to the republican national convention.

Members of the committee believe that the convention for making a party platform and the nomination of state officers should be held after the republican national convention. The sentiment seemed to be that the early convention should be held about March 10 to 12. The date for the other convention was not to be fixed at this time.

It now seems reasonably certain that James P. Goodrich, of Winchester, will become the Indiana member of the republican national committee on the retirement of Harry S. New, who has announced that he is not a candidate.

MARRIAGE LICENSES.

ADDITIONAL SOCIETY

Mrs. Henry J. Bowerfind and children have returned from a month's visit in Washington, D. C., with her sister, Mrs. Eberbach, and her aunt, Mrs. Enoch Schroeder.

Members of the Sorosis and Thursday Afternoon clubs united in giving Mr. and Mrs. Joseph McKenna, of West Jefferson street, a most agreeable and merry surprise party last evening in honor of the second anniversary of their marriage. The ladies of the club went in the afternoon and invited their husbands to follow them at 6 o'clock for supper which they had prepared. The guests took some pretty gifts with them such as candlesticks with candles to light the future for the wedding day celebrants, and a brush and crumb tray to brush the obstacles from their path. At least those were the pretty sentiments expressed on cards accompanying the gifts. Those who took part in this good time were Mr. and Mrs. Arthur Johnson, Mr. and Mrs. O. L. Hutchins, Mr. and Mrs. F. M. Palmer, Mr. and Mrs. I. E. Lane, Mr. and Mrs. H. O. Wilson, Mr. and Mrs. A. L. Gilbert, Mr. and Mrs. John Winegart, Mr. and Mrs. I. W. Langford, Mr. and Mrs. N. K. Smith, Mr. and Mrs. D. B. Evans, Mr. and Mrs. F. P. Glazier, Mr. and Mrs. Eric Peterson, Mr. and Mrs. C. M. Johnson, Mr. and Mrs. L. E. Baker, Mr. and Mrs. Robert O. Orff, Mr. and Mrs. J. W. Thompson, Dr. and Mrs. S. T. Henderson and daughter, Ruth, and Mr. and Mrs. Joseph Boyle.

STORM THE JAIL AT CHIHUAHUA

(Continued from Page One.)

if necessary he will use drastic measures to protect citizens of El Paso from a recurrence of conditions that prevailed on the American side in the battle of Juarez. He asks the president to notify the Mexican government not to fire across the border.

"My advices," says Gov. Colquitt in his message to the president, "indicate serious disturbances at Juarez, opposite El Paso. I have disbanded the extra ranger force as per your suggestion. I ask that you give directions to the war department to protect the citizens of Texas from the firing of Mexican bandits across the border. I ask that you give notice to the mutineers and Mexican government that they must not shoot into El Paso as they did at the last battle of Juarez. If necessary I will take drastic steps to prevent this recurrence. Please advise me."

Despite the government's promise to provide back pay due the soldiers the mutineers in Juarez are not satisfied. They say President Madero must assure them that he never intended to dismiss Gen. Pasqual Orozco and that the present custom officials, held over from the Diaz regime, must be replaced with "heroes" of the insurrection of last winter.

FIGHTING IN CHIHUAHUA.

El Paso, Texas, Feb. 2.—Mexican Consul Llorente, in El Paso, today admitted that there is fighting in Chihuahua. He says part of the garrison is in rebellion and that the loyal troops are attempting to subdue the mutineers.

Consul Llorente's advice is from Acting Gov. Gonzales at Chihuahua. Private advices reaching here at noon state that there is fighting around the penitentiary in Chihuahua.

The entire mutinous garrison in Juarez assembled on the sand hills south of the city this afternoon in anticipation of the approach of troops from Chihuahua.

A special train was made up in the Juarez yards at 1 o'clock and a body of men taken aboard and taken south as scouts to intercept any troops that may be coming from Chihuahua.

The mutineers have received private advices from Chihuahua of the muting there of a part of the garrison and are

OROZCO ON THE WAY.

Chihuahua, Mexico, Feb. 2.—A detachment of 100 of General Pasqual Orozco's men, under Captain Rosa, left in a special train for Juarez at 6 o'clock last evening. General Orozco, with several hundred more men, probably will leave here today.

CALLED TO FORT WAYNE.

Bluffton, Ind., Feb. 2.—Mrs. Fred Chennour, of Roanoke, who was here Wednesday to attend the meeting of the Ladies of the Maccabees, received a message informing her that her father, Charles Koontz, had been stricken with paralysis, and was in the Hope hospital at Fort Wayne. She left immediately for Fort Wayne.

PART OF BALDWIN ESTATE SOLD.

Los Angeles, Feb. 2.—Five hundred acres of the Cienega ranch, a part of the holdings of the "Lucky" Baldwin estate, have been sold for $1,250,000. The sale is subject to the approval of the probate court.

HE STOLE $40,000.

Los Angeles, Feb. 2.—Detective Chapman left today for Ossining, N. Y., to bring back Troy Smith, alias Charles Ray Spaulding to answer a charge of having robbed the Wells Fargo company of $40,000 almost ten years ago. Smith is serving a term in Sing Sing for grand larceny.

W. F. Williams, formerly proprietor of the Home restaurant and also the Maryland, has purchased the Summit City restaurant and is now in charge of same.

NEW MEMBER TO JOIN THE BOARD

Park Commission to Be Reorganized With Prof. Dorn on Roster.

MEIER TO RESIGN

At the meeting of the city park commission to be held on Monday afternoon it is likely that Prof Louis Dorn, of

PROF. LOUIS DORN,
Position on Park Board Will Be Tendered to Him.

Concordia college, will become a member to succeed Ferdinand Meier, who is contemplating retiring from his place.

Mr. Meier has another year to serve under his appointment, but his time has been so occupied that he has been unable to give much attention to his duties and in view of the active campaign before the body it is desired that all the members be in position to give as much time as will be required to transact the heavy volume of business in sight.

Prof. Dorn has not been approached in the matter, but he is an enthusiastic civic improvement advocate and when Mr. Meier retires he will be given a chance to fill the vacancy.

At the election and reorganization to be affected at the meeting Monday afternoon Col. D. N. Foster will in all probability be selected as president for the present year.

RIG IS RECOVERED.

Outfit Stolen From Local Livery Barn Held at Greenville, O.

Notice was received here this afternoon at the office of Sheriff A. M. Reichelderfer that a livery horse and buggy stolen Wednesday night had been located at Greenville, O., and the thief captured. Cards were sent out and trace obtained at Celina, O., and from there Deputy Sheriff Eick followed the man by use of the telephone.

BERGER OPPOSED FLOOR PRIVILEGE

(Continued from Page One.)

Representative Gardner, of Massachusetts, opposed the witness.

WILL DISCUSS STEEL BILL.

Washington, Feb. 2.—The senate finance committee's plan of action on the democratic steel bill is to be mapped out at a meeting of the leaders late today. The regular republicans contend for full hearings to the interests affected by reductions proposed in the bill. The democratic senators will not object to this if hearings are expedited.

The republicans are favorably inclined toward a substitute for the Underwood bill. They do not like the ad valorem system of duties proposed.

THE STEPHENSON CASE.

Washington, Feb. 2.—Final argument on the charges of bribery and corruption made in connection with the election of Senator Stephenson, of Wisconsin, will be made tomorrow before the senate committee on privileges and elections. Chas. E. Littlefield, former representative in congress from Maine, will represent the senator.

A report of the sub-committee which investigated the charges completely exonerates Senator Stephenson. The full committee, however, has not unanimously accepted that report, and it is said three senators will file dissenting opinions.

SEEK FRIENDLY SETTLEMENT.

Washington, Feb. 2.—Negotiations for a friendly settlement of the government's anti-trust suit against the United Shoe Machinery company were resumed today at the department of justice.

Chas. F. Choate, general counsel, and Elmer P. Howe, a director of the company, conferred with Assistant to the Attorney General Lawler. It has not yet developed whether the company will endeavor to include the criminal suit as well as the civil action in the attempt to reach a settlement.

THE DAY IN CONGRESS.

Washington, Feb. 2.—The day in congress:

Senate.

Not in session. Meets Monday 2 p. m.

Lorimer election investigation continued with Detective Bailey testifying.

Finance committee will decide late today its action on democratic steel bill.

Coal operators urge before inter-state commerce committee an inter-state trade commission.

House.

Met at noon.

Pension appropriation bill passed.

Steel trust investigation resumed hearings.

President Taft's message recommending legislation for Alaska and public domain in general, and urging international inquiry into high cost of living was read.

Leader Underwood announced he would present to democratic caucus Wednesday a resolution for separate "money trust" and shipping combine investigations.

BRITISH SUBMARINE BOAT IS SUNK AND CREW LOST

Diver, in Collision With Another Warship, Quickly Fills and Goes to Bottom Like a Stone.

Portsmouth, Eng., Feb. 2.—The total loss this morning of the British submarine "A 3," with the whole of her crew, after collision with the gunboat Hazard, adds another to the long list of similar accidents which have in recent years thrown the British navy and nation into mourning.

The crew of eleven men on board the little vessel, which is one of the older class, was composed of volunteers from the men of the fleet, as is the case with the complements of all submarines. The men, in spite of the hazardous nature of the service, like the work.

Besides the regular crew of ten men and a lieutenant who were on board the "A 3," the admiralty states that three other lieutenants were on the vessel going through a course of instructions and were drowned when the submarine sank, making a total of fourteen deaths.

Torpedo practice had been in progress for some time and the submarine "A 3" was partially submerged when she came into collision with the gunboat Hazard.

Cut Into Submarine.

The gunboat was steaming at a fairly high rate of speed and when she struck the submarine her bows cut a big rent in the little vessel's side. As the "A 3" settled down, which she did in a few minutes, and then disappeared, air and gas bubbles appearing on the surface told the crew of the Hazard that she was filling with water.

The commander in chief of the Portsmouth division of the British navy, confirms the flooding of the submarine "A 3" and the drowning of the whole of her crew

The submarine "A 3," which went out of the harbor this morning to carry out a series of diving and torpedo exercises, sank like a stone immediately after her collision with the gunboat Hazard.

A big escape of gas, which was observed on the surface after she sank, indicated that the vessel quickly filled with water.

The submarine lies on the Princeton shoal almost on the same spot where the submarine "A 1" was lost with all hands on March 18, 1904.

Long Train of Disasters.

British submarines belonging to the "A" class have been singularly unfortunate. The "A 5" had six men killed and twelve injured by an explosion at Queenstown on February 16, 1905. The "A 8" sank off Plymouth on June 8, 1905, when fourteen men out of her crew of eighteen, lost their lives.

The "A 4" sank during the meneuvers at Portsmouth on Nov. 16 of the same year, but the whole of her crew was rescued with considerable difficulty. The "A 1" had seven of her crew badly injured by an explosion on Aug. 6, 1910.

This class of boat is a single schew submersible of a modified Holland type with a length of 100 feet and a beam of 12 feet 8 inches. The displacement is 180 tons. They are driven by gasoline motors when on the surface of the water and by electric motors when submerged. They have a surface of speed of 12 knots and a submerged speed of 8 knots. The motors develop 500 indicated horse power on the surface. The armament consists of two torpedo tubes.

FORT WAYNE IS FAVORED CITY

Democratic Editors of Indiana May Come Next Year.

SUGGESTION IS MADE

Indianapolis, Feb. 2.—Fort Wayne was favored as the city at which the democratic editors will assemble at the meeting next summer. The association also took steps to co-operate with the Republican Editorial association in a fight against the increase of postal rates on second-class matter as now proposed by the postoffice department, the editors urging that instead of the department's plan legislation be enacted which will make the amount of postage commensurate with the distance traveled by the newspaper.

LIBRARIANS HOLD MEETING.

Fifteen Cities Represented in Session at South Bend.

South Bend, Ind., Feb. 2.—Public librarians from fifteen northern Indiana cities met in South Bend last evening to informally discuss the needs and the betterment of libraries in their respective cities. The session was under the leadership of Miss Virginia Tuet, librarian for South Bend. Among those who were prominent in the program of the afternoon were: Librarians Daly and Peters, of Gary; Jewell, of Valparaiso; Ricker, of Michigan City; Sweeney, of South Chicago; Calhoun, of Whiting; Barry, of Warsaw; Heatvale, of Goshen. No time was set for the next district meeting, but it probably will be held in May, and librarians from southern Michigan towns will be invited to attend.

THREE MURDERERS SENTENCED.

Bedford, Ind., Feb. 2.—Judge Shea has passed sentence on three men found guilty of murdering James Mitchell, a farmer, who lived near here. Charles Mitchell and Joseph Fultz were given life terms and Oliver Younger was sentenced to a term of from two to twenty-one years in the state prison.

THINKS HE SEES FINISH OF CASE

Attorney Thomas Made a Bad Guess in the Steward Hearing.

TRIAL IS DRAGGING

Attorney Albert E. Thomas made a bad guess yesterday when he said the Oliver Steward search warrant case would be closed by time for adjournment of the circuit court so he took another guess today and fixed the finish at late this afternoon.

He said when court convened for the afternoon session that he had only a few odds and ends of evidence that had been suggested by Senator Ellison and believed he would be able to wind up.

In the trial the W. C. T. U. attorneys have endeavored to establish that Steward had no license for the particular location in which his bar was situated, that the fair was an agricultural institution, that Steward was not the sole owner of the business and that Dan Clemens was involved in the ownership. The opposition is just as confident and is ready to put on its proof tomorrow.

Sues to Recover $1,000.

Suit has been entered by the Journal-Gazette company to recover $1,000 from Frank D. Walters and Oscar G. Foellinger. It is set out that both men, while employed by the company, used time and material belonging to it to promote a private matrix service which it supplied to papers outside of Fort Wayne.

Just how extensive this service was the company is not able to say, but it makes the statement that $1,000 is due for lossses sustained in its operation. Thomas & Townsend filed the suit. Walters was formerly advertising manager and Foellinger was once business manager for the company.

Demands a Divorce.

Myrtle Baldwin has entered suit against Lewis Baldwin demanding a divorce. She charges that he treated her cruelly and failed to make provision for her support.

COMBING OUT A TRAINED SLEUTH

(Continued from Page One.)

things he otherwise would not tell," explained Bailey.

Attorney Hynes made the witness give an account of all his detective work.

The drift of Attorney Hyne's examination was intended to discredit Bailey as a witness. The attorney asked if Bailey had not been discharged for dishonesty while a street car conductor in New York. Bailey said he had not.

Attorney Hynes thought it incredable that after five days' acquaintance with Bailey, McGowan should have admitted his "perjury," but the witness seemed to stick to his theory.

Chairman Dillingham demanded to know why Bailey had not called in a third party to hear McGowan's "admissions."

"There was nobody to call in."

"What? No man in Regina?"

Bailey said he had not proposed to try the dictagraph or a third man until he and McGowan were in Chicago.

"Couldn't you have worked the dictagraph in Chicago as well as in Toronto?"

The witness said at first he could not "account for it." Later he explained his office told him after he came to Chicago that he need only keep in touch with McGowan as the committee was considering discontinuing his work.

"Isn't the reason you didn't get a third man to hear McGowan on your hunting trip or in Regina or Chicago because he never made any such statement as you charge?" demanded Attorney Hynes.

"I don't think McGowan will go on the stand and deny it," Bailey retorted as he turned to face young McGowan.

PLACES BAN ON SOCIETIES.

Richmond, Ind., Feb. 2.—Following a thorough investigation of the fraternities and sororities which have flourished among the students of the Richmond high school for several years, the school board has placed its official ban upon them, and in an order read to the students in chapel this afternoon, made it plain that the societies must go. On and after Feb. 10, on which date the order becomes effective, no students can continue in the Richmond schools who is identified with the societies. The school board declares that its investigation has proved that membership in these societies is detrimental.

CITY BREVITIES.

Con W. Schuler is about again after an illness which has confined him to his home for the past three weeks.

Walter H. Butler, recently discharged from company L, Fourth cavalry, applied at the local army recruiting station this morning for re-enlistment in the coast artillery at Fort Brabous, Florida.

Thursday evening, Feb. 15, has been fixed as the date for the annual banquet of the Fort Wayne Retail Merchants' association. Among the speakers who will be on the program are Carl Lieber, of Indianapolis; H. S. Norton and W. W. Highland, of Gary, the latter president of the Indiana Retail Merchants' association. The banquet will be held at the Commercial club.

FUNERAL NOTICES.

McCarthy.—Funeral services for Mrs. Mary McCarthy will be held Saturday morning at 10 o'clock from St. Patrick's Catholic church.

Mourey.—Funeral services for W. H. Mourey will be held Saturday afternoon at 2 o'clock from the residence, Rev. J. K. Cecil officiating. Interment at Lindenwood cemetery.

SHERMAN SAYS IT IS TAFT.

Washington, Feb. 2.—Vice President Sherman at the white house today added his comment to that of other republican leaders who believe President Taft will be renominated and re-elected.

"The situation so far as President Taft is concerned has improved wonderfully in the last four weeks," said he. "During three weeks of that time it was under the surface; in the last week the improvement has been above the surface. I never have had a doubt as to the renomination of President Taft. The republican party wins its victories in November and not in February. History will repeat itself this year," Mr. Sherman concluded.

FORM PARTNERSHIP.

Dr. J. E. McArdle and Dr. L. Park Drayer have formed a partnership for the practice of medicine and Dr. McArdle removed his office Thursday to the Minuet building and took up quarters with Dr. Drayer.

SURVIVES WAR; DIES IN FIGHT

Indianapolis Veteran of 78 Years Killed in a Brawl.

HE WAS WORTH $10,000

Indianapolis, Ind., Feb. 2.—William McGaffigan, 78 years old a veteran of the civil war and owner of an estate valued at $10,000, died at a hospital today following an early morning fight in an alley in the down town district. Patrick McSloy, a Canadian, was arrested charged with murdering McGaffigan. Witnesses told the police McGaffigan and McSloy, both intoxicated, engaged in a scuffle and McSloy knocked McGaffigan down and his head struck the pavement. Death was due to concussion of the brain.

DR. SWERINGEN'S FUNERAL.

Eight Physicians to Act as Honorary Pall-Bearers.

Funeral services for Dr. Hiram VanSweringen will be held at 2 o'clock Saturday afternoon from the residence of a son, Dr. Budd VanSweringen, 208 Washington boulevard west. Rev. C. Claud Travis, pastor of Wayne Street Methodist Episcopal church, will be the officiating clergyman.

The pall-bearers will be the sons and a son-in-law of the dead physician, and eight of his close friends in the medical profession have been chosen as honorary pall-bearers. They are Dr. Miles F. Porter, Dr. G. W McCaskey, Dr. J. M. Dinnen, Dr. A. P. Buchman, Dr. K. K. Wheelock, Dr. G. L. Greenawalt, Dr E. J. McOscar and Dr. C. B. Stemen

In compliance with directions given by Dr Sweringen his remains will be cremated at Lindenwood.

Hassenpfeffer dinner, Saturday, 11 to 2 p. m.—25c, at the Hof Brau.

The Price We Ask for Glasses May Not Be Lower Than Others Ask

for glasses that "look" like our glasses, but the results obtained from wearing our glasses and looking THROUGH our glasses are so much better that you get greater value and more satisfaction out of our glasses.

Any statement we make is not based on what WE tell you, but on what those who wear our glasses tell US.

We ask you to consider when we say our glasses are better qualified and lower priced to give you the greatest value and satisfaction.

No charge for examination.

News of Our Neighboring Towns

AVILLA WILL SOON BE WELL LIGHTED

Indiana Fuel and Light Co. Will Run Pipes from Kendallville for That Purpose.

Kendallville, Ind., Feb. 2.—Avilla, six miles south of this city, one of the county's busiest and best towns, will have a gas lighting system installed and pipes laid from Kendallville if the town board follows the step that has been taken by forty-three of the town's progressive citizens.

For several years electric lights have been talked of at Avilla, but no definite decision could be arrived at and as the result the town has been without artificial lighting. Recently Manager A. J. Campbell, of the Indiana Fuel & Light company, of this city, offered a good proposition to the Avilla citizens. He consented to have pipes laid to Avilla if the town board of that place would agree to purchase gas for street lighting and at least thirty of the town's residents would sign agreements to buy gas for cooking and lighting purposes.

H. A. Moore, one of the citizens of the town, took the matter in hand and in less than twenty-four hours obtained the signatures of forty-three citizens who are willing to buy their fuel and lights from the local company.

Mr. Campbell says that in case an agreement is reached with the town, the material will be ordered at once and the mains connecting Avilla with the plant at Kendallville will be laid as soon as the weather conditions permit.

IS NOW 90 YEARS OLD.

Decatur Woman Who is Active and Yet Does Her Own Work.

Decatur, Ind., Feb. 2.—Mrs. Sarah Cochran, of Marshall street, is ninety years old today. She is a remarkable woman for her age and her spiritual and physical life is the admiration and wonder of all. "Grandma" Cochran stands high in the Methodist church and is said to be the oldest active member. Friends of Mrs. Cochran say that she looks after her house better than many women who are half as old as she. For years she has done her own washing and other hard work.

MARRIAGES IN ADAMS.

Decatur, Ind., Feb. 2.—Clerk Bleeke has compiled his report to the state board of health of marriages solemnized in January by authority of licenses issued in Adams county. The report shows that seventeen returns filed by ministers and magistrates who solemnized the marriages. Fourteen licenses were issued during the month.

LOTS BOUGHT FOR NEW ROUNDHOUSE

It is Certain That B. & O. Will Put Up a Big Building at Garrett.

Garrett, Ind., Feb. 2.—The options taken recently by a representative of the real estate department of the B. & O. for the purchase of the dozen lots in the three squares on Quincy street, west from Cowen and Guilford, for the construction of the company's new roundhouse here, have been officially accepted. Assistant Real Estate Agent Moran, of the company, has closed the final contracts. Now the fact is settled that there will be a new B. & O. roundhouse built in Garrett.

The lots purchased are fifty feet deep and will be used as a street to take the place of what is now Quincy street. It is expected the council will be asked at its meeting next week to vacate the present street. It is understood the plans for the roundhouse are completed and accepted by the officials, so that work will go forward as soon as the weather will permit.

LEO NEWS.

Leo, Ind., Feb. 2.—Quarterly meeting will be held at Cedarville Sunday, Feb. 4. The district superintendent will preach Sunday evening.

Frank Hollopeter and family, of Grabill, spent Sunday with Wm. Snider and wife.

Mrs. George Hollopeter is spending a few days with her daughter, Mrs. Clarence Page.

Mr. and Mrs. H. L. Moudy returned home Tuesday after spending a few days with their daughter, Mrs. Chas. Pepe and husband, at Monroe, Ind.

Frankie Krider attended sunday school and church at Robinson chapel Sunday.

Mr. and Mrs. John Moudy called on Mr. and Mrs. Samuel Disler Wednesday evening.

DENOUNCED PROCTOR LAW.

Goshen, Ind., Feb. 2.—J. Frank Hanly, of Indianapolis, and Judge E. E. Ballard, of Crawfordsville, addressed an omni-partisan meeting here yesterday afternoon. Resolutions were adopted denouncing the Proctor saloon law and demanding the re-enactment of the county local option law.

WELLS COUNTY DEMOCRATS.

Bluffton, Ind., Feb. 2.—The democratic county central committee of Wells county will meet in this city at one o'clock Saturday to select a county chairman. The belief is expressed that B. A. Batson will be re-elected without opposition.

MARKLE NEWS.

Markle, Ind., Feb. 2.—Lela Preaky, residing south of town, leaves the latter part of this week for an extended visit in Indianapolis and Bloomington.

C. W. Robinson and family, of Bluffton, spent Saturday and Sunday with local relatives.

Floyd Robinson, of Bluffton, spent Sunday with his parents at this place.

Lloyd Hinkle, of Huntington, was a business visitor here Monday.

Mrs. Vol McKim, of Huntington, was a guest of Markle residents over Sunday.

Mrs. Victor Gamble is quite ill with pneumonia.

J. M. Stuart is on the sick list since Monday.

Mrs. Ora Bonewitz, living west of town, is reported ill.

Mrs. Rufus Platt, living north of town, who has been seriously ill for some time, is reported better.

James Baker, who has been residing near Union Center, has sold his farm and will move to Sheldon about March 1.

John Davis, who was attending school at Valparaiso, was compelled to return home last week on account of sickness.

Mrs. Dan Highlen fell on the ice Tuesday morning and was seriously injured. The age of the lady makes it difficult to determine the outcome.

On account of the boiler being out of commission at the creamery, the Poorman threshing engine was used to run the machinery Saturday and Monday.

The hog receipts in the local markets have been unusually heavy the last few days.

Mrs. John Kelsey is reported on the sick list.

George Line made a business trip to Bluffton Tuesday.

Mrs. Harry Ulmer, of near Bluffton, spent Saturday with local relatives.

Ed Lakey attended to business matters in Huntington Monday.

Emma Purcell, of Noblesville, visited local relatives last week.

Sam Nickolson, of Roanoke, attended the funeral of Mrs. Mary Nickolson, at this place Monday.

Jess Sonner left Monday for North Dakota after an extended visit with Zanesville relatives.

Mrs. Jennie Allen is assisting the clerks to invoice at the Bender store this week.

Salome Dumbald attended the funeral of her uncle, Wm. Brubaker, at Columbia City Sunday.

A deal was completed the latter part of last week whereby Chas. and Cliff Lines become the owners of the late L. N. Lines farm, northeast of town.

SUNDAY PICTURE SHOWS.

Lutheran Conference Refuses to Accept Money from Them.

Hartford City, Ind., Feb. 2.—The mid-winter session of the Indianapolis conference of Lutheran ministers closed at Zion's church Thursday and adjourned to meet next at Marion. The question of accepting money from Sunday picture shows for charitable purposes was discussed and it was voted by the conference that such money should be rejected by the church.

BLACKFORD FARMERS MEET.

Hartford City, Ind., Feb. 2.—Programs for the twenty-second annual meeting of the Blackford county farmers' institute, to be held February 6 and 7, in the circuit court room, have just been issued by the officers of the association. The institute convenes next Tuesday and will be in session two days.

ANTWERP NEWS.

Antwerp, O., Feb. 2.—The firm of Knight & Place, of the south side meat market, have dissolved partnership, Mr. Knight retiring. Mr. Place will continue the business at the old stand with the assistance of Ike Hallock as meat cutter.

Alfred Booth, who has been farming the George Webber farm just across the line in Indiana, has given up farming and has accepted a position in the Hicksville National bank, where the work is lighter.

W. J. Snell is building a commodious barn on his lots lately acquired on West Washington street.

Mrs. A. J. Schilb entertained the members of the Thimble club at her cozy West River street home Wednesday evening, and the event was a very enjoyable one.

A number of our young people, including Ernest Pugh, Nellie Saylor, Hazel Foster, Wade Anspaugh, Eunice Snook, Clifford Anspaugh, Fern Lacy, Harvey Delong, Flossie Hughes and Lloyd Pugh, went to Hicksville Tuesday evening and partook of the hospitality of Mrs. Parker Murphy, who served a two-course lunch in the way she knows about how to do, and the evening was made a very enjoyable one for all.

In the bidding for the county funds at Paulding, Monday, the Antwerp Exchange bank of this place annexed $25,000 for a term of three years.

George W. Webber, rural carrier on route No. 1 out of this village and who has served in this capacity the last nine years, has resigned. His successor has not yet been appointed. There are five or six on the waiting list eligible for the job. Charley Reeb, we learn, is the high man, having passed the examinations with a grade of 97½. David Filley is next with a grade of 96, and Hugh White is close up with the leaders, while Jeddie Webber and others are in the race and may come down the stretch ahead of the bunch yet.

Ray Hostetler was called to Fort Wayne Thursday on business.

Rev. Bardelmier is having a large indicator made to determine the degrees of attendance at the Presbyterian church Sundays. It will be in the form of a thermometer with the degrees marked on it, 100 being normal.

Miss Olive Corkins is spending the week at Toledo, where she is the guest of her sister, Mrs. Frank Pio and family.

J. P. Mooney was a Fort Wayne visitor Thursday.

Mrs. Thomas Barber went to Fort Wayne Saturday called there by the illness of her sister.

A. A. Pointer, proprietor of our electric light plant, who fell and injured his spine some few days ago and who later entered St. Joseph's hospital at Fort Wayne for treatment, we learn is in quite a serious condition. While not dangerous, it will take some time to heal the injury.

The W. C. T. U. held a meeting yesterday afternoon at the home of Mrs. D. E. Hackedorn, where they were agreeably entertained by that lady.

Petitions are out for the renomination of T. T. Ansberry for member of congress from the Fifth district.

E. G. Scoby, of Beaverton, Mich., is here the guest of relatives. This is his first visit back to the old town in eighteen years. He says there is a big change in the appearance of the town and country, especially the country, which was then just emerging from the woods and swamps.

Things are moving along nicely over at the high school since Frank Wilson nearly lost his life in fastening the colors of his class to the flagpole on top of the school building and was rescued by the janitor and given "first aid to the injured"—put where he could thaw out.

CONVOY NEWS.

Convoy, O., Feb. 2.—The Ladies' Aid society of the Methodist church met Wednesday afternoon with Mrs. Sherman Larue.

Mrs. Charles Fraylick, of Monroeville, is visiting relatives here.

E. C. Marshall and wife, of Dixon, spent Sunday with relatives in Convoy.

Miss Ethel Sparkman spent Sunday with friends in Van Wert.

The Bachelor Girls' club met Saturday evening with Miss Georgia De Hays.

O. R. Conley was a Fort Wayne visitor Sunday.

Mr. and Mrs. John Knox spent Sunday with relatives in Antwerp.

Mrs. Wm. Dressel spent Sunday with Fort Wayne friends.

Herman Sparkman, of Fort Wayne, spent Sunday with relatives here.

Mrs. J. R. Swaney spent Sunday with relatives in Van Wert.

Frank Wyant and family and Prof. J. W. Wyant, of Bryan, O., spent Sunday with their grandparents, south of town.

Mr. and Mrs. Martin Brown, of Dixon, spent Sunday with relatives here.

Mrs. H. Holmes was a Van Wert visitor Saturday.

Mrs. B. De Hays was a Van Wert caller Saturday.

Mr. and Mrs. Geo. Blask spent Sunday at the home of Mr. and Mrs. C. W. Campbell.

Mrs. Nellie Wickert, of Van Wert, spent Sunday at the home of C. W. Miller.

Miss Norma Etter was a Van Wert caller Saturday.

Mr. and Mrs. E. Moyer spent Sunday with relatives in Fort Wayne.

Mrs. Bertha Bowen, of Van Wert, spent a few days this week with relatives here.

Ira Redlinger was a business caller at Van Wert Friday.

J. E. Mollenkopf was at Van Wert Thursday.

Officer Kirk, of Van Wert, was in town Thursday.

J. J. Etter was a Monroeville caller Thursday evening.

R. Geiger, of Fort Wayne, was a caller in our town Friday.

John J. Brown was a Dixon caller Friday.

Carl Reynolds, of Fort Wayne, called on his parents Thursday.

Mr. and Mrs. Sherman Larue were Van Wert callers Saturday.

Mr. and Mrs. John Lowmiller, of Dixon, called on friends here this week.

Miss Mary Mollenkopf was a Van Wert caller Friday.

B. F. Hoblet was a Van Wert business caller Friday.

Albert Conley, of Paulding, spent Sunday with his brother, O. R. Conley.

Mrs. J. F. Dickerson, of Richmond, is spending this week with relatives and friends in Convoy.

Mr. and Mrs. S. F. Gray spent Sunday at the home of their daughter, Mrs. Henry Clay, of Monroeville.

Wm. Anderson, of Fort Wayne, spent a few days this week with relatives here.

Rev. Reeves, of Dixon, was a Convoy caller Monday.

Mr. and Mrs. Auden High, of Robinson, called on his parents Sunday.

Arthur Muntzinger is in Chicago this week on business.

Francis May, of Dixon, was a Convoy caller Wednesday.

Mr. and Mrs. Albert Boyher spent Sunday with Mr. and Mrs. J. Heolle, of near Baldwin.

Dr. Gale Leslie, of Fort Wayne, called on his mother Wednesday.

Miss Mabel Edwards and Ed Grand, of Van Weert, spent Sunday with Mr. and Mrs. Glenn Black.

Owen Gray spent Sunday at Fort Wayne.

THE PEOPLE'S STORE

Letter to a Million Owners of HYOMEI Inhalers

Some Information about the Money Back Cure for Catarrh, Coughs, Colds, Croup and Catarrhal Deafness.

Because of the enormous sales of HYOMEI during the present year, we deem it advisable to publish this letter.

HYOMEI has cured more cases of catarrh (acute, chonic, mild and stubborn) than all the catarrh specialists in America.

But in order to get the best and quickest results the directions should be closely followed.

Change the gauze in the inhaler every week, or, better still, every four days—remove both stoppers from inhaler before using.

Never mind how strongly of HYOMEI the inhaler smells, to get actual benefit 15 drops of HYOMEI should be poured into the inhaler three times a day. A less amount won't destroy the germs.

Read thes directions carefully and if your are afflicted with a stubborn case of catarrh use the vapor treatment as directed.

Remember that the little hard rubber inhaler will last a lifetime and that an extra bottle of HYOMEI with a generous supply of gauze can be obtained for only 50 cents.

A complete HYOMEI outfit including inhaler costs $1.00 at Meyer Bros. Co. and dealers everywhere. Money back if not satisfied when you use HYOMEI for catarrh, catarrhal deafness, coughs, colds and croup. HYOMEI contains no opium, cocaine, mercury or other harmful drugs. Meyer Bros. Co. Four Drug Stores.

The Cold, Catarrh and Cough Remedy That Is Imitated, But Never Equalled in Cheapness and Genuine Curative Qualities.

Obtain the Pure Essence Mentho-Laxene at Drug Store and Mix With Granulated Sugar and Water, Making a Full Pint.

Usually the family spends two to five dollars every winter for cough, cold, and catarrh remedies, buying 25c worth at a time.

For instance, a two-ounce bottle, at 25c, will contain about four-fifths "syrup" and one-fifth "medicine." That's paying too much for ordinary syrup; you can make a half gallon of syrup for 25c.

The syrup, extra bottles, labels, corks, cartons, etc., make this method of buying very expensive by the end of the year.

A little thought and wisdom will save any family several dollars and give them purer and better medicine, too.

Make a simple syrup with a pint of granulated sugar and a half pint of boiling water; then buy the pure concentrated essence Mentho-Laxene at your drug store (2½ oz. bottle) and empty it into a pint bottle or jar and then fill it up with the syrup.

Now you have a season's supply of the purest, best and most promptly effective cold and catarrh cure and cough medicine that it is possible to obtain. It keeps indefinitely, and cures young and old colds, catarrh, coughs, bronchitis, hoarseness, shortness of breath and all lung and bronchial trouble. It is the only remedy that cures coughs and drives catarrhal matter out of the system, by its tonic-laxative action. It improves the appetite, reduces fever and strengthens the system, thus avoiding chronic ailments and consumption.

Directions with each bottle of Essence Mentho-Laxene tell how to make and how to take. The manufacturers also guarantee to refund money to any one not pleased by its thorough effectiveness.

Father, Mother, Sister Brother, All Should Use Parisian Sage

Prevents Baldness — Banishes Dandruff — Stops Falling Hair and Itching Scalp.

PARISIAN SAGE is a family hair tonic and dressing that will do much good in every home.

The man who uses PARISIAN SAGE if only occasionally will never grow bald. Baldness is caused by dandruff germs which dig down into the roots of the hair, devour its nourishment and cause the root to die and the hair to fall and thin out.

MONEY BACK DANDRUFF REMOVER

PARISIAN SAGE is a scientific hair remedy that not only kills the dandruff germs, but gives the hair root just the same nourishment that nature gives it.

PARISIAN SAGE first kills the germs; then nourishes the weakened hair root and causes a growth of healthy hair.

This same nourishment (PARISIAN SAGE) causes the hair to grow vigorous which means that the hair becomes full of life and lustre, and grows radiant and beautiful.

Thousands are wasting time, losing hair and growing bald because they are using superficial tonics. While they may clean the scalp and make it feel refreshed, they do not get to the root of the hair where the real destroyer of hair, the pernicious dandruff germs, thrives and multiplies.

Try PARISIAN SAGE for all hair trouble: it means death to the germs; life to the hair. It is pleasant to use and so harmless that it can be used by every member of the family from the oldest to the little tot.

Get a 50 cent bottle today and if you are not satisfied that it is just as good as claimed, your money back without any squabbling. Sold by Meyer Bros. Co. and druggists everywhere. Girl with Auburn hair on every carton and bottle.

DEATH OF DR. HIRAM VAN SWERINGEN.

The death of Dr. Hiram Van Sweringen removes one of the best known and most highly esteemed members of his profession in Fort Wayne. For something like forty years he had been engaged in the practice of medicine here, and almost from the first had recognition not only for natural abilities of an uncommon order, but for high attainments in the learning of his profession. He was widely noted as a writer upon topics of his calling, a pursuit for which singular intellectual gifts had eminently fitted him. Nor was it alone in professional fields that his talented mind found employment for his pen. He wrote with much clearness and force upon other matters, and always with true literary grace and strength. Had chance directed his talents into the field of writing he would have made a name for himself there. His writings were distinguished by charm of diction and incisiveness of style, while in controversial discourse he was a royal foe for any antagonist. In temperament and habit he was a student whose learning covered a wide range of literature, philosophy and science—a learning that supplemented, not hampered, his attainments in the field of his own science. Dr. Sweringen was a man of fine character and admirable personal attributes. His nature was positive and he had no failure of courage for his convictions. He will be greatly missed in his profession and out of it here in Fort Wayne, where for more than half a century he had made his home and taken part in the growth and progress of the community.

THE NEW PARK COMMISSIONER.

The appointment of Mr. Louis Fox to membership on the Fort Wayne board of park commissioners is in all ways and on all accounts an excellent selection. In Mr. Fox are united business abilities of the first order and an earnest civic spirit. In times past he has always kept close in touch with municipal affairs. At a time when it seems that Fort Wayne is entering upon her greatest era of municipal development, with a vast scheme of river and park improvements in hand, the services of a man like Mr. Fox will have an added value, and it is fortunate that at this juncture the opportunity has come to invite him to a place on the park board. That body during the next few years will be one of the most important departments of the city government and the personnel of the board becomes correspondingly of concern. Mayor Grice could not have chosen with more wisdom and the people of Fort Wayne are to be congratulated that Mr. Fox has consented to serve them in this position. The retirement of Mr. Singmaster after a service of seven years on the park board concludes a long term of useful and unselfish labor for the city. He has been a zealous and intelligent commissioner and it is to be regretted that the city is to be deprived of his experience and interest at a time when there is a broadening field for the employment of them in the public behalf.

"MONEY TRUST" KICKS BACK.

Congressman Henry makes a formal statement embracing charges that uncommon pressure of influence is being exerted to block his project for an impartial congressional inquiry into the alleged "money trust." This may be easily believed. The "money trust," or whatever it is that an attempt is made to describe by that term, has no wish to be subjected to a congressional inquiry and, having abundant power and a great variety of influences, is not likely to sit still in the boat and content itself with hoping that nothing will happen. A singular phase of the opposition to the Henry resolution is that it embraces the democratic floor leader and other influential democrats in the house. Mr. Samuel Untermeyer, of New York, one of the most eminent corporation lawyers in the country, advises Mr. Henry that powerful financial interests in New York are actively enlisting influences all over the country against the resolution, but counsels him to press on with it as one of the greatest things in the public interest that has been undertaken. It would be highly interesting to find out what there is to be known about this silent, unseen, mysterious but potent thing called the "money trust."

The revolt in Juarez may not have been the most serious uprising against the Madero administration Mexico has seen, but it is at all events the most serious of which we have any circumstantial account. Just how grave a situation it portends can only be guessed at, but from the fact that it was in large part a riot participated in by some scores of malcontents who first got crazy with drink and then put in a night of murder and pillage, we may expect that prompt and vigorous measures by the government will be sufficient to suppress the outbreak. If it is but a part of the allaged program for a general uprising in Northern Mexico, Senor Madero may have to fight his battles over again on his old battlegrounds and against, not with, his old troopers.

In eleven of the thirteen congressional districts of Indiana the republicans in their conventions this week did not endorse the candidacy of President Taft for re-election. In his formal statement claiming of the renomination and re-election of his chief, Secretary to the President Hilles cites the election of a solid Taft state committee as a sign of the good time coming. As a magnifier Secretary Hilles ranks well up with The Colonel as an enigma.

The Indiana railway commission wants to be told why the railroads do not own the express companies as they should. That was a puzzle a good while ahead of the creation of the Indiana railway commission, but the inquiry is just as pertinent today as it ever was, and perhaps a little more so. But they do not and probably never will.

Detective Franklin, it now appears, was working all the time for the prosecution in the Los Angeles dynamite cases. As an all-round job of spying that affair has been an impressive success.

President Taft has received assurances that the Ohio delegation will be for him loyally and unsplit when the convention meets. Even that seems to be a great consolation these days.

"SOMETIMES OL' BRER WOLF HE GET LEFT."
—New York Herald.

Twenty-Five Years Ago

What The Sentinel Had to Say About Persons and Events Twenty-Five Years Ago.

Indianapolis, Ind., 1:15 p. m.—Turpie was elected. The democrats are wild with delight. Everything lovely. W. H. Shambaugh, 1:52 p. m.—Robinson voted for Turpie, who received 76 votes and was declared elected United States senator to succeed Benjamin Harris. J. M. Barrett.

The street car company's snow plow was out this morning.

Township Trustee Hilbrecht gave 308 paupers cash assistance during January.

Ehrman & Geller have fitted up their Main street barber shop in palatial style.

Fred J. Kiefhaber, the Broadway barber, has sold his shop to a man from Columbia City.

Marriage licenses: Ervin Johnson and Julia Biddle; Ellis F. Jones and Elma M. Lawrence; George Merritt and Laura S. Maddux.

The Catholic legion adopted handsome uniforms last night and the members will be on the streets for public inspection in the spring.

William Durfee has again opened a hat and cap store at his old stand.

The Bicycle club gave its third promenade concert at Princess rink last evening.

Representative W. H. Shambaugh has introduced a bill in the house to prohibit anyone who has not been a resident of the state for more than one year from having police powers.

The councilmen listened to the reading of the revised ordinances last evening. It seems to be dawning on the officers that the people will insist upon the proper enforcement of the laws.

Postmaster Kaough wants it understood that a sealed valentine or one with additional writing on it cannot pass through the mails for one cent. A cart load of these valentines was held for postage last year.

A movement is on foot to send a memorial to the legislature to have the spring shooting and trapping of duck prohibited in this state. John A. Maier and Herman Krohne are backing the movement.

A bee's wings ade said to beat the air at the rate of 190 strokes a second, while the insect can travel a distance of thirty miles an hour.

FREE TO THE SICK

The Great Specialist, Dr. Franklin Miles, Will Send His Book and $2.50 Worth of Improved Treatment Free.

If you have any of the following ailments, you should send postal card for Dr. Miles' New Book and Free Treatment: Weak nerves, heart, liver, stomach or kidneys; pain in the left side or shoulder, short breath, palpitation, irregular heart beats, swelling of the ankles or dropsy; headache, dullness or dizziness; nervous dyspepsia, the blues, cold hands and feet, backache or rheumatism, nervousness, sleeplessness or trembling.

His Book contains many remarkable cures after five to twenty local physicians and specialists failed. It also contains endorsements from Bishops, Clergymen, Statesmen, Editors, Business Men, Farmers and others.

Send for Remarkable Cures in Your State

His Improved Treatment for these diseases are the result of 25 years' experience and are thoroughly scientific and remarkably successful, so much so that we do not hesitate to offer free treatments to the sick that they may test them at our expense. Few physicians have such confidence in their medicine.

Write at once. Describe your case and we will send you a Two-Pound Treatment and a new Book free. Address Dr. Franklin Miles, Dept. K., Elkhart, Ind., 918 to 928 Main Street.

Table Refinements

The appearance of the dining table should be given as much thought and care as the utility of the service and the quality of the food.

We offer table refinements in the shape of silverware, cut glass and china of the highest quality and most exquisite taste.

Almost anything needed for well set dining tables may be found here.

816 Calhoun St.
Est. 1865.

LUTHERAN CONFERENCE.

Rev. H. P. Dannecker Preached Able Sermon at Delphos.

Rev. H. P. Dannecker, pastor of the St. John Lutheran church, and Rev. B. F. Brandt, pastor of the Grace Lutheran church, both of this city, have been at Relphos, O., this week in attendance on the Western conference of the Northern district of the Joint Synod of Ohio, the closing session of which was held Thursday.

Both Fort Wayne pastors were on the program. An exegesis was presented by Rev. Mr. Brandt, which was an able discussion of the questions presented and was well received. Rev. Mr. Dannecker preached the sermon at the conference on Wednesday evening. The Delphos Herald in making mention of it says:

"Rev. H. P. Dannecker preached a splendid English sermon on the story of the cleansing of the lepers, taken from Matthew 8: 1-5, 'Jesus, if Thou wilt, Thou canst make me clean.' Rev. Dannecker is not only a very interesting speaker, but is eloquent and has a most commanding presence. The presentation of his theme was a great treat to the large audience present."

The officers elected for the coming half year were: Rev. C. H. Althoff, of Heasville, president; Rev. C. E. Clessler, of Toledo, was chosen as secretary, and Rev. L. Dammann, of Napoleon, as vice president and treasurer.

* * *

CHURCH IN THIS CITY

Chosen as Model for One to Be Built at Linn Grove.

Members of the Christian church of Linn Grove, Ind., acting as a committee of the congregation of that church, were in Fort Wayne this week and with Oscar Hoffman, an architect of Decatur, inspected the Crescent Avenue Evangelical church here relative to the drawing of plans for a new church edifice which will be built by the Christian congregation at Linn Grove. They have decided to make their church a duplicate of the Crescent Avenue church. The church will be built at a cost of $6,000, will be made of brick veneer, and will be one of the finest church buildings in the community. The committee which met with Mr. Hoffman in Fort Wayne comprised Samuel Opliger, James Kizer, Marion French and Alonzo Shank.

* * *

SIXTY AT THE TABLES.

Banquet of Amaranth Class of Crescent Avenue Church.

The banquet held last evening in the social rooms of the Crescent Avenue Evangelical church by the Amaranth Bible class was a most enjoyable affair. Sixty young people were seated at the banquet tables and after the elaborate menu was served a program of music and addresses was given with Miss Lenna Markey presiding.

The piano selections were by Harry Krithmel, Miss Maud Stout, Miss Helen Clark, Mrs. C. A. Hirschman and Miss Janet Bower. Vocal solos were rendered by Miss Clara Ruch and Homer Raudebush. The responses to toasts were by Rev. C. A. Hirschman, Prof. Merton Arnold, Mrs. C. A. Hirschman, Miss Mabel Dunkle and Arthur Baldwin.

The officers of the Amaranth class are as follows: President, Lenna Markey; vice president, Irene Davis; secretary-treasurer, Ruby Lauer; reporter, Olive Nussbaum teacher, Agnes Hirschman.

* * *

THE DRUMMER EVANGELIST.

Rev. J. E. Fleming Now Holding Meetings at Napoleon, Ohio.

Rev. J. E. Fleming, of Detroit, the Drummer Evangelist, who conducted a series of meetings here several weeks ago, is now at Napoleoon, Ohio, where he is holding a very successful evangelistic campaign. The meetings are of a union character, several of the churches of that city participating in them. They have been in progress for four weeks and will continue during next week. The Napoleon Northwest-News, received by The Sentinel, gives extended accounts of the meetings and speaks of the good work being done.

* * *

Will Elect Officers.

The Brotherhood Bible class of the Wayne Street Methodist Sunday school at the meeting Sunday morning will bring about a complete reorganization and will elect new officers. A campaign for membership is to be started soon and during the coming year the class will be under the leadership of Professor Gould.

* * *

Will Have College Paper.

Arrangements have already been completed for an agricultural journal to be published by the Winona College of Agriculture, the paper to make its appearance early in February. President Breckinridge and members of the factulty will have charge of its management and editorial columns.

* * *

Give Special Program.

In view of the fact that next Sunday is Christian Endeavor day, a special program has been prepared by the Christian Endeavor society of the Third Presbyterian church for the young people at the Sunday evening service. The theme will be "The Church and the Young People."

* * *

Brotherhood Bible Class.

Prof. Gould, of the High school, has taken charge as teacher of the Brotherhood Bible class of the Third Presbyterian Sunday school. Sunday the class will perfect a reorganization and officers will be elected. The men of the congregation are urged to attend.

* * *

King's Daughters.

The Sophie B. Wright circle of the King's Daughters will meet next Tuesday evening with Miss Julia Kelsey, of West DeWald street.

* * *

Will Have a Sale.

The ladies of the Trinity M. E. church will have a sale of baked goods Saturday afternoon at the gas office on Calhoun street.

* * *

Entertainment Tonight.

The orchestra of the Christ Lutheran church, assisted by local vocal talent, will give a concert this evening in the church auditorium. The entertainment will be under the auspices of the Men's Brotherhood of the church. The orchestra is one of the best in the city.

* * *

Observed in the Churches.

Today, the Feast of the Purification, or Candlemas day, was observed in the Catholic churches with appropriate services. Tomorrow will be the Feast of St. Blaze and it will also be observed by the Catholic churches.

* * *

Third Presbyterian.

The Christian Endeavor society of the Third Presbyterian church will hold its business meeting this evening at the home of Mrs. McKeehan, 2517 South Calhoun street. A social hour follows the business session.

* * *

Stereopticon Lecture.

There will be a stereopticon lecture and musical entertainment at the Bethany Presbyterian church this evening.

SEE ANOTHER FIGHT COMING

Question of Instructing National Delegates Will Cause It.

A CLASH IS CERTAIN

With the district chairmanship safely out of the way, local republicans are now turning to face another fight which is regarded as certain to come on the question of instructing the Twelfth district delegates to the republican national convention.

No power on earth can prevent a clash over this issue, they believe, but the conservative and conciliatory element of the party locally will seek to avoid as large a proportion of trouble as possible by contending for an uninstructed delegation from this district. One of the delegates will probably be from Allen county, and W. M. Griffin is after the honor. The other will go to some up-district county, probably either Lagrange or DeKalb, with the chances favoring the former as a sort of salve to heal the wound occasioned by Litman's defeat for district chairman.

There is an element of some prominence in local republican circles that has declared itself unequivocally in favor of instructing the two delegates for Roosevelt. This will be combatted by the "regular" crowd, who insist that if the district is to have any standing in the party whatever it can do no less than send its delegates instructed to vote for the renomination of Mr. Taft. Between these two factional divisions is a third contingent that will endeavor to calm the storm by sending the Twelfth district delegates to the convention uninstructed and with a free rein to vote for whom they please.

It develops that some of the opposition to Chairman A. J. Vesey arose from pronounced advocates of the Roosevelt nomination for the reason that they had gotten an impression that the Fort Wayne man was lined up with the Taft element of the party. They were brought over to the support of Mr. Vesey Wednesday only upon repeated assurances that he was not allied with the Taft crowd, but was absolutely neutral in the matter. The new district chairman went to Indianapolis last evening to participate in the reorganization of the state committee.

Black Bass, Lobster, Blue Points, Spring Chicken, Shad Roe, at the Hof Brau.

CHARITY AGENT RESIGNS.

Indianapolis, Ind., Feb. 2.—At the quarterly meeting of the board of state charities yesterday the resignation of Wilfred S. Reynolds, state agent of the board, was accepted. Mr. Reynolds will depart soon to take up work as executive secretary to a board, established by the Illinois legislature, to have supervision of the juvenile court and institutional work of dependent and delinquent children of Chicago and Cook county. J. A. Brown, formerly an agent of the state board, was appointed to succeed Mr. Reynolds.

In Eastern Turkestan sheep are used as common beasts of burden. They are said to be excellent carriers.

Perfect Feet for 10c

Perfect, sound feet, free from all pain and imperfection, are invaluable to everyone. You cannot be happy with an aching foot, and nothing makes a person look so distressed or causes more face wrinkles than tired, aching, feverish and swollen feet.

A 10c box of Plex quickly puts your feet in perfect condition, free from blemishues. The first application makes you feel better and a few more, a cure can be expected. The Plex, 10c, a week and you'll forget you ever had sore feet.

Plex antiseptically deodorizes and draws out all the poisonous exudations, cleans out the pores and makes them healthy and sound.

Doesn't matter what you've tried for sore, aching, sweaty feet—Plex, "the quick-healing salve," will cure them in a hurry, and a good sized box of it costs only 10 cents. Also removes corns—gives you sound feet. Sold at Dreier Drug Store.

SAY BOND ISSUE IS BEST METHOD

Men of Large Interests Approve It for River Beautification.

PLAN A REPORT SOON

That a bond issue in the sum of $200,000 is the most desirable method of raising funds for the purchase of the river frontage in Fort Wayne as a preliminary to the beautification work was the unanimous declaration of the ways and means committee recently named by the Civic Improvement association, after an extended discussion of the various plans for financing the civic improvement enterprise Thursday afternoon.

These men represent many of the largest financial interests of the city and are among Fort Wayne's heaviest taxpayers. There were present Charles McCulloch, president of the Hamilton National bank; G. M. Leslie, treasurer of the Fort Wayne Foundry and Machine company; Charles J. Scheimann, treasurer of the Packard company; Henry C. Paul, president of the Old National bank; Senator Stephen B. Fleming, secretary and manager of the Berghoff Brewing association; Theodore F. Thieme, president of the Wayne Knitting mills; Colonel D. N. Foster, president of the D. N. Foster Furniture company, and Attorney W. H. Shambaugh. These men are all members of the ways and means committee of the Civic Improvement association. Members of the executive board of the association present were: Charles H. Worden, first vice president of the First National bank; Postmaster Robert B. Hanna; Louis Fox, newly appointed member of the city park board; S. M. Foster, president of the German-American National bank; Charles R. Lane, assistant secretary of the Trade Mark Title company; Frank J. Rahe, manager of D. N. Foster Furniture company; W. E. Mossman, L. D. Redding, of the Federation of Labor, and W. H. Scheiman, ex-treasurer of Allen county and manager of the City and Suburban Realty company.

Will Report on Details.

Messrs. W. H. Shambaugh, Louis Fox, W. H. Scheiman, D. N. Foster and Charles McCulloch were named as a sub-committee to report on details of the plan, and this committee will make its report at a meeting to be called soon by the chairman.

In the course of the discussion which extended over a period of two hours attention was called to the fact that under the law Fort Wayne is compelled to maintain a sinking fund levy of 5 cents on each $100 of assessed valuation for the purpose of paying bonded indebtedness. With the enhanced realty valuations that will come as a result of the river front beautification, this 5-cent sinking fund is expected to more than take care of the $200,000 bond issue without an increase in the levy being necessary.

After the Smoke Nuisance.

As a result of the declaration of J. Horace McFarland, president of the American Civic association, that the smoke nuisance in Fort Wayne today is greater than in Pittsburg, which has long had the sobriquet of the "Smoky City," the Civic Improvement association has taken up the smoke nuisance problem. O. N. Guldlin was invited to head a committee for that purpose, and he consented to do so on condition that he be permitted to name the committee. This was readily agreed to, and Mr. Guldlin has sent to each of the large industrial concerns of the city a request that it name one of its own engineers as a member of that committee.

BIT OF STEEL AS WITNESS.

Peculiar Evidence Introduced in Terre Haute Murder Trial.

Terre Haute, Ind., Feb. 2.—A piece of revolver hammer, cut by a surgeon from the skull of Anton Basgo, was corroborative evidence submitted today by the state in the trial of Arthur Jackson, a negro, for the murder of Joe Albert, a saloonkeeper. After the shooting and robbery of Albert, Basgo was held up and struck on the head with a revolver, a part of the hammer of which was imbedded in his skull. The little piece of steel fitted a revolver Jackson pawned and when Basgo identified him as the highwayman the negro it is alleged by the police, confessed to the murder of Albert. Jackson denies the confession.

NATAL STATISTICS.

Born, to Mr. and Mrs. John M. Kenline, 223 East Leith street, twins.

Born, to Mr. and Mrs. Ernst Timme, 2834 Broadway, a girl.

Born, to Mr. and Mrs. August Fuhrman, 235 West Leith street, a girl.

RICE PLEASED AT REHEARSAL

Majestic's Manager Says Big Shrine Show is "Coming Fine."

WORD FROM LANSING

Telephoning from Lansing, Mich., today, Manager M. E. Rice, of the Majestic theater, expressed himself as delighted with the rehearsals of "Are You a Mason?" the big Shrine show which is coming to Fort Wayne next week under the auspices of Mizpah temple.

Mr. Rice's Light Eternal company is playing in Michigan state capital the latter three days of this week and is devoting its spare hours to a careful rehearsal of "Are You a Mason?" in which the company will open next Monday evening at the Majestic for a run of six nights and a Saturday matinee. Mr. Rice went to Lansing yesterday to join them and superintend the preparation of the Shrine production. He announced by telephone today that the rehearsals were so far advanced that the company could give a creditable performance of the play at once, but that there would be no break in the effort to bring the performance up to perfection before the opening in Fort Wayne next Monday evening. Mr. Rice will remain with the company until it reaches For tWayne Monday morning.

Reservation of seats for the entire week is still going forward in lively fashion. Meanwhile the band and the patrol of Mizpah temple is putting in some busy hours in the preparation of the oriental scene, which is to be added as an afterpart of the big show.

ASK FEDERAL MINE CONTROL.

Miners Seek Creation of Interstate Trade Commission.

Washington, Feb. 2.—Representatives of coal operators in Indiana, Illinois and Pennsylvania today urged the senate interstate commerce committee to create an interstate trade commission with such control over coal mining as the interstate commerce commission has over railroads. A. W. Bogle, of the Indiana Coal Operators' association; Glen W. Traer, of the Illinois association; Samuel A. Taylor, of the Pittsburg association, and J. F. Gallbreath, secretary of the American Mining congress, addressed the committee.

MINE WORKERS ADJOURN.

Indianapolis, Feb. 2.—After deciding to continue negotiations with mine owners for a wage contract in the bituminous coal fields, electing delegates to the World's Mining Congress and to the Western Federation of Miners and selecting Indianapolis for the next meeting place, the convention of the United Mine Workers of America adjourned today. The report of the policy committee providing that efforts to negotiate a wage scale in Illinois, Indiana, Ohio aind western Pennsylvania be continued, was adopted. Before any wage contract can be signed it must be submitted to a referendum vote of the whole membership.

BARTHOLDT ... S HE WON.

Washington, Feb. 2.—"I was elected by approximately 250. Throw out every fraudulent vote claimed against me and you will not reduce my majority more than 220 votes," said Dr. Richard Bartholdt, of St. Louis, Mo., to the house committee on elections today when his contest with Charles J. Maurer, democrat, was called up. Mr. Maurer's petition recited that each of 150 voters was bought by two bottles of beer. Bartholdt stated that he had paid his own election expenses.

SEE DYNAMITE TRAIL.

Chicago, Feb. 2.—Special government agents today are investigating a mysterious fire which destroyed the open board of trade building here Dec. 10 and the federal grand jury is held in session pending the outcome of a report that valuable papers wanted in the dynamite cases were destroyed in the fire. Union officials deny any records concerning the dynamiting were lost. Twenty-one unions had offices in the building.

PRIZE WALTZ AT THE ODEON SATURDAY. 2-2t

CO-OPERATIVE GRAIN ELEVATOR.

Lafayette, Ind., Feb. 2.—Plans were adopted here for the establishment of a co-operative grain elevator at a meeting of about 300 farmers from Tippecanoe, Benton, Clinton, Carroll and Montgomery counties. During a discussion it was said that farmers of this vicinity have been receiving two or three cents less a bushel for their grain than is paid in Indianapolis and other cities. Isaac Born was selected to manage the elevator, whose cost will be pro rated among the farmers in the organization.

POPE RECEIVES NEW DELEGATE

Mgr. Bonzano, Who Comes to United States, Calls on Pontiff.

CHURCH FEAST DAY

Rome, Italy, Feb. 2.—Mgr. Giovanni Bonzano paid a visit this morning to the vatican, where he was received by the pope for the first time as delegate in the United States, to which office he has just been appointed in succession to Diomede Falconio, who recently was elevated to the cardinalate.

The occasion was the feast of the purification, usually known as Candlemas. In accordance with ancient tradition, all the heads of religious orders and of Roman basilicas and colleges presented the pope with beautiful candles made purposely for the occasion. Mgr. Bonzano for the last time took the candle offering of the college of the propaganda of faith while Mgr. Thomas F. Kennedy, rector of the American college in Rome, represented that institution. Many Americans were present at the ceremonies.

Mgr. Bonzano in presenting his respects to the pope said that he felt the weight of the responsibility which had fallen on his shoulders with his acceptance of the office of papal delegate in the United States. The pope congratulated him and said he knew that Mgr. Bonzano was exertmely well fitted for the post.

ASSIGNMENT FOLLOWS SUICIDE.

New Orleans, Feb. 2. — Immediately after the announcement on the floor of the New Orleans cotton exchange at noon today that Charles D. Finley, member of the cotton brokerage firm of Finley & Simpson, had committed suicide, news of the failure of the firm was given out. This is the second failure in two days among the membership of the local exchange, both of which are generally attributed to the sensational rise in the prices of futures.

COLUMBIA SATURDAY SPECIAL

Of fresh Chocolate Peanut Clusters at 25c per lb. Columbia Candy Kitchen.

This little "Bee"
Will guarantee
"That rich flavor"
And Purity.

KRATZSCH & SCHROEDER
618 CALHOUN STREET

SOCIETY

Among the several small parties of today was Mrs. Hugh Keegan's second bridge affair for this week. A visiting guest this afternoon was Mrs. Frank Taft's guest, Mrs. Alden Nichols, of Clairton, Pa.

* * *

Lovely decorations in red, with tulips and geraniums filling brown wicker baskets and making cheery spots in the rooms, were characteristic of Mrs. Pauline Paul's five hundred party that she gave at her home in Meyer avenue this afternoon. There were about thirty guests who enjoyed the afternoon. After the game Mrs. Paul served a delicious supper with the assistance of her daughters, Misses Elsie and Luella Paul.

* * *

Among the coming small bridge parties for which invitations have been extended are those to be given by Mrs. Harvey Crane on Feb. 6 and Mrs. Will Crighton on Feb. 8.

* * *

Miss Margie Hanna, of West Wayne street, is spending a few days in Danville, Ill.

Miss Clara Carnahan will leave tomorrow for New York for a stay indefinite in length.

Mrs. Ben Rothschild, of West Berry street, is entertaining her sister, Mrs. Levy, of Moberly, Mo.

Mrs. Emel Becker, of Mitchel, S. D., is visiting relatives and friends in the city.

Miss Helen Morris left today for New York city, where she will remain several weeks with the Misses Edith and Gladys Hughes.

The Eta Alphas will have a meeting soon to initiate the following members: Edith Duemling, Helen Lau, Virginia Joost, Irma Comparet and Alice Rabus.

Mrs. Louis Racine and Miss Nettie Racine have returned from Indianapolis, where they visited Mr. and Mrs. Homer Smith and family.

Miss Alice Rabus, of Fairfield avenue, will entertain tomorrow evening a company of friends in honor of Miss Myrtle Graeter, who is home from DePauw for a few days.

Mrs. Howard Browning, of Thompson avenue, left today for Milwaukee to spend the month with relatives. Miss Virginia Browning, of Philadelphia, will have charge of her brother's home while Mrs. Browning is away.

Mr. and Mrs. S. S. Fisher gave a family dinner party on Wednesday evening in honor of their son, Roger I. Fisher, and his fiancee, Miss Virginia White. There were covers for nine. Mrs. R. R. Iredell, of Allentown, Pa., was an out of town guest present.

The members of the Priscilla club gave Mrs. Chester Hinman a housewarming on Wednesday afternoon. Mrs. Hinman invited the club for one of the regular meetings but as she has recently moved into a new home in Kinnaird avenue, the members of the club made a special meeting of the day. Mrs. Hinman served an elegant supper.

* * *

A Country Party.

Mr. and Mrs. Eldridge Peters, who now live east of New Haven but are to move west of this city in the near future, were tendered a surprise party by neighborhood friends a few days since. There were present Mr. and Mrs. Frank Greiser and family, Mr. and Mrs. Frank Voirol and family, Mr. and Mrs. Sheldon Dawkins and family, Mr. and Mrs. John Rothgeb and family, Mr. and Mrs. Harry Bieber and family, Mr. and Mrs. Eli Bieber and family, Mr. and Mrs. Allen Bieber and daughter, Mr. and Mrs. Charles Lamont and daughter, Mr. and Mrs. Slack Leonard and family, Mr. and Mrs. Louis Yoquelet and family, Mr. and Mrs. Alfred Yoquelet and daughter, Clarene, Mr. and Mrs. John Rorick, Mr. and Mrs. Henry Baker and son Paul, of Liberty Center, O., Mr. and Mrs. Clemont Girard and children, Mr. and Mrs. Creighton Wolf, Mr. and Mrs. Ernest Lamont, Mrs. Mike Hammond, Messrs. Frank Dawkins, Henry Greiser, Alphonse Lamont, Jake Baker, Ed Lamont, Warren Rothgeb, Clarence Lamont, Russel Ditton.

* * *

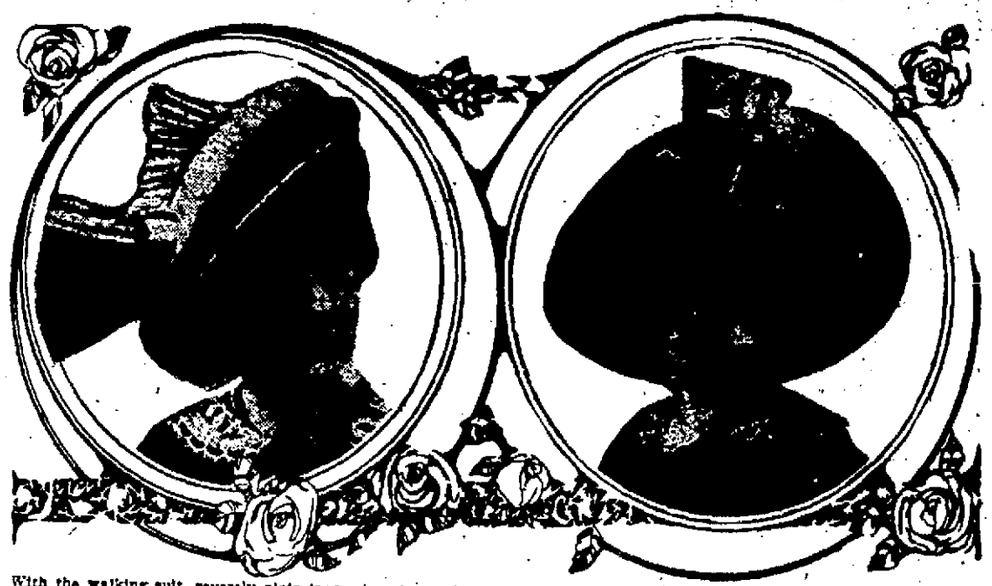
A Country Party.

Mr. and Mrs. Joseph Huber, of Eel River township, entertained a company of young people at their home on Monday evening, Jan. 29, in honor of their son, Edward, who celebrated his natal anniversary on that day. Progressive pedro was the amusement. Prizes in the game were won by Miss Veronica Harber, Cletus Harber, Miss Josephine Landstoffer and Clarence Harber. Other guests were Messrs. Oliver Landstoffer, Ambrose Freiburger, Louis Hinen, Eugene Freiburger, Louis Wilkie, Edward Harber, Raymond Kirchoff, Ralph Harber, Sylvester Schuler, Jacob Harber, Marion Harber, Gerald Harber and the Misses Mary Wilkie, Laurette Spillman, Anna Hinen, Dorothy Harber, Mary Landstoffer, Elizabeth Krouse and Frances Harber.

Herrick—Miller.

Mrs. Jennie Miller, of Carol, Mich., and Mr. DeGroff N. Herrick were united in marriage on Thursday evening at the home of Mr. and Mrs. J. M. Moderwell, in West Superior street. Rev. J. K. Cecil performed the ceremony. The bride has been a guest of Mr. and Mrs. Moderwell for several weeks. A reception will be held this evening at the home of Mr. and Mrs. Herrick, in Maysville. Mr. Herrick is a wealthy, retired farmer and his bride has many friends in the same community. Many relatives and friends will be present this evening to wish Mr. and Mrs. Herrick many years of happiness.

SEVERE STYLES IN WALKING HATS.



With the walking suit, severely plain in cut and finish, the well dressed woman wears a hat of equal severity. A plain hat does not mean necessarily an unbecoming hat, for severe styles are immensely attractive on many women. Two smart models are illustrated. One is turned up sharply in the front, ornamented only with a cockade of felt and silk, and the other is diminutive in size, covered almost completely with wings. Both are very smart for morning wear.

HEALTH IN WINTER TIME.

With the advent of cold weather many people immediately close up all their windows and heat over and over again the foul, poisonous air in their rooms.

Pure air is a prime necessity in winter as well as in summer.

If the blood is to be purified in the lungs and rendered fit for use again the lungs must have plenty of pure, fresh air so that their work may be made as easy as possible.

Proper ventilation is very important. Unfortunately, many of us cannot control the ventilation during business hours. But those of us who are in the home should form the practice of opening all the windows in all the rooms several times during the day, for a short or long period of time, according to the thermometer then we may allow the fresh, pure air to be heated to the required temperature. Let the little ones don hats and coats and enjoy a romp while the rooms are being thoroughly "aired" in this way.

At night it is especially important that we breathe pure, fresh air, as it is during the hours of sleep that the worn out tissues of the body are rebuilt, vitality restored and lost energy regained. How can nature do this work if we deny her fresh, pure air in which to do it? The windows of our sleeping rooms should be open at night all through the year, though, of course, discretion should be used in determining the amount that we raise or lower the sashes.

Even in zero weather this rule should be carried out in a modified form. There is no sweeter, more restful slumber than that enjoyed in a room filled with pure, fresh, constantly changing air. Plenty of bed clothes, including warm blankets, are, of course, necessary.

If we would gain the full benefit of fresh air, we must breathe deeply. This is especially important in winter, as it enables one in a large measure to resist the cold.

Bathing is as important in winter as it is in summer. It starts circulation and prevents the blood from stagnating and hence helps us to keep warm. The hours for bathing and the temperature of the water and the room require careful forethought in winter.

Nature tells us that exercise keeps us warm. Exercise in the fresh air should be indulged in as much as possible by all who would resist the cold in winter. If the body is sufficiently protected by proper clothing, it will not feel the cold out of doors even in zero weather.

During the first half mile of walking (the most beneficial of all exercises) the fingers, ears and nose may feel cold, but after that they will begin to "warm up" and one will return from the walk "all in a glow" and with plenty of pure blood coursing rapidly through the veins, the surest protection against feeling or taking cold.

As a last suggestion: Don't fear the cold. Don't stand over the radiator or register, saying, "Oh, how cold it is!" or "Oh, how cold I am!"

Protect yourself properly with the right kind of clothing, fortify yourself with the right kind of food, fill your lungs with pure fresh air, keep your circulation active by exercising out of doors, then go about your usual occupations without fear of taking cold even though the mercury is at zero.

Adopt these suggestions and see if you are not able to endure bravely the present cold wave and the next that strikes our city. Endure? Why, you may even enjoy it!

TIGHT SKIRT REMAINS IN FAVOR.

To Walk or Not to Walk?—That Is the Present Day Question.

The tight skirt remains in favor and gets tighter all the time, instead of showing a tendency to fullness, as has been predicted. How women manage to walk in their present hobbled condition is a problem solved only by each individual for herself.

Apropos of this problem, a story is told of a certain great man dressmaker whose salon in Paris is daily thronged with wealthy American women, South American beauties, and the stars of the Parisian stage; in short, by the smartest of the smart.

One day, while he was superintending a fitting of his latest, tightest effect, the husband of the victim remarked timidly: "It is very chic, monsieur, but will my wife be able to walk in it?"

"Walk," answered the irate artist: "Walk! What do you mean, sir? My patrons never walk."

This is the state of affairs to which one is expected to submit—and does submit. But however elegantly one may be able to do without one's feet in daytime, thanks to the automobile, there are occasions at night when they become pretty well indispensable. The irony of the situation is that never were they more in evidence.

Not only are stockings a dream of real lace and gossamer silk, and shoes marvels of gold and brocade, with eccentric heels, but some of the new skirts are slit to display this fine art.

Nevertheless, the freedom which this slashing seems to give is mere mockery. Even a generous gap of half a yard or so will not improve matters while the stuff is as limp as a rag, and petticoats conspicuous by their absence.

There is hardly any difference between the evening frock and the afternoon get-up which one may meet at matinees and at a tea. Both are equally gorgeous. It might seem incongrous to the American woman who prides herself on her good sense that Parisians should choose white satin charmeuse or old rose chiffon velvet to attend, in broad daylight, a lecture—let us say—the mysticism of Joan of Arc.

But in Paris strict common sense is the last consideration. Besides, wraps must be discarded because rooms are overheated, and who could resist such an opportunity for dazzling? Few women and Frenchwomen least of all.

EUGENIE BLAIR IN GREAT ROLE

"The Test" Is Strong Play and Is Presented by Able Company in Three Performances.

The first of three performances of "The Test," a play by Jules Eckart Goodman, was given last evening at the Majestic theater by Miss Eugenie Blair and an excellent company. Miss Blair's work is splendid in point of dramatic worth. Her restraint in the most emotional moments, which might easily be made of an hysterical and overstrung character just from the mere demands of the role, is very admirable. Miss Blair's work is so well known in this city from her frequent appearance in "The Light Eternal" that a fine poise and admirable and intelligent conception of a part are known to be characteristic of her work. But people who have seen Miss Blair only in the religious drama will hardly recognize her in this trying role of Emma Eltynge. Her work, especially in the third and fourth acts, is extremely artistic. The play is a powerful one and has many lines of worth and many situations of thrilling interest. The company supporting Miss Blair is one of ability throughout. Charles Frischer, as Herr Brettner, and Clyde McCabe, as "Schliemiel," are excellent character portrayals. Virginia Irwin is attractive and appears very like the part of Marie, as the lines convey her to be. Harry L. Minturn looks the part of Arthur Thone and did admirable work. Joseph Gillow as Tretman handled his opportunity to rant and be melodramatic with skill and force. Lois Howell as Peggy Thone acquitted herself with much favor, and Frederick Le Duke is the chief villain with as much smoothness and appreciable delineation as the briefness of his part permits. The company received enthusiastic applause and the play is a drama that theater-goers will not care to miss. There is a performance tonight.

TO DRY A SWEATER.

Now that "woollies" are so much worn many housewives are worried by the problem of washing them successfully. Few things are more exasperating than a sweater that has lengthened out to twice its original size in the wash.

When the sweater has been carefully washed in warm suds and rinsed thoroughly, take a large dripping tin and line it with a towel to prevent possible rust. Place the sweater in the tin and put it in a warm oven.

Turn and shake the garment frequently. When dry it will appear light and fluffy. A sweater treated in this manner will never lose its shape.

Any knitted garment may be dried in the oven, and the result will be much more satisfactory than if dried in the air.

MAKING OLD CURTAINS LOOK NEW.

Have you a pair of good lace curtains that are too old to hang up as they are? Try this method of treating them, and you will not regret it:

Applique the lace on a foundation of thin silk of a rose shade. Baste each curtain very neatly on its foundation and cut away the lace net wherever you find it worn through the border, and outline the pattern in linen or if you prefer it, in silk floss of the rose colored shade. If the plain net is in good preservation dot it over with a spray design worked in the same floss or silk.

You will find the effect extremely good, combining the airiness of lace with the handsomeness of brocade. Moreover, you will have curtains as good as new which will last some time if carefully cleaned when soiled.

Curtains such as these were seen recently in a living room in the country, where they had hung in the windows for eighteen months, and they looked perfectly fresh.

Blue, green, brown, or any other color may be adopted, of course, as a foundation to suit the room of the worker.

NEW WIRELESS RECORD.

Honolulu, Feb. 2.—Wireless messages interchanged between Kansas City and San Francisco have been intercepted here according to the report of the operator at the new wireless station. The messages were overheard clearly. The interception of messages from inland points on the mainland establishes a new record for the Honolulu station due, probably, to its location on a much higher spot.

PRIZE WALTZ AT THE ODÉON SATURDAY.

2-2t

REMARKABLE RECORD

Flesh-Forming Food That Succeeds Nearly Every Time.

A man or woman might as well starve outright as to take food into the stomach and not have it assimilated, yet in Fort Wayne as well as in every other town and city, there are many people who are thin, pale and seem underfed, simply because the food they eat is not assimilated, and fails to make good blood and firm flesh.

Samose, the wonderful flesh-forming food, taken before or after meals, mingles with the food, so that it is assimilated by the system and makes rich blood and pleasing plumpness.

Anyone who is thin, weak, scrawny and emaciated can put 50c on deposit with Meyer Bros Co. and take home a box of Samose. If the treatment does not give a noticeable increase in good, firm flesh and restores strength and health, they will return the money without any questions. Meyer Bros. Co. Four Drug Stores.

RECIPES.

Slappers.

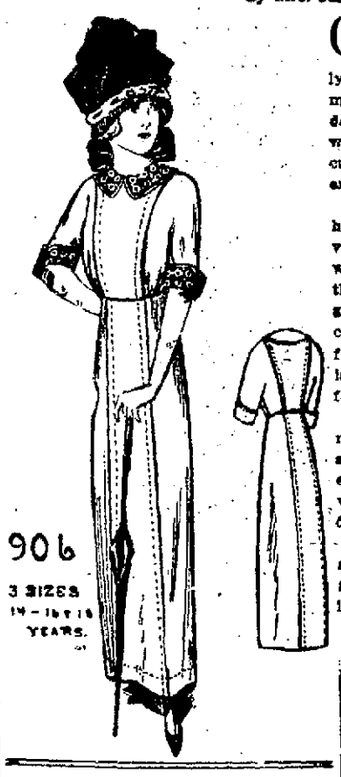
"Slappers" are the old fashioned Indian cakes baked on a griddle. To make them, put in a bowl the night before one pint of soft corn meal, a teaspoonful of salt and a tablespoonful of butter. Pour over just enough boiling water from the kettle to moisten, stirring until every grain of the meal is wet, but not sloppy. Cover closely and let stand near the fire over night. In the morning add three well beaten eggs, one cupful of sifted flour, two scant teaspoonfuls of baking powder and enough cold milk to mix all to a very thick batter. Put by spoonfuls on a moderately hot greased griddle and when browned turn and brown on the other side. They will take about ten minutes to cook through.

Crullers.

Cream one-half of a cupful of butter with two cupfuls of sugar, add three well beaten eggs, one-half of a teaspoonful of salt, a few drops of extract of cinnamon or nutmeg, or some of the ground spice and two cupfuls of flour sifted with three teaspoonfuls of baking powder. Now slowly add enough more flour to make a dough soft enough to handle. Turn on a floured board, roll out, cut and twist into any preferred shape. Have the fat smoking hot; drop in a few at a time and cook them for about eight minutes, then drain and roll in powdered sugar.

ADVANCE MODEL FOR SPRING.

By Mrs. Jane Ford.



906
3 SIZES
14 - 16 - 18
YEARS.

ONE cannot help being charmed with the new frocks intended for wear the coming season. A particularly lovely model that is sure to be becoming to most girls is pictured. The original was developed in a silk and wool mixture in which blue predominated. The collar and cuffs were of dark blue corduroy embroidered with heavy white silk rings.

Girls who fancy this dress and wish to have it made at home will find the model very easy to develop. The sides of the waist and the sleeves are cut in one, and the panel front is arranged to join the gored panels of the skirt, so that it gives continuous lines the full length of the frock. The lower edge of the skirt is finished with a hem and the closing is effected invisibly at the side front.

An inexpensive pretty frock could be made from cashmere, serge or corduroy and trimmed to correspond. Heavy linens, galatea or silks of the foulard order will also make up satisfactorily after this design.

To copy the dress in the sixteen-year-old style requires four and one-half yards of goods thirty-six inches wide. This pattern is also suitable for small women.

(Coupon used as label on envelope. Cut neatly.)

WOMAN ROASTED TO DEATH.

Erie, Pa., Feb. 2.—Mrs. Elizabeth Crandall was literally roasted to death, Mrs. Samantha Abby, aged 80, was fatally burned, and Homer Hilliker was seriously injured attempting to rescue the women early today after a gas explosion at the Hilliker home in North Girard, Pa. The women were sleeping in a room lighted by an oil lamp and heated by a gas stove. The hose connecting the stove with the pipe was forced loose during the night and the lamp fired the gas. The house was blown to pieces.

LAZY LIVER, BILIOUSNESS, HEADACHE, COATED TONGUE OR A BAD STOMACH

You men and women who somehow can't get feeling right—who have an almost daily headache, coated tongue, foul taste and foul breath, dizziness, can't sleep, are nervous and upset, bothered with a sick, gassy, disordered stomach, or have backache and feel all worn out.

Are you keeping clean inside with Cascarets—or merely forcing a passageway every few days with salts, cathartic pills or castor oil? This is important.

Cascarets immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels.

A Cascaret tonight will straighten you out by morning—a 10-cent box will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

ROOSEVELT ON WOMAN'S RIGHTS

New York, Feb. 2.—Theodore Roosevelt discusses "Women's Rights; and the Duties of Both Men and Women," in an editorial in the current issue of The Outlook. He says in part.

Much, indeed, has America owed to the fact that her two greatest men, Washington and Lincoln, though they did not neglect rights, were even more concerned with duties.

I believe in woman's rights. I believe even more earnestly in the performance of duty by both men and women; for unless the average man and the average woman live lives of duty, not only our democracy but civilization itself will perish. I heartily believe in equality of rights as between man and woman, but also in full and emphatic recognition of the fact that normally there cannot be identity of function. Indeed, there must normally be complete dissimilarity of function between them, and the effort to ignore this patent fact is silly. I believe in woman's suffrage wherever the women want it. Where they do not want it; the suffrage should not be forced upon them. I think that it would be well to let the women themselves, and only the women, vote at some special election as to whether they do or do not wish the vote as a ermanent possession. In other words, this is peculiarly a case for the referendum to those most directly affected—that is, the women themselves. I should be entirely content to abide the decision, either way; for, though I do not think that the damage prophesied from women's voting would come, or has come where it has been tried, I also think that very much less effect would be produced, one way or the other, than the enthusiasts believe. In other words, I do not regard the movement as anything like as important as either its extreme friends or extreme opponents think. It is so much less important than many other reforms that I have never been able to take a very heated interest in it.

If the woman suffrage movement were to be judged only by those advocates of it who discredit themselves and their sex by disorderly antics in public, and who assail the foundations of private and public morality in their endeavor, not to raise the sense of moral duty in man, but to lower the sense of moral duty in woman, I should certainly oppose the movement. But I do not believe these undesirable apostles are in any way to be accepted as exponents of the cause and I call attention to the fact that they are prominent, not in the region where woman suffrage does exist, but in regions where it does not exist.

I pin my faith to woman suffragists of the type of the late Julia Ward Howe. Julia Ward Howe was one of the foremost citizens of this republic; she rendered service to the people such as few men in any generation render and yet she did, first of all, her full duty in the intimate home relations that must ever take precedence of all other relations.

In our western states where the suffrage has been given to women I am unable to see that any great difference has been caused, as compared with neighboring states of similar social and industrial conditions where women have not the suffrage. Yet what slight changes have occurred have been for the better, and not the worse.

I most earnestly desire to emphasize my feeling that the question of woman suffrage is unimportant compared to the great fundamental questions that go to the root of right conduct as regards both men and women. There should be equality of rights and duties, but not identity of function; and with the man, as with the woman, the prime duties are those related to the home and the family.

The point which I wish to emphasize is that the supreme importance and high position of the woman of the type of Julia Ward Howe cannot be materially increased by the possession of the ballot. I am glad that the good, wise, and brave mother should have the ballot. I am especially glad if its possession will add to the high dignity of her position in the eyes of men. But I cannot conceive of any man's now failing to hold such a mother as more worthy of respect than any man, or than any other woman.

In the long run and taken as a whole, men and women will go up or go down together, and all reforms of first-class importance must look towards raising both men and women to a higher level, alike as regards the things of the body and as regards the things of the soul.

Arnold Bennett, the English novelist, is hopeful about the future of the American novel. "The great argument in its favor," he says, "lies in the strenuousness, the variety and the essential romance of American life. What would not Balzac have done with Pittsburg, the sixteen-hour express between New York and Chicago, Wall street, Mr. Pierpont Morgan and the wheat growing states?"

M'MANIGAL TAKEN TO LOS ANGELES

Dynamite Informer Leaves Indianapolis Secretly ofr the West.

HE IS SPIRITED AWAY

Indianapolis, Ind., Feb. 2.—Ortie E. McManigal, the confessed dynamiter, who has been here several weeks aiding the federal grand jury in its investigation of an alleged nation-wide dynamiting conspiracy, departed secretly for Los Angeles Wednesday afternoon, according to an announcement made by federal officials last night.

His departure was as carefully guarded as was his arrival. According to the federal authorities McManigal was escorted from the federal building without attracting attention, although they admit that they chose a time when the road was clear. He walked down one of the busiest streets of the city to the Union station, it is said, where he boarded a train for the west.

With him was Detective Malcolm McLaren, who has been his constant companion since his arrest. In the party also were Sheriff William A. Hammel and Under Sheriff Robert T. Brain, of Los Angeles county.

United States Marshal Schmidt would not say which route would be traveled, but it is understood that the party went by the way of St. Louis. The federal officials would not say whether McManigal would be returned to Indianapolis to testify, should indictments be returned and the cases brought to trial.

When it was announced that McManigal was to be brought to Indianapolis, Sheriff Hammel insisted that the greatest precautions be taken because his prisoner will be needed as a witness in cases that are to be tried on the coast.

In spite of the vigilance of newspaper men, McManigal was lodged in a room in the federal building without their knowledge.

The same secrecy was observed in getting the prisoner out of the city, according to the officials.

A short time bofere reaching Indianapolis, McManigal shaved off his mustache and in this manner sought to evade detection. It is not known that he wore a disguise on leaving, but it was intimated by the officials that they have no fear that he will be recognized on his return to California.

Mrs. Ralph Chambers, of Bluffton, submitted to a surgical operation at the Lutheran hospital today.

We Will Continue Our January Clearance Sale

UNTIL SATURDAY NIGHT, FEB. 3RD.

Clothing House

Lehman's

808 & 810 CALHOUN STREET

"When I called the committee together, preliminary to starting out on our tour, I told them I would be glad to allow them everything within reason that was necessary, but the government would not pay for their whisky and cigars. Senator Harris promptly replied: 'That's right, Mr. Chairman. So far as I'm concerned, if I can't get my whisky by standing around the bar when other people are drinking, I will pay for it myself.'"—"Fifty Years of Public Service," by Shelby A. Cullom.

Milk and butter, so a recent book called "Good Cheer" tells us, were not always daily necessities, as with us. Our fifteenth century ancestors in England seldom used spices, however, in their food, and, apparently, did not care for the more delicate flavors that suit our palates. Cold storage eggs and "renovated" butter would have had a ready market with them, no doubt.

RAISE MONEY OR QUIT BASE BALL

Zanesville Directors Get One More Week to Put Up Their Guarantee.

A THOUSAND SHORT

Zanesville directors of the baseball club at their last meeting found themselves still short $1,000 of the $5,000 fund needed to finance the club. They called Dr. Carson by telephone and after a conference with him secured one more week in which to raise the booster fund and post the Zanesville club's forfeit. If the fund is not in hand by next Wednesday night the board of directors will retire from the game, they announce.

The soliciting committee Wednesday was able to secure but $215, which with other subscriptions of smaller denominations, brough the total amount secured to date to $3,900.

Work on the subscription papers in the various plants, stores and factories of the city will be redoubled. Every fan employed in any establishment was authorized to start a paper around. These are to be reported upon to Vice President Helmick at his office, 19 North Fourth street, as fast as they are completed. Of course, all must be in by next Wednesday.

At the meeting Wednesday night, J. Hope Sutor, who audited the books of the baseball company, found everything to be in ship-shape order. He complimented Secretary Lind on the manner in which he had performed his duties.

To show that they are sincere in their assurance to the local fans that they will give up the baseball game if the booster fund is not completed by next Wednesday, the board of directors has issued the following statement:

"After securing seven more days of grace from President Carson, we wish to state that we have asked our last favor of the Central league president and magnates. If the fans have not subscribed the $5,000 which is needed to support the local team within the next week, we will positively withdraw our efforts to keep Zanesville in the Central league. We shall ask no further extension of time, but shall refer the matter to the stockholders of the club for their action. We shall not again appeal to the fans in a matter which concerns them as much as it does the board of directors of the baseball company.

WORKING AT THE SCHEDULE.

Dr. Carson Has Faith in Split Bill and is Having it Prepared.

South Bend, Ind., Feb. 2.—J. W. Adams, who is preparing Dr. Carson's split schedule for consideration at the February meeting of the Central at Fort Wayne, is working daily on the plan. Some opposition has developed to the schedule, but President Carson is hopeful that its advantages will be brought home to the league directors at the Fort Wayne convention. "While it is possible it may be voted down," he said, "I still believe the split schedule to be the ideal plan for a 12-club circuit."

BERGHOFFS TAKE A LUCKY SERIES

Germanias Bunch Pins in Opener and Then Lose a Couple.

WILLIAMS BEST MAN

With 981 pins in the first game and all the players going along in good style the Germanias looked good to win the series with the Berghoffs last night, but the league leaders were unlucky in bunching pins in the opener and lost the series although they had a better team average than the winning club.

Billy Williams starred in the match and didn't roll less than 200 in any of his games, grabbing a grand total of 652 pins with 234 in the final round. Farnan rolled 215 and was second high average. Not a man on the losing club ran below 190 for his average and Merz made a strong bid for high score with 225 as his best effort. Leist was next with 214, but Schwartz led in the averages. The scores:

—Berghoffs.—

BOWLERS WILL HOLD MEETING.

Final Gathering to Prepare for Attending the Tournament.

A meeting of all the bowlers of the city has been called for the Germania hall this evening at 7:30 o'clock at which time preparations will be made for attending the A. B. C. tournament at Chicago next month. The city will be well represented as the train service between here and Chicago is good, the fare comparatively low and a better representation will be sent than at any time in the history of bowling in Fort Wayne.

WINNER TO MEET BRONSON.

Kansas City, Mo., Feb. 2.—Paul Koehler, of Cleveland, and Clarence Ferns, of Kansas City, both welterweights, will meet before the Grand Avenue Athletic club in a ten-round boxing bout here tonight. To win the contest will mean a trip to California and a battle with Ray Bronson, several coast promoters having made bids for the match.

"RED" MURRAY WARNS THE YOUNGSTERS.

MURRAY

"Red" Murray, of the New York National League champions, says if there are any youngsters seeking his job this coming year they will have to hustle, as the veteran outfield holder says this will be his last

CANTON MANAGER SIGNING UP MEN

Contracts Sent Out to Ten of Players of Last Season.

WANT STRONGER TEAM

Canton, O., Feb. 2.—All contracts have been sent out to men on the reserve list of the Canton club. They were sent out by President Yost, each pink document in a big envelope bearing a special delivery stamp.

There were ten in the bunch and they went to four different states, Ohio, Pennsylvania, Indiana and West Virginia. The Buckeye state leads with five, Pennsylvania gets three, and West Virginia and Indiana one each.

They were sent as follows: Harry Slagle, Pittsburg; James McGinty, Arnold, Pa.; Jack Ernst, Youngstown; Charles O'Connell, Oakvale, Pa.; C. O. Holmquist, Mansfield; Robert Hampe, Canton; Harley Humphreys, Mansfield; Fred Dawson, Clarksburg, W. Va.; William Murphy, Cleveland; Carl Miller, Indianapolis. Brittsen, a left-hand pitcher missing from the bunch, played last season under a non-reserve list. A contract may be sent him, but it is thought he will not play ball this year.

Two men included did not play with the Drummers last season, Miller and Hampe. Miller is the young catcher brought from Alliance by Ferd Drumm, along with McGinty, the Dawson boys: Bonnin and the former manager himself. He worked with Drumm in 1910 part of the season and was then loaned to Erie. He is still the property of the Canton club and may be used in a trade.

Hampe is the local pitcher and former high school star who played with Drumm in 1910. He played amateur ball in Canton last season, but will hardly come out for the Canton team this year.

The contracts should commence the return trip by the end of the week with names of the players attached. The baseball law requiring that they be sent out by February 1 was complied with by the Canton management by a small margin, as they were mailed on the last day of January.

LIVELY FIGHT IS PROMISED.

Suggested Changes in Football Rules Will Be Resisted.

New York, Feb. 2.—Suggested changes in football rules for the coming session presaged a warm fight among members of the football rules committee, which gathered here today for the regular annual meeting that is likely to last two days. Some members of the committee believe that the present rules are all sufficient while the so-called progressives believe that changes are necessary in order to bring about a fairer and better balanced game.

A sharp fight was anticipated on the question of the forward pass over the line of scrimmage. Some committeemen are in favor of limiting it to behind the line of scrimmage on the ground that it limits many dangerous hazards.

The question of reducing the number of yards to be gained in four downs or of increasing the number of downs to five comes up early for consideration. The opinion was freely expressed today that something must be done to more nearly equalize the attack of the defense and at the same time insure greater continuity for offensive plays.

All the members of the committee of fourteen with the possible exception of Alonzo A. Stagg, of Chicago university, were expected at the meeting. Mr. Stagg is believed here to be opposed to changes in the present rules beyond their simplification and that his alternate, if one is sent, will be so instructed.

WHO'D 'A THOUGHT IT?

(Zanesville Times-Recorder.)

Bert Dennis, the carrot-topped speeder who played the outfield for Marty Hogan here during Zanesville's P. O. M. league days, is now a full-fledged magnate of the Central league. Dennis Wednesday closed his deal for the Fort Wayne club, heading a syndicate which purchased the franchise and team from Claude Varnell.

SEEKS A CHAMPIONSHIP.

"JOHNNY" DUNDEE.
PHOTO BY THE SEGL STUDIO.

Here is a likely youngster from the East, Johnny Dundee by name. He has been fighting very successfully since he started out, about a year ago, and now wants a chance with the top-notchers. Dundee is a featherweight and aspires to the championship.

SMITH TO STAND BY OLD PLAYERS

Men Will Report in Sixty Days and Work Out at Notre Dame.

FAITH IN SHORT STOP

Grand Rapids, Mich., Feb. 2.—Two months from today the players who will represent Grand Rapids in the Central baseball league this year will begin reporting at Notre Dame for spring training. But few changes in the line-up are planned by Manager Smith, for he is satisfied that he already has the best team in the league, with the addition of another reliable box artist, and Sheldon Lejeune playing one of the outfield positions in place of Lefty Core.

Smith figures that Kelly's unsteady game on shortstop last season, along with, the feeling that the town his men represented did not appreciate them when playing under South Bend colors, cost him the pennant last season. He plans on having Ducky Holmes back behind the bat with himself, Essick, Lindsay and Martin as the pitchers, Schmick on first base, Koehler on second, Barkwell on third, Lejeune, Kroy and either Core or Geier in the outfield.

Kelly had an off year last season, but Manager Smith figures him due to return to form this year. In that event he will be the regular short fielder. If he fails Hadley, last season with Evansville, bids fair to be his successor. Parker, who played short for Newark last season, is another who is available for the position. Hadley is not a graceful but is a winning player who never shirks a chance and is in fighting for victory every minute of the time. Hadley batted .263 last season, Kelly clouted .254 and Parker's average was .241. In fielding Hadley was second among the league's shortstops with an average of .946, Kelly was sixth with .927 and Parker tenth with .877.

Schmick started finely last year after the team was transferred to Grand Rapids from South Bend and then went to the bad for a while with the water wagon not stopping near his apartments. He promises to work hard and right this year and will be under probation. When himself he is about the league's best, both in batting and fielding. Ben Koehler is easily the class of the league's second sackers. Manager Smith figures that Barkwell will make the league's most brilliant third sacker next season, although the writer never could see any such promise in the former Terre Haute player.

Between Lejeune and Lefty Core there is little choice, both being stars in the Central league. Toddy Kroy is the league's best center fielder and would have gone higher this year but for a crippled hand. Should Core be returned he, Kroy and Lejeune would form the king-pin outfield of the league. About all that is needed is a pitcher who will work as well as Lindsay did the year before to make it a team which will surely finish one, two, three, even in the league of twelve clubs.

BEWARE OF MONEY TRUST.

William J. Bryan Admonishes Democrats to Have a Care.

Lincoln, Neb., Feb. 2.—On being notified by wire at his Texas farm of a movement to transfer the proposed "money trust" investigation from a special committee to the house banking committee, W. J. Bryan telegraphed the following statement:

"Democrats beware. The money trust, having failed in its effort to prevent an investigation, is now trying to force an investigation by the banking committee investigation by the banking committee. The fact that the money trust wants that committee intrusted with the investigation is proof positive that it thinks it can control that committee. I may be mistaken, but a democratic congress cannot take chances in such an important matter.

"Press dispatches report that members of the banking committee have threatened to resign if the special committee is appointed. Let them resign. Men who would resign on such grounds admit themselves unfit for the committee.

"Strength to Mr. Henry. Drive the Wall street crowd into the open."

JIMMY DOYLE IS DEAD.

Brilliant Thirdbase of Cubs Succumbs to Appendicitis.

Syracuse, N. Y., Feb. 2.—Jimmy Doyle is dead. The brilliant young third baseman of the Chicago Cubs passed away at 9 o'clock last night from the effects of an appendicitis operation.

The death came as no great surprise, as the doctors gave up all hope of saving him early this afternoon. Last evening it was announced that he could not live until midnight. He put up a plucky fight to the end.

The young ball player was operated on Monday afternoon at St. Joseph's hospital. He rallied well from the shock, and on Tuesday morning the attending physicians announced he would recover. That night he suffered a relapse from which he never rallied.

WABASH AT CONCORDIA.

Visiting Club Is Out for the Indiana Championship.

With a big list of victories to its credit and a claim on the Indiana championship, the Wabash Athletic club basketball team will play Concordia in the college gym this evening, and indications point to a fast game as Manager Bode wants to put a crimp in the aspiration of the claimants.

The sport will start at 8 o'clock and the preliminary will be put on by the Friars and Concordia Juniors.

ONLY FIVE WINNERS IN 31 MANAGERS

In an eight-club league, playing eleven seasons, it is obvious that eighty-eight teams and as many managers of the same, have chances to win a pennant. There have not been eighty-eight managers in these eleven seasons, of course. But in those eleven years the league teams have had no less than thirty-one managers. And this counts only men who have had their teams for at least one full season. It eliminates managers like Elberfeld of New York, Lowe of Detroit, Huff of Boston, and others who merely finished, or filled in. Stovall of Cleveland alone, of this lot, is counted, because he made good.

With thirty-one men trying for the flag in these eleven years it has been the fortune of but five—Mack, Jennings, Collins, Griffith and Fielder Jones—to come through. It has not always been the fault of some of the unfortunates that they failed, nor due entirely to the ability of the winners that they landed. Luck has played its part. But always there is the demand for change, when fortune does not attend, even as when a man is suspected of incompetency. Hence the average tenure of office in the American league is considerably less than three seasons.

Two teams have won an overwhelming majority of championships of this circuit, the Athletics and Tigers having seven of the eleven flags done up in camphor and stored in their attics. And they represent the extremes in policy. Philadelphia has stuck to Mack from start to finish, and is the only club in the league—Baltimore and Milwaukee not being competent to consideration, as single year clubs—that has ever made a change in leader. Detroit, on the other hand, has had more managers than any team excepting Chicago, which it ties. And the Tigers, in an argument, would beat the Sox, for Winnie Mercer was their manager between the seasons of 1902 and 1903 and Bob Lowe finished the season of 1906.

Detroit's case, however, really proves two contentions, which are that one must change, as many clubs have done, until the right man is found, and that one must stick to the right man, when landed, as Philadelphia has done. After the Detroit ownership had picked up Jennings and gained a flag as a result it naturally clung to him. So in five years it has been first three times, twice once and third once, and probably could have been the runner-up on this latter occasion had Jennings deemed that there was any glory in being second with a team that had come to regard the pennant as the only thing worth while.

Twenty-six of the thirty-one members who have tried to win the American league pennant have failed absolutely. Two of the five winners, Griffith and Jennings, won the pennant in their first seasons, and three of the five, Mack, Jennings and Collins of Boston, have repeated once or more. Griffith had the Chicago club for only two seasons, so he did not have much chance to come back there, while Fielder Jones with the same team, was virtually a repeated in 1908. That was the year in which the last game of the season, between Detroit and Chicago, made its winner the champion. Jones had won in 1906 and Jennings in 1907. So, no matter which way victory went, a pennant winner would repeat, and the defeat would emphasize what has been said about fortune's favors.

SPORTLETS

Mrs. Mordecai Brown says her husband will not pitch next year and this looks like the last word on the subject.

After a banquet at South Bend Wednesday night Dr. F. R. Carson went to Erie for one there last night and then he will go to Wheeling to see what's what there.

Mike Gibbons and Young Cashman will box ten rounds at the Empire Athletic club February 7. No match that Gibbons has ever arranged promises to be a greater tussle than this one with Young Cashman. The latter has forty-eight victories to his credit.

John M. Ward, the new head of the Boston National league club, is having some trouble inducing Mike Donlin to get into the fold. Mike made good last season; once he got into condition, and he naturally figures that he is worth as much salary now as he drew during the days when he was the idol of New York fans.

After a study of the attendance figures announced at the recent Southern league meeting, Evansville has renewed its efforts to get into the Dixie league. Promoters in the Indiana town stand ready to guarantee a better attendance than that shown by either Montgomery or Mobile and also point to a considerably larger population.

John McGraw, the Giants' manager, in a recent fanning bee startled his hearers by declaring he thought Nap Rucker the greatest pitcher in the game. The listeners were surprised when they found McGraw believed the famous southpaw to be better than his star, Christy Mathewson. McGraw once tried to trade Roger Bresnahan for Rucker, but the Brooklyn club refused to consider such a deal.

President Chivington, of the American association, announced today that he had signed F. R. Connolly, of Boston, as an umpire. Connolly had six years' experience, four years in the New England league and two years in the Tri-State league. He is a brother of Tommy Connolly, the American league umpire.

Zanesville fans have succeeded in raising nearly $4,000 that is needed to start the club in the Central league this season.

The basket ball team of St. Mary's Athletic club has consented to meet the Concordia club as soon as a date can be chosen that will not conflict with the schedules of either of the clubs.

Bill Hillinger's signed contract has reached the Zanesville club and he hastened to get in because his salary was not cut in spite of the reduction in the club limit.

Skating a mile in 3:33½, Otto Strieder last night defeated Dan Long for the roller skating championship of the city. The former has held the title several years.

Percy Mumaw, who managed the Kendallville Reds during the season of 1911, has consented to become the manager for 1912 and is now engaged in rounding up some good semi-pro players. The grounds will be given a thorough overhauling before the season opens.

South Bend Tribune: "I do not think there is a college pitcher in existence who has a shade on Wells, and I know he will develop into a wonder," Coach Smith, of the Notre Dame baseball squad, said yesterday while watching the southpaw recruit work out. Wells held the heavy hitting varsity last year to four hits in a game played at the university in the fall.

SOUTH BEND GETS MATCH.

McFarland and Murphy Sign Up for the Match.

Chicago, Ill., Feb. 2.—McFarland and Murphy are to meet at South Bend February 14. The only thing that can keep the near-lightweights from having out their little quarrel is faint-heartedness on the part of McFarland. When the match was called off at Kenosha it was secretly awarded to South Bend and, although no formal articles were closed until yesterday, the McFarland camp already had put up money to guarantee that Packey would tackle the Boston Terrier in the Indiana city. Emil Thiry, who left Chicago ostensibly very much in doubt as to the staging of the match, signed the articles for McFarland Monday and posted $200 with the proprietor of the Grand hotel to insure Packey's appearance.

FOR SALE, CHEAP

My Hupp Coupe; repainted, overhauled and as good as new; an ideal doctor's car. Can be seen at Randall Garage.

S. S. S. BEST TREATMENT FOR CATARRH

S. S. S. is the best treatment for Catarrh because it is a perfect blood purifier. It is the only medicine that is able to get down into the circulation and entirely remove the catarrhal matter and impurities which produce the trouble. As long as the mucous membranes and tissues are kept inflamed and irritated by this impure and infected condition of the blood Catarrh will remain. Its disagreeable and dangerous symptoms, of ringing noises in the ears, mucus dropping back into the throat, headaches, watery eyes, difficult breathing, and even stomach disorders and weakened health, cannot be permanently relieved until the blood is purified. Nothing equals S. S. S. for this purpose. It goes down to the very root of the trouble, and removes every particle of the catarrhal matter from the blood and enriches this vital fluid so that all the mucous surfaces are supplied with nutritive, healthful qualities, instead of being constantly irritated and inflamed by impurities in the circulation. Then the symptoms begin to pass away and when S. S. S. has entirely purified the blood, Catarrh is permanently cured and the general health greatly built up. Book on Catarrh and any medical advice desired sent free to all who write.

WOLF & DESSAUER

Saturday—The Last Day of Our Clearance Sale

WOLF & DESSAUER

Be Here To-morrow—The Last Day of the Clearance Sale

For Saturday—A Factory Clean-Up of Sample Gloves in the Bargain Basement

Now it's a sale of sample gloves in the Bargain Basement, scheduled for Saturday! Gloves bought at about half the cost to manufacture, and marked for Saturday's selling in the same proportion. Buy gloves for men, women and children at these wonderful bargain prices:—

5c for men's and children's Jersey gloves; some with knit wrist bands; worth 10c, for 5c a pair

10c for women's black Jersey gloves; regular 25c values.

19c for women's and misses' heavy golf gloves, in black and colors; regular 50c values.

19c for men and boys' black and grey astrachan gloves; fleece lined; regular 50c values.

19c for children's silk and wool mittens, all colors and black; regular 50c values.

Men's Gloves and Mitts

Men's pure calfskin and buckskin gauntlets for driving and auto gloves; regular $1.00 values, for 39c pair.

Men's heavy waterproof and fireproof buckskin mitts, regular $1.00 values, 39c a pair.

39c

MEN'S KID GLOVES, 49c

Men's Kid Gloves in tans and browns; all sizes, splendidly made; regular $1.00 values, for 49c

OTHER SPECIALS FOR MEN AND BOYS

Men's and Boys' Dress Suspenders 10c

Police and Firemen's Suspenders 19c

Boys Wool Caps 10c

Boys' Wool Caps, with astrachan folds to protect the ears; 50c values, for 25c

Specials From the Bargain Basement In Women's Garments

Coats for women and misses; variety of stylish models; regular values up to $7.50; choice **$1.98**

WOMEN'S SEPARATE SKIRTS

Regular $3.00 values for **$1.98**

Regular $5.00 values for **$2.98**

Extra Special

Boys' "Newsboy" Hose, heavy ribbed; a regular 25c standard hose; all sizes. Special Saturday

2 Pairs for 25c

IT ISN'T VANITY

—but a sense of feminine duty which prompts every woman to look her best and be as beautiful as it lies in her power to be. And she can help herself considerably. Just how, the demonstrator of

Fleming's Facial Cream

will explain. This cream is a powder and skin food combined—antiseptic, cleansing and refreshing. The demonstrator will be at our store for a few days only, and every woman should talk to her and learn of the advantages of this most excellent preparation.

Continuing the Demonstration of

O-CEDAR RING MOPS

Stop at the demonstration of the wonderful O-Cedar Mops and Furniture Polish, if you have hardwood or stained floors in your home. O-Cedar Ring Mops are superior to every other oil mop on the market, because of their construction, and the peculiar qualities of the O-Cedar oil.

The Mops and oil are now being demonstrated on First Floor. A few minutes' time can be profitably spent in learning about these household conveniences.

Saturday—Last Day of the LINEN SALE

Domestic Sale and Discount on Everything in the Store.

To-morrow—All FURS At

1-2 Price

Plenty of cold weather yet to come, say the predictions—plenty of time yet this season to wear Furs. And Saturday presents most extraordinary inducements to buy, for our entire stock of Furs has been marked for Clearance at just

1-2 Regular Prices

This Includes

ELEGANT FUR COATS BEAUTIFUL SETS IN ALL THE RARE AND POPULAR FURS SEPARATE MUFFS, SCARFS AND COLLARS

In new and fashionable shapes, all at

1-2 Regular Prices

The Half Price Sale starts Saturday morning. Furs bought at these new prices make a splendid investment.

Lace Curtains and Drapery Materials—Underpriced

LACE CURTAINS—

Regular $1.00 values for 79c.
Regular $1.50 values for $1.00.
Regular $1.75 values for $1.29.
Regular $2.50 values for $1.89.

MUSLIN AND RUFFLED SWISS CURTAINS, DAINTY AND NEW—

Regular $1.00 values for 79c.
Regular $1.25 values for 98c.

DRAPERY MATERIALS BY THE YARD—

Swiss, dainty stripes, 10c quality for, per yard 7c

Scrim, with colored figures; regular price 25c yard, for 17c

Scrim, plain and barred effects; regular price 35c yard, for 29c

Filet Nets, figured white and ecru; regular price 30c yard, for 23c

Colored Madras, beautiful designs and colorings, at .... ONE-HALF PRICE

Marquisette, in white, ivory and ecru; 40c quality, for 33c

CURTAIN RODS, 5c.

Brass Extension Curtain Rods, 10c values for 5c.

Window Shades

Window Shades, well made, with spring rollers, assorted colors—
25c shades for 21c.
35c shades for 29c.
50c shades for 42c.

Shades for wide windows—45, 48 and 54 inches; assorted colors; regular prices $1.50 and $1.75, for 89c and $1.00.

All other Shades made to order at Clearance Prices.

PRESIDENT ASKS LAWS FOR ALASKA

(Continued from Page One.)

tively for immediate legislation than that which concerns the public domain, and especially the part of that domain which is in Alaska. The report of the secretary of the interior, which is transmitted herewith, and the report to him of the governor of Alaska, set out the public need in this regard with great force and unsatisfactory detail.

The progress under the reclamation act has made clear the defects of its limitations, which should be remedied. The rules governing the acquisition of homesteads, of land that is not arid or semi-arid, are not well adapted to the perfecting of title to land made arable by government reclamation work.

I concur with the secretary of the interior in his recommendation that, after entry is made upon land being reclaimed, actual occupation as a homestead of the same be not required until two years after entry, but that cultivation of the same shall be required, and that the present provision under which the land is to be paid for in ten annual installments shall be so modified as to allow a patent to issue for the land at the end of five years' cultivation and three years' occupation, with a reservation of a government lien for the amount of the unpaid purchase money. This leniency to the reclamation homesteader will relieve him from occupation at a time when the condition of the land makes it most burdensome and difficult, and at the end of five years will furnish him with a title upon which he can borrow money and continue the improvement of his holding.

I also concur in the recommendation of the secretary of the interior that all of our public domain should be classified and that each class should be disposed of or administered in the manner most appropriate to that particular class.

The chief change, however which ought to be made, and which I have already recommended in previous messages and communications to congress, is that by which government coal land and phosphate and other mineral lands containing non-metalliferous minerals, shall be leased by the government, with restrictions as to size and time, resembling those which now obtain throughout the country between the owners in fee and the lessees who work the mines, and in leases like those which have been most successful in Australia, New Zealand and Nova Scotia. The showing made by the investigations into the successful working of the leasing system leaves no doubt as to its wisdom and practical utility. Requirements as to the working of the mine during the term may be so framed as to prevent any holding of large mining properties merely for speculation, while the royalties may be made sufficiently low, not unduly to increase the cost of the coal mined, and at the same time sufficient to furnish a reasonable income for the use of the public in the community where the mining goes on. In Alaska, there is no reason why a substantial income should not thus be raised for such public works as may be deemed necessary or useful.

There is no difference between the reasons which call for the application of the leasing system to the coal lands still retained by the government in the United States proper and those which exist in Alaska.

Two Big Coal Fields.

There are now in Alaska only two well known high-grade coal fields of large extent—the Bering river coal field and the Matanuska coal field. The Bering river coal field, while it has varying qualities of coal from the bituminous to the anthracite, is very much lessened in value and usefulness by the grinding effect to which in geological ages past the coal measures have been subjected, so that the coal does not lie or can not be mined in large lumps. It must be taken out in almost a powdered condition. The same difficulty does not appear to the same extent in the Matanuska coal fields. The Bering river coal fields are only twenty-five miles from the coast. They are within easy distance of an existing railroad built by the Morgan-Guggenheim interests, and may also be reached through Controller bay by the construction of other and competing railroads.

Controller bay is not a good harbor, but could probably be made practical with the expenditure of considerable money. The railroad of the Morgan-Guggenheim interests, running from Cordova, could be made a coal carrying road for the Bering river fields by the construction of a branch to those fields not exceeding fifty or sixty miles. It is practicable, and if the coal measures were to be opened up, doubtless the branch would be built. In the present condition of things, there is no motive to build the road, because there is no title or opportunity to open and mine the coal.

The Matanuska coal fields are a longer distance from the coast. They are from 150 to 200 miles from the harbor of Seward, on Resurrection bay. This is one of the finest harbors in the world, and a reservation has been made there for the use of the navy of the United States. A road constructed from Seward to the Matanuska coal fields would form part of a system reaching from the coast into the heart of Alaska, and open the great interior valleys of the Yukon and the Tanana, which have agricultural as well as great mineral possibilities.

The Alaska Central road has been constructed some seventy-one miles of the distance from Seward north to the Matanuska coal fields, but the construction beyond this has been discouraged, first, by the fact that there has been no policy adopted of opening up the coal lands upon which investors could depend, and, second, because there seemed to be a lack of financial backing of those engaged in the enterprise. The secretary of the interior has ascertained that the bondholders, who are the real owners of the road, are willing to sell to the government, and he recommends the purchase of the existing road, such reconstruction as may be necessary, its continuance to the Matanuska coal fields, and thence into the valleys of the Yukon and the Tanana. It would be a great trunk line, and would be an opening up of Alaska by government capital.

Opposes Government Ownership.

I am not in favor of government ownership where the same certainty and efficiency of service can be had by private enterprise, but I think the conditions presented in Alaska are of such a character as to warrant the government, for ment of that vast and remarkable territory, to build and own a trunk line railroad, which it can lease on terms which may be varied and changed to meet the growing prosperity and development of the territory.

There is nothing in the history of the United States which affords such just reason for criticism as the failure of the federal government to extend the benefit of its fostering care to the territory of Alaska. There was a time, of course, when Alaska was regarded as so far removed into the Arctic ocean as to make any development of it practically impossible, but for years the facts have been known to those who have been responsible for its government, and every one who has given the subject the slightest consideration has been aware of the wonderful possibilities in its growth and development if only capital were invested there and a good government put over it. I think the United States owes it, therefore, to Alaska, and to the people who have gone there, to take an exceptional step and to build a railroad that shall open the treasures of Alaska to the Pacific and to the people who live along that ocean on our western coast. The construction of a railroad and ownership of the fee do not necessitate government operation. Pursuant however, to the recommendation of the secretary of the interior, I suggest to congress the wisdom of providing that the president may appoint a commission of competent persons, including two army engineers, to examine and report upon the available routes for a railroad from Seward to the Matanuska coal fields and into the Tanana and Yukon valleys, with an estimate of the value of the existing partially constructed railroad and of the cost of continuing the railroad to the proper points in the valleys named. This proposal is further justified by the need that the navy of the United States has for a secure coaling base in the North Pacific. The commission ought to make a full report also as to the character of the coal fields at Matanuska, and the problem of furnishing coal from that source for mercantile purposes after reserving for government mining a sufficient quantity for the navy.

I have already recommended to congress the establishment of a form of commission government for Alaska. The territory is too extended its needs are too varied, and its distance from Washington too remote to enable congress to keep up with its necessities in the matter of legislation of a local character.

The governor of Alaska in his report, which accompanies that of the secretary of the interior, points out certain laws that ought to be adopted, and emphasizes what I have said as to the immediate need for a government of much wider powers than now exists there, if it can be said to have any government. I do not stop to dwell upon the lack of provision for the health of the inhabitants and the absence or inadequacy of laws, the mere statement of which shows their crying need. I only press upon congress the imperative necessity for taking action not only to permit the beginning of the development of Alaska and the opening of her resources, but to provide laws which shall give to those who come under the jurisdiction decent protection.

Lower Colorado River.

There is transmitted herewith a letter from the secretary of the interior setting out the work done under joint resolution approved June 25, 1910, authorizing the expenditure of $1,000,000 or so much thereof as might be necessary, to be expended by the president for the purpose of protecting lands and property in the Imperial valley and elsewhere along the Colorado river in Arizona. The money was expended and the protective works erected but the disturbances in Mexico so delayed the work, and the floods in the Colorado river were so extensive that a part of the works have been carried away, and the need for further action and expenditure of money exists. I do not make a definite recommendation at present, for the reason that the plan to be adopted for the betterment of conditions near the mouth of the Colorado river proves to be so dependent on a free and full agreement between the government of Mexico and the government of the United States as to the joint expenditure and joint use that it is unwise to move until we can obtain some agreement with the government which will enable us to submit to congress a larger plan, better adapted to the exigencies presented than the one adopted. It is essential that we act promptly, and through the state department the matter is being pressed upon the attention of the Mexican government. Meantime, a report of the engineer in charge, together with a subsequent report upon his work by a body of experts appointed by the secretary of the interior, together with an offer by the Southern Pacific railroad to do the work at a certain price, with a guaranty for a year, and a comment upon this offer by Brig. Gen. Marshall, late chief of engineers, United States army, and now consulting engineer of the reclamation service, are all herewith transmitted.

Water Power Sites.

In previous communications to congress I have pointed out two methods by which the water power sites on non-navigable streams may be controlled as between the state and the national government. It has seemed wise that the control should be concentrated in one government or the other as the active participant in supervising its use by private enterprise. In most cases when the government owns what are called water power sites along non-navigable streams, which are really riparian lots, without which the power in the stream can not be used, we have a situation as to ownership that may be described as follows: The federal government has land without which the power in the stream can not be transmuted into electricity and applied at a distance, while it is claimed that the state, under the law of waters as it prevails in many of our western states, controls the use of the water and gives the beneficial use to the first and continuous user. In order to secure proper care by the state governments over these sources of power, it has been proposed that the government shall deed the water power site to the state on condition that the site and all the plant upon it shall revert to the government unless the state parts with the site only by a lease, the terms of which it enforces and which requires a revaluation of the rental every ten years, the full term to last not

Pastry made with Crisco has a decidedly superior flavor

Crust that melts in your mouth

For luncheons, wedding dinners and similar occasions, nothing is nicer or easier to make than rosettes filled with creamed chicken, sweet-breads or oysters.

To make them at home, purchase a rosette iron from any hardware department. They may be either plain or fluted.

The batter is made of two eggs, one cup of sweet milk, one cup of flour and a pinch of salt, beaten to the consistency of thick cream.

Have the Crisco very hot. Dip the iron into the hot Crisco and hold it until heated through. Then dip into the batter—put it back into the Crisco and in half a minute, it will be delightfully brown and crisp. It will be tender yet firm enough to hold the meat. These rosettes may be kept on hand and filled with any mixture.

Filled with fruit, they are most appetizing.

After you have made these rosettes once, you will see how easy and simple it is to have the delightful dishes that hotels serve. Crisco's unfailing richness makes it possible to have crust that melts in your mouth, and that has a decidedly superior flavor.

WABASH TRAIN IN HARMLESS WRECK

Engine and Eight Cars Derailed Near Munson Friday Morning.

REMAIN UPRIGHT; NOBODY IS HURT

Western Gas Works Resume Old Time Activity—Shop in Full Blast.

Westbound Wabash train No. 9, due here at 5:15 o'clock this morning, was derailed near Munson, Mich., and not a member of the crew nor a passenger received the slightest scratch. The train was approaching the station and was not running very fast when the rails spread under the engine and before it could be stopped the eight cars it was pulling left the rails. All remained upright and most of the passengers learned of the accident when they were awakened and told of it by the train crew. Munson is only a few miles from Montpelier, a division point, and an engine and some cars were gotten together there and sent out as a "make up" No. 9, passing through this city about 9 o'clock, carrying the mails and express matter and most of the passengers who were on the regular train. The wreck crews were summoned to the scene and are still at work picking up the cars and repairing the tracks.

MADE HIS LAST TRIP.

Engineer B. C. Skinner Passes to Retired List.

Benjamin C. Skinner, 2125 Hanna street, one of the best known engineers in the employ of the Pennsylvania, made his last trip in that capacity yesterday, when he brought passenger train No. 39 from Crestline to Fort Wayne. Mr. Skinner's name first appeared on the pay rolls of the Pennsylvania company in November, 1863, in the capacity of a fireman, running from Valparaiso to Chicago. He was promoted to engineer July 7, 1873, and has been at the throttle ever since, a good portion of the time in the passenger service. Before becoming a fireman on the road, Mr. Skinner was employed as a carpenter by the contractor in the building of stock yards at Chicago. He lacks a year or two of the compulsory age limit, and enters the pension department on the clause which leaves the matter optional with the applicant after he has passed the age of sixty-five years.

OHIO ROAD

Will Be Link in New Ocean-To-Lake Traffic System.

Lorain, Ohio, Feb. 2.—Joseph Ramsey, promoter of the Lorain and West Virginia railroad, which is designed to connect with the Virginia railway at Tidewater, accompanied by George Rust, has completed an inspection of their contemplated terminals here and the local steel mills. Mr. Ramsey says the road will be completed soon and that his line will form a link in the new ocean-to-lake system. The Ramsey road was graded, bridges built, ties and rails laid to a point just outside the corporation limits three years ago, but the line has never been put in operation.

RUNNING FULL BLAST.

Western Gas Works Is a Very Busy Place.

For the first time for many months the factory of the Western Gas Construction company is in full operation with a full complement of workmen. The pattern shop is still running on an overtime schedule and all of the other departments are in operation ten hours per day. The $60,000 contract mentioned by The Sentinel some time ago has reached the shops and in addition to this a number of smaller contracts are being filled.

EQUIPMENT ORDERS INCREASE.

With an improvement in the general business on the railways has come a disposition on the part of the management to buy more liberally. Among some recent deals are the following: Forty locomotives for the D., L. & W.; twelve locomotives for the D. & H.; 108 locomotives for the Canadian Pacific; 2,500 steel underframe box cars for the Rock Island; 3,000 freight cars and 53 passenger cars for the Pennsylvania; 4,500 freight cars for the Bessmer and Lake Erie; 1,000 box cars and 500 refrigerator cars for the C., M. & St. P., and fifty gondola cars for the Bingham and Garfield company. It is also said that the Pennsylvania railroad is in the market for 150 passenger cars and will build 400 freight cars at its Altoona shops.

GOT AN IRISH PROMOTION.

The Wabash Plain Dealer relates an incident in the receivers' management of the Wabash which may be followed by a change in one of the offices. The Plain Dealer says: "The salaries of the three Wabash railroad receivers have been fixed at $20,000 a year. One of the chief operating men of the road had been receiving $30,000 per annum. He was given a $10,000-a-year increase about a year ago through the personal efforts of George J. Gould. At that time an eastern trunk line had made him a flattering offer. One of the first acts of the receivers was to reduce the salary of this official to their $20,000-a-year level. The result is that there may be soon a vacancy in the Wabash operating staff."

SOME AGENTS ARE TRANSFERRED.

A bulletin announcing the transfer of three Pennsylvania freight and ticket agents has been issued. C. M. Mackay has been transferred from Valparaiso to Gary, J. R. Crooks has been transferred from Gary to Hanna, Ind., and E. D. Hedges has been transferred from Hanna to Valparaiso. These changes became effective Feb. 1.

MANY SHOPMEN ARE SICK.

Sickness increasing among the Pennsylvania shopmen, grip and bad colds being prevalent. New names on the sick list today were H. Hammer, J. Gans, C. E. Romy, Charles Volz, William Dreyer, E. Kelker, A. C. Vodde, John O. Bryant and Philip Denahy.

VISITED FORMER ASSOCIATES.

Supt. W. M. Wardrop has returned from the Erie and Ashtabula division of the Pennsylvania system. He joined the division officials on a station inspection trip in order that he might see the men with whom he was associated in railway work for several years before he came to the Western division.

TWO MORE NEW ENGINES.

Two more passenger engines, Nos. 661 and 662, just out of the American Locomotive works, at Richmond, Va., reached Toledo this morning and were turned over to the Wabash. They will go into service on the Detroit division as soon as they have been made ready for the road. Another passenger engine, No. 660, reached the Wabash several days ago and is now in service on the Detroit branch.

EYE BADLY HURT.

E. H. Brake, who operates a bolt tuner in the Pennsylvania machine shop, had one of his eyes badly injured yesterday when a piece of metal lodged in the optic. He will be unable to work for a week or more.

HAD HIS FOOT BRUISED.

Frank Mason, of the Pennsylvania erecting shop, sustained injuries last night that have put him out of commission for a few days. A running board fell on one of his feet and injured the member painfully.

INDUSTRIAL NOTES.

Conductor C. F. Goodyear, of the Nickel Plate, is sick and off duty.

G. F. Dousch, of the Pennsylvania blacksmith shop, has gone to Toledo for a visit with relatives.

L. J. Schmidt, of the Pennsylvania blacksmith shop, is kept from work by the illness of his wife.

Pennsylvania Machinist John Doyle reported for work this morning, after being ill a day or two.

Machinist Simpson Maxwell and Machinists' Helper Charles H. Elion are new employes at the Wabash shops.

E. J. McGrath resumed work in the Pennsylvania planing mills this morning. He had been sick a few days.

Nickel Plate Conductor Ed Stevens has resumed work. He had been visiting his wife's folks at Fostoria, Ohio.

Machinist James Majors, of the Pennsylvania shops, is in Bluffton today, visiting friends and looking after some personal matters.

O. W. Woods, formerly on the Pennsylvania, and W. Lobenstein took employment as firemen on the G. R. & I. this morning.

J. L. Craig, traveling freight agent of the Wabash, was in the city today calling on agents and shippers. He has headquarters at Toledo.

Brakeman G. C. Lymangrover, of the Nickel Plate, will be off duty a few days as the result of a sprained ankle, which happened Wednesday.

Chief Engineer A. L. Hadley, of the Fort Wayne Electric works, is in Madison, Wis., looking after the company's factory affairs in that place.

Machinist E. W. Wehmeyer reported for work in the Pennsylvania erecting shop this morning. An injured finger kept him from work several days.

O. C. Wright, assistant engineer of motive power of the Pennsylvania, continues to improve, though he is still unable to sit up except for short periods.

Jacob Wildschmidt, who operates a machine in the Pennsylvania planing mills, had the palm of one of his hands badly cut yesterday and is off duty as a result.

Mrs. William A. Fosler, wife of the foreman at the Nickel Plate round house, has returned from Whitehouse, Ohio, where she visited her grandparents several days.

The Illinois Central issued an order allowing the wood from 40 worn-out freight cars being dismantled at the Burnside shops to be given away to the poor for fuel on application.

Brakeman D. H. Garry is with his folks in Hillsdale, Mich. Brakemen L. R. Stone and H. C. Baker are taking lay offs to look after private matters. All are Nickel Plate employes.

Harold F. Roy has taken a clerical position in the Nickel Plate round house and shop office. He was formerly employed in a similar capacity at the Pennsylvania round house office.

The Baltimore and Ohio has bought additional ground adjacent to its shops in Garrett for the extension of the round house at that point. Other improvements are also to be made at Garrett.

The task of filling the mammoth ice house of the Nickel Plate, at Bellevue, which has been in progress for several weeks past, was completed this afternoon. The quality of the ice is said to be the best in many years.

Sickness in his family is keeping Charles Burghoff from his work at the throttle on the Pennsylvania. William Trautman, Harry Ginty and Charles Larimore, engineers, and C. N. Esterline, fireman, are sick and off duty.

Alleging that for a period of 41 hours and 41 minutes, 45 cows, 28 pigs and 3 calves were unfed, unwatered and unrested, two suits were filed in the United States district court at Cleveland yesterday against the Lake Shore & Michigan Southern railway. The suits are brought by the government.

The Missouri state board of health has issued an order prohibiting the use of the common drinking cup, roller towel and comb on railway passenger trains in the state after March 1. The railways have advised the board that individual cups and towels will be supplied on the trains, but passengers will hereafter be expected to furnish their own combs.

Henry Regan, the insane man arrested by Pennsylvania Patrolman Miner at Columbia City several days ago and held in jail on the charge of trespass until something concerning him could be learned, has been sent back to the Dunning hospital, from where he escaped several days ago. Money to defray the expenses was sent to Columbia City by a sister of the unfortunate man.

Machinist Al. Ringle, of the Pennsylvania shops, carried his dinner to the shops this morning, least he see his shadow if he left the shop to go to the restaurant. Al was born on groundhog day and is a firm believer in the adage that "if the groundhog sees his shadow on his anniversary, we will have six weeks more of winter." Al is manager of the Penny shop league team and wants the ball season to open early this year.

The life of a steel rail on a main railroad line is twelve years.

Catarrh Cannot Be Cured

with LOCAL APPLICATIONS, as they cannot reach the seat of the disease. Catarrh is a blood or constitutional disease, and in order to cure it you must take internal remedies. Hall's Catarrh Cure is taken internally, and acts directly upon the blood and mucous surfaces. Hall's Catarrh Cure is not a quack medicine. It was prescribed by one of the best physicians in this country for years and is a regular prescription. It is composed of the best tonics known, combined with the best blood purifiers, acting directly on the mucous surfaces. The perfect combination of the two ingredients is what produces such wonderful results in curing catarrh. Send for testimonials, free.

THE JOY OF LIVING IS THE KEYNOTE OF THE WORK OF THIS WOMAN SCULPTOR

GOOSE GIRL. MRS. EDITH STEVENS PARSONS.

LATEST WORK BY EDITH STEVENS PARSONS.

More strikingly than in any of her previous work does the joy of living furnish the keynote of the latest work of Edith Stevens Parsons, a well known young sculptor. It is the figure of a toddling boy. In his arms are clutched two ducks, one crumpled up and the other struggling to escape.

Mrs. Parsons' "Goose Girl" won the prize offered some time ago by Mrs. Harry Payne Whitney for the best design for a garden figure, and it is now being worked out on an ambitious scale. It represents a girl about eleven years old standing on tiptoe, her head thrown back and the goose (duck) in her arm almost as spirited as the charming girl herself.

POUNDMASTER IS IN SAD TROUBLE

Wants to Know Whose Duty It is to Kill the Stray Cats.

NO LAW IS FOUND

Just whose duty it is to kill stray cats and impounded dogs is a question that William Brownsberger, city poundmaster, would like to have settled and he would also like to know whether he has any police powers.

Persons on the inside know that a few days ago a cat broke quarantine and was captured by the health department's flying squadron and when it came to putting tabby out of the way nobody wanted to assume the responsibility. The cat had entered a house in which there was a case of contagion and had escaped and was circulating too freely in the neighborhood and it was feared that it had picked up a few germs and might transmit them.

The state law does not provide for a poundmaster in cities of the second class but there is an ordinance creating the office.

This ordinance stipulates that he must be appointed by the board of public works, shall work under this board and shall have police powers delegated to him by his employers. The works board has no police powers to delegate and until this matter is fully settled the poundmaster will be aviating.

He has been recognized heretofore as part and parcel of the police government of the city and in event another cat breaks quarantine the same question will arise so an effort is being made to decide the question.

Board Considers Streets.

Resolutions were adopted last night by the Board of public works for paving Butler, Walnut, Kinnaird avenue, South Wayne avenue, Huestis avenue, Fourth street, Maumee avenue, Superior street, Lake avenue, Maiden lane, Wells street, Wayne street and three sections of Harrison street.

The city clerk asked the board to buy him a new seal and plans were approved for the extension of Coombs street. W. D. Henderson headed a movement to have a new and modern valve placed in the Lakeside sewer outlet with an electric pump to take off surface water when the valve is closed and a petition will likely be presented.

It was decided upon applications from property owners on Columbia avenue to reduce the width of the proposed new cement walks from six to five feet.

Members of the North Side Civic Improvement association were on hand to urge the extension of the street car lines to North Wayne Heights and the matter will be submitted to the city attorney.

Resolutions for sewers between Thomas and Holton avenue, and High and St. Claire streets and for a main sewer on Hoagland avenue were confirmed.

Chicken Dinner, Saturday, 11 to 2—25c, at the Hof Brau.

GROUNDHOG SEES SHADOW.

Those who pin their faith to traditions may as well prepare to enjoy six weeks more of real winter. With the sun shining brightly for a large portion of the day today, only defective vision could have prevented the groundhog from getting a superb view of his own shadow. Accordingly, he is now presumed to have retreated to his winter quarters to await the passing of another installment of winter, and will not again venture forth until March is well under way.

FIGHT ON RATE RULING.

Washington, Feb. 2.—The Santa Fe and other trans-continental railroads today petitioned the commerce court for an injunction against the interstate commerce commission's order reducing rates on lemons from California to all points in the United States from $1.15 per hundred pounds to $1. The court will hear arguments on Monday.

BONFIRE A BAD THING.

Toledo, Ohio, Feb. 2.—Impressed with a sermon on worldliness, delivered to them by an evangelist, a number of Perrysburg citizens last night made a huge bonfire to which they contributed paper back novels, chewing gum, playing cards, dice and poker chips. While the owners of these things filed past the blazing fire a large crowd of women sang hymns.

NOTICE

Deaths from kidney disease have frightfully increased—now nearly 90,000 a year.

If this is to be changed people should know—

1. That kidney trouble is INFLAMMATION OF THE KIDNEYS and that when it becomes chronic it is declared incurable.

2. Prof. Tyson says the incurable stage is established about the sixth month. Hence no part of that sixth month ought to be wasted.

3. Treatment of inflamed kidneys by excitants has broken down—Prof. Tyson declaring (with reference to agents to restore the normal conditions of the kidneys), "I believe there are none," which cuts out at one sweep all the kidney medicines on druggists' shelves.

4. That these conditions gave rise to a search for something to palliate instead of excite inflamed kidneys.

5. That as the result of those researches a bland infusion was worked out that reduces inflamed kidney tissues and that a majority of cases now yield whether in the chronic stage or not.

Hence, there is only one agent that dares claim in print to cure chronic kidney disease. The D. & N. Pharmacy is the only drug store in your city that is permitted to carry the new kidney palliative, Fulton's Renal Compound. We desire to hear from and advise with cases not yielding. Ask for free literature.

VAST STORE OF GRAIN.

Sixty Million Bushels in Ships and Elevators of Northwest.

Duluth, Minn., Feb. 2.—Present prospects are that there will be sixty million bushels of grain in the Duluth and Superior and the Port Arthur and Fort William elevators at the opening of navigation next spring, counting the amount in vessels at the latter points. This is said to be unprecedented.

Winnipeg estimates that the volume of Canadian grain of the present crop will be sent east by way of the American head of lakes will range from ten to fifteen million bushels. It would seem, Winnipeg says, that the wheat region of western Canada is being developed more rapidly than are the facilities for storing and shipping. Elevator taxation in Canada promises to be large during the year.

DIED IN TENNESSEE.

Bluffton, Ind., Feb. 2.—News has been received here of the death of Mrs. Pearl Johnston, wife of Russell Johnston, formerly of this city, at the home of her sister, Mrs. Earl Stanley, of Memphis, Tenn. Her death was due to dropsy. She is survived by one child, a daughter, who is attending school at Fort Wayne. Besides Mrs. Stanley she had one sister, Miss Blanche Shultz, and two brothers, Clarence and Bert Shultz. All formerly lived in this city, but moved away several years ago.

In Russia last year 2,252 religious books were published, the editions aggregating 3,692,399.

HAPPY THO' MARRIED?

There are unhappy married lives, but a large percentage of these unhappy homes are due to the illness of the wife, mother or daughter. The feelings of nervousness, the befogged mind, the ill-temper, the pale and wrinkled face, hollow and circled eyes, result most often from those disorders peculiar to women. For the woman to be happy and good-looking she must naturally have good health. Dragging-down feelings, hysteria, hot-flashes or constantly returning pains and aches—are too great a drain upon a woman's vitality and strength. Dr. Pierce's Favorite Prescription restores weak and sick women to sound health by regulating and correcting the local disorders which are generally responsible for the above distressing symptoms.

MRS. DICKOVER.

"I suffered greatly for a number of years and for the past three years was so bad that life was a misery to me," writes MRS. B. F. DICKOVER, of Utica, Ohio, Route 4. "The doctors told me I would have to go to a hospital before I would ever be better. A year ago this winter and spring I was worse than ever before. At each period I suffered like one in torment. I am the mother of six children. I was so bad for five months that I knew something must be done, so I wrote to Dr. R. V. Pierce, telling him as nearly as I could how I suffered. He outlined a course of treatment which I followed to the letter. I took two bottles of 'Favorite Prescription' and one of 'Golden Medical Discovery' and a fifty-cent bottle of 'Smart-Weed,' and have never suffered much since. I wish I could tell every suffering woman the world over what a boon Dr. Pierce's medicines are. There is no use wasting time and money doctoring with anything else or any one else."

The Medical Adviser by R. V. Pierce, M. D., Buffalo, N. Y., answers hosts of delicate questions about which every woman, single or married ought to know. Sent *free* on receipt of 31 stamps to pay for wrapping and mailing only.

PREMIER VACUUM CLEANER

The Premier Suction Sweeper is a throughly efficient electric carpet cleaning machine, made to get the most dirt in the least time with the least effort. The Premier is the only substitute for the broom and carpet sweeper that will be consistently used in the home.

OUSTED FROM CHURCH; SUES

George Brockus Seeks to Get $20,000 from the Baptists.

ROW AT SPRINGFIELD

Springfield, Mo., Feb. 2.—As an aftermath of one of the greatest church upheavals Springfield has ever known, when George Brockus, a 26-year-old printer, was ousted from membership in the East Avenue Baptist church, Brockus has brought suit for $20,000 damages in the local circuit court against the Rev. E. H. Barb, pastor of the church, and thirty-two members of the congregation. Brockus bases his suit on alleged persecution and slander, by which, he says, "his reputation has been blasted and his name dragged in the dust."

Named in the damage suit are some of the city's most influential church workers and Springfield's religious circles are deeply stirred.

The trouble began months ago. Brockus first came into disfavor with the church, named the Seventh Baptist. The membership numbered only eighty, of which thirty-four had seceded from the congregation of the East Avenue church.

According to Brockus' story of the trouble, the Rev. Mr. Barb was invited to take an active part in the revival, but the minister declined the invitation. Two years before he had been given a hard race for the pastorate he now holds by the Rev. Mr. Elsey, under whose direction the revival was held.

At a business meeting of the East Avenue church a short time later, following his refusal to give official recognition to the church which had taken so many of his flock, the Rev. Mr. Barb resigned. This was on the night of September 2, and the resignation was to go into effect October 20. No reasons for the withdrawal were offered. The pastor contented himself by saying, 'I feel that my work in your church has been finished. You may draw your own conclusions from this."

Brockus furnished the facts of a newspaper story of the meeting and the events which led up to the Rev. Mr. Barb's resignation. The newspaper happened to be the one in the composing rooms of which Brockus is employed.

Brockus' friends in the congregation were amazed by an announcement the following Sunday morning that serious charges were to be made against the young church member. The Rev. Mr. Barb preferred the charges at the morning service while Brockus was absent. The defendant was ordered to appear in church that same night and make his plea.

Charges Against Brockus.

The charges against Brockus were three-fold:

"First. Conspiracy to disgrace the pastor of the church, in order to elect some one for pastor whom the church did not want.

"Second. Violation of the church covenant in that he refused to support the church either in a spiritual or a financial way, as liberally as he should.

"Third. Being the author of an untruthful and misleading article, published in a Springfield newspaper, in regard to the church's business—a deliberate attempt to bring reproach on the name of the pastor and to disgrace the said pastor in the eyes of the public."

Brockus appeared before the church meeting and presented his defense. It was that the charges against him were false, that the report of which he admitted he was the author, was true, and that the Rev. Mr. Barb "had not acted toward him in accordance with the teachings of the Bible." Brockus also brought forward a witness, who testified that Brockus had not, to his knowledge, refused to contribute to the church. Before closing his defense, Brockus challenged the testimony of one of the witnesses for the Rev. Mr. Barb.

Witnesses Ruled Out.

At this juncture of the proceedings, Brockus says the moderator pro tem., A. H. Fuson, ruled out all other witnesses and called for a vote of the congregation on the guilt or innocence of the accused. Brockus entered a simple plea of "not guilty." Much to his surprise, the congregation voted a few minutes later to oust him. He was ostracized—an outcast from his church—and without the letters which would admit him to another church, he alleges.

Since then, Brockus says, he has applied three or four times for either the return of his church letters or a reconsideration of the case in a formal way—by the examination of witnesses and another vote. The church is alleged to have refused on each occasion to accede to the request. It is on these alleged grounds, in part, that the damage suit is based.

For a time after his removal from the East Avenue church, Brockus was not recognized by any other Baptist church in the city. After appealing to the Seventh Baptist, however, which in the meantime had prepared to organize and elect the Rev. Mr. Elsey pastor, his name was submitted, among others, to a church council.

Practically Exonerated.

The council, by a favorable vote of the constituency of the church, practically exonerated Brockus of the charges against him. It held that, since Brockus had asked for and been granted his letters with those of several others prior to the church trial, he was not a member of the East Avenue church at the latter date, even though the letters had not actually been placed in his hands. For this reason, it said, he was already outside the church's jurisdiction when it voted for his expulsion.

Brockus therefore was allowed to worship with the congregation of the new church. He says he was not made a regular member, however, and cannot be until his letters in the church have been returned.

Brockus has received several letters from local ministers and church workers of other denominations, who ask him to drop his suit. These persons, after reading in local newspapers for months of the upheaval in the East Avenue church, have become worried at the serious turn of the case. To all of these importunities Brockus has turned a deaf ear. He even failed to regard one in which he was urged to read and study carefully certain passages of Scripture, in which one is taught to bear persecution meekly and without complaint.

CARE OF SHADE TREES.

State Forester Will Furnish Book That Tells Proper Way.

Indianapolis, Ind., Feb. 2.—The state bureau of forestry has just issued bulletin No. 21, which gives directions for pruning shade trees. It says:

"Prune your shade trees, but do not mutilate them. Pruning does not mean cutting off the top of the tree and the ends of branches. It means the removal of dead and defective branches. It means that one of two limbs that cross and rub each other should be cut off. It means that all branches that are removed should be cut off close to the axis of support and the wound treated with an antiseptic dressing. The practice of cutting off the ends of the branches not only destroys the beauty of the tree, but positively shortens its life and invites early decay. If your trees are growing taller than you desire, it is because the trees are too close. Mature trees should not stand closer than 30 feet and if they are planted closer they should be thinned when the ends of the branches begin to touch the tree next to it.

St is rarely a shade tree grows too thick and it is safer to trust to nature to do the thinning than to one who is not an expert in doing this kind of work.

"Th estate board of forestry has iss sued a 37-page bulletin on the prunning and planting of shade trees, which gives full directions with illustrations for the pruning of shade trees. This valuable book may be obtained free by writing to the state forester at Indianapolis."

NEW BRIDGE CONTRACT.

Bids for Erection of One in Adams County.

Decatur, Ind., Feb. 2.—The Adams county board of commissioners will meet Monday for the February term of the board. Bids for the building of five new macadam roads will be opened and contracts let. The most important thing before the board, however, is the receiving of bids and the awarding of a contract for the new bridge to be built over the St. Mary's river at the east end of Monroe street. Eighteen thousand dollars have been appropriated by the county council for this purpose, which sum is thought to be amply sufficient for the purpose. A number of contractors have been in the city looking over the plans and specifications with a view of bidding and the prospects for a number of bids are good. The bridge when completed will be the best in the county and one of which the county and especially the citizens of Decatur and vicinity may feel a justifiable pride.

A $5,000 GIFT.

Logansport, Ind., Feb. 2.—William E. Haney, the richest citizen of Logansport, has given $5,000 to the Sisters of St. Joseph's hospital. The gift was made shortly after the first of the year, but it took until this day to find its way into the news columns. Mr. Haney did all he could to keep the matter quiet. Those who are intimate with Mr. Haney know that he has made many gifts to charity that have never reached the public ear.

A Round-Up

Since the Government authorities have begun to "Round Up" a few of the men who have so long brought odium upon the name of honest labor, I have been urged by some editors to publicly define the reasons for my seven years' newspaper campaign on the tyrannies of many Labor Union Leaders.

Some men endow colleges. Others build libraries.

Both educational.

I prefer to devote to newspapers my contributions toward education, warning the people to protect themselves against the greatest, most tyrannical and dangerous trust this country has ever seen.

Especially insidious and dangerous, because its inner plans were not understood by the average citizen who, seeing no immediate slavery to himself, peacefully followed his own pursuits and blindly allowed the self-seeking Labor Leaders (?) to weave their web stronger as time went on. Not one word in my entire campaign has been uttered against peaceful trade associations.

I have only tried to defend the several million honest and law-abiding workmen who protest against the bullying and abuse of those in power.

No one seemed to sympathize with the few thousand widows and orphans of the men murdered while faithfully trying to earn a living under God's permission but against the "orders" of the "Labor Trust." So I tried to present their cause from time to time.

The healthy average common citizen is perhaps deserving of at least some of the inconvenience and loss put on him from strikes and other labor leaders' tyranny as a reward for his indifference.

I knew years ago that the plan of this big labor trust was to ultimately gain control over every workman, clerk and employe in the U. S., including farm hands and government employes.

This has been partly accomplished in some localities; then followed acts which clearly show the intent.

First, to harvest initiation fees, sometimes up to $100.00 each to "join the union."

Next, monthly dues. Say $2,500.00 a month in a town with 10,000 "members" at 25 cents each.

Next, "fines" assessed for some infraction of "rules."

Then the lash of the slave driver came forth. Orders to strike; what to buy; what not to buy; how to vote; when to parade (to show power); and to contribute from the hard-earned pay envelope for strike benefits to other men forced into idleness pending negotiations between crooked leaders (?) and crooked employers who hire said leaders to call strikes on competitive jobs, thus making the workmen tools, kept idle while the chiefs scrap for control or bribe money.

One of the hardest strokes of the lash is the money forced from members to defend dynamiters, sluggers and murderers when caught.

But let an honest workman, who, perchance, has been driven into "the union," dare to disobey one of these "orders" and he is taught a lesson through the slugging or dynamiting committees.

The slavery of the honest American workingman is pitiable when "closed shop" full control is obtained by the tyrannical leaders.

Now, observe the plan of this gang to govern men and affairs.

"Organize" every trade. Insist on closed shop. Then use the power of numbers to induce government officials to permit organizing all government employes. Some of the oaths defining that the union rules shall "precede Church, State and Family."

Then force Congressmen to pass anti-injunction laws to prevent courts from stopping proposed outrages.

Force merchants to hire only "union" clerks and sell only "label" goods. Use union funds to support slugging and dynamiting crews to drive back the protesting ones or "remove" them.

Of course, in carrying out the plan for complete control by the gang, some were caught.

Whenever openly exposed the men "higher up" immediately begin to assess members to protect the criminals and always rush into print with loud cries and much mock sentiment about "the brotherhood of man" and the "defense of the wage worker," with such play upon the sympathy of the people they cover their own greed for fees and insane desire to read their names in the papers.

It would be hard to convince the widows of the twenty-one murdered men in the Los Angeles tragedy, and hundreds of others, that their husbands received much benefit from "the defense of the wage worker," nor could they well understand such working of that particular brand of the brotherhood of man" scheme.

Late events have stripped the lamb's coat from the body of the wolf and shown most clearly the lying deceit and horrible portent underneath, which I have tried time and again to explain to the public.

Men who preferred to work and support their families have been waylaid. Fingers chopped off, with the comforting assurance that "now you can set type if you will." Crow bars and heavy weights dropped on heads. Fathers beaten unconscious and many times crippled for life; little homes blown up and many and many a corpse brought to the destitute family.

These are not "occasional cases." Such crimes run literally into the thousands, and judges and juries have been threatened with death, bribed, and witnesses slugged or put out of the way.

In the Government cases now pending the witnesses must be guarded from the agents of the "Labor Trust" with its tentacles reaching to the most remote corners of our country.

Don't permit yourself to be misled by the vaporings of sentimental drolling degenerates who assert that these murders are justified because "society" has oppressed workingmen.

In no other country in the world are they paid as high, and as much earnest effort devoted to their welfare. Nor is there as abundant opportunity in any other country in the world for workmen to gain fortunes.

Our great railroads and industries are largely headed by former wage earners.

These murders are instigated by that class of men, always in evidence, who hate success. They coolly and cruelly plan and execut assaults and murders to satisfy their own hate and show their power over the slaves who dare protest. The nightly talk of strikes, given in many a union meeting, develops the hate and murderous instinct which waits only for opportunity to carry out.

Take the Los Angeles case as an illustration. The Times had withstood about 16 years of all kinds of attacks, not because its faithful employes were underpaid. They received wages higher than the union scale, but they refused to bow down and place themselves under control of "the gang," hence they were persistently assailed and finally 21 were murdered. These men only asked to be let alone to support their families, but union leaders determined to rule over them, hence the murders.

The whole set-up of the leaders of the great "Labor Trust," the American Federation of Labor, points toward a diabolically adroit plan to secure to those leaders complete control over their own members who dare not protest, and also over all other workmen, legislators, congressmen, merchants and the balance of citizens.

Think it over and you will see in part what the tyranny would be if they were permitted to completely carry out their plans.

Now that the facts are known the people can protect themselves by refusing to do any act that would add power to this aggregation.

Remember, any act.

When their grip on the throat of honest labor is broken, working men can either select better leaders, or join some of the law-abiding trade organizations.

I was not driven to write this series of articles by reason of disagreements with my own thousand workmen. No troubles have arisen between us.

They have had fifty-two weeks a year steady work for many years, are a contented, high-grade class receiving the best wages in Michigan for like service, and protected from the frequent onslaughts of these "Labor Leaders" (?).

Mr. Gompers has repeatedly announced in public that I sought to destroy all organizations of labor.

This is in line with his regular habit of distorting facts. I have for a long time been a member of the National Association of Stationary Engineers and the National Trades and Workers Association. These are non-strike and peaceful organizations which negotiate their trade agreements legally, with peace and honor.

I have given to the Trades and Workers Association a $400,000.00 home for their old members in furtherance of an honest desire to help solve this most important industrial question.

In addition, I have offered to contribute a quarter of a million dollars cash to help along a workingman's movement, as defined in a letter sent Mr. Gompers Dec. 11th, 1911. Copy herewith:

December 11th, 1911.

Mr. Samuel Gompers, Pres., American Federation of Labor,
Washington, D. C.

Dear Sir:—

Press reports indicate that you are greatly depressed and harassed by fear and the disrepute brought on your Federation.

The query has arisen whether you are big enough to sense the movement of a great Power which guides humanity, and to conclude that the time has arrived when "Labor" should be honestly represented instead of misrepresented.

If the thought of truthful and earnest effort has come, and you honestly desire better conditions for the wage earners, may I tender to you an invitation to come out to Battle Creek for a conference with the President of the Trades and Workers Association, Mr. J. W. Bryce?

If you will permit it, your expenses will be paid from the time you leave Washington until you return.

You will be put up at the Sanitarium for a week or ten days' rest and freedom from worry, as a guest, either of the Association or of myself, as you prefer.

When rested, let us consider the new movement for the workingmen of America, enlisted under the banner of the National Trades and Workers Association, free from strikes, slugging, picketing, tyranny, fines, dynamiting and murder.

Belonging to the American Federation of Labor are hundreds of thousands of self-respecting and law-abiding workingmen who are members under pressure, and who deplore the tactics you and your associates have employed and forced upon them.

They want steady employment fifty-two weeks in the year and do not relish being forced by strikes into idleness pending the "negotiations" between crooked labor leaders seeking bribes, and crooked employers who hire said leaders to call strikes on competitive jobs, thus making the workingmen tools, kept idle while the chiefs scrap for control or bribe money.

You will perhaps reject this proposal, believing that strikes are a necessary weapon to preserve the rights of workingmen. But the new way has been in very successful operation over two years and found to have more power than the old way.

The honorable Brotherhood of Locomotive Engineers, The National Association of Stationary Engineers and the National Trades and Workers Association perfect trade agreements without strikes, secure the highest wages and yet preserve the respect and esteem of employers and of the members themselves.

Workingmen are aroused to resentment from being forced to contribute from their hard earned pay envelopes to defend known sluggers and murderers, and to being heavily fined for not obeying the orders of leaders when they know those leaders are simply using them to insure complete dominion over the daily lives of the American workingman.

He seeks to maintain his position as an honest, peaceful citizen and not to be forced to affiliate with and support thugs and murderers.

Personally, I have only sincere and open denunciation for the past methods of you and your associates. Nevertheless, if you are ready to join in an earnest and truthful step forward for your members and will accept this invitation in the spirit in which it is given, you will be most welcome, and will be treated with the greatest consideration we are capable of, and in addition I will agree to contribute a quarter of a million dollars in cash to the new movement.

The Trades and Workers now have a splendid $400,000.00 home to care for their indigent members, and with the addition of the members of the American Federation of Labor and its endowment we can merit the support of the public, all working for the new day of peace with honor in the industrial field.

Yours very truly,
C. W. POST.

No reply has been received. It seems evident the present Leaders will not accept any offer of industrial peace which takes from them the fees, control of workmen, and curbs their trust methods.

When any combination either of Capital or Labor goes outside its own business and attempts to oppress, tyrannize, or forcibly dictate to others and thereby "restrains trade" it becomes dangerous and should be prosecuted.

Talk about restraint of trade!

All the capital trusts in this country couldn't bring about a minus fraction of the loss, inconvenience, misery and crime set in motion by strike conspirators.

The time has come when every home-owning patriotic citizen should speak in most unmistakable terms, if liberty is to be preserved.

Write President Taft asking when he will apply the law to the Labor Trust as well as the Capital Trusts.

Then write your members of Congress, telling them clearly that you will expect them to protect yourself and other common, everyday citizens by voting down the bills these Labor Trust leaders are pressing to give them more control.

One is a bill to prevent courts from issuing restraining orders to stop proposed acts of violence in strikes. Another is to allow labor leaders to restrain trade without being subject to the law.

You are one of a tremendous majority but you must tell your public officials your needs. Then they can act in your defense.

Then question candidates and don't accept any equivocal answers.

Insist that trade organizations can be peacefully conducted and that no laws be enacted giving leaders abitrary control over the masses.

A few of the facts are now known and have been proven true. Many more will follow as the government investigation proceeds. Will you be patriotic and painstaking enough to write, talk and vote for your own safety?

My work in the way of public and expensive paid announcements on this subject is done.

There's a Reason,
C. W. POST.

Victor-Victrola IV

We want every home in Fort Wayne to contain a Victrola. The most wonderful, entertaining and educational musical instrument the world has ever known. This is our opinion of

Victor IV at $15.00

We want your opinion of the little wonder. We want you to see it, to hear it, NOW. During our special 10-day Sale, if you agree with us, you'll want one and you can secure it now by paying us

$1.00 Cash and $1.00 Per Month

If you put it off you'll miss this unusual offer and continue to deprive yourself and family of the greatest entertainment in existence.

CITY CONTROLLER, FORT WAYNE, Indiana, Jan. 15, 1912.

I hereby give notice that the foregoing described tracts of land, with municipal assessment due from the owner, thereof at the time of the sale, will be sold at public auction by the Treasurer of said County of Allen, on the second Tuesday of February, 1912 (the second Monday of said month being a legal holiday), unless said municipal assessments, interest and charges be paid prior to that time.

Sale to commence at 10 o'clock a. m., and to continue from day to day until all are sold or offered for sale.

Purchasers will be required to make payments on the day of purchase or the property will be immediately reoffered for sale.

W. S. CUTSHALL,
City Controller.

GOT CONFESSION IN DICTAGRAPH

Detective Bailey Tells How He Trapped a Witness.

HE WAS LORIMER TOOL

Washington, Feb. 2.—How the dictagraph was used to procure an alleged admission from Charles McGowan, the Hines-Lorimer witness, that he "perjured" himself when he swore he did not hear C. F. Wiehe tell of a Lorimer election fund, was explained to he senate Lorimer committee yesterday by Detective A. C. Bailey, a Burns' operative. Bailey took th estand after the fiery cross examination of Detective William J. Burns. For nearly two hours Bailey read from "notes" made from day to day of remarks McGowan was alleged to have made to Bailey, posing as a claims adjuster of the American Bridge company. These remarks were alleged to have been made principally on a hunting trip in Canada. On one occasion the detective said McGowan told him he had written to Wiehe that he "had to come across." He said McGowan told him he only asked for $5,000.

"You should have made it ten," I told him, Bailey swore.

"It certainly is worth $5,000 to perjure one's self," McGowaan was quoted as replying.

Later McGowan was credited with saying that he would fix the "whole Hines bunch if they did not come across."

Pile of Money; Took $5.

In another day specifically designed, Bailey said McGowan remarked that where he made a mistake was when he made an affidavit for Shields. The name of R. J. Shields had just been used.

"Shields had a pile of money on the table before him when O signed the affidavit," McGowan was quoted as saying. "Shields said 'I do not want to give you money for making this affidavit, but we want to do the fair thing with you; the Hines people have lots of money.' I only took a $5 bill. I was too green or I would have taken it all; that is what it was there for."

The detective told of going with McGowan to Chicago and of McGowan's alleged attempts to get money from Wiehe. One night McGowan was credited with saying he spent as a guest at Hines' residence.

"When Mrs. Hines saw her husband and me coming into the house she fainted," Bailey claimed McGowan reported. Bailey added McGowan said Hines told him he would be compensated by Wiehe.

"It was the sorriest day for me when I met Mr. Lorimer," Hines was alleged to have been quoted as saying.

On October 28 Bailey said McGowan left a note for him that everything was "O. K." and that he had left for home.

Talked to Dictagraph.

It was here that Bailey's services were discontinued by the committee only to be resumed by the Chicago Tribune in December.

In again getting in touch with McGowan, Bailey said he wrote the "subject" a letter, telling of his presence in Detroit and his intentio nto visit Toronto.

The dictagraph was placed in a hotel room prepared for McGowan.

"At Columbus, O., I worked it under a sofa," explained Bailey. "Here we put the disks on a table with a cover over it. Mr. McGowan will probably recall there was a cover on the table."

McGowan remained silent.

In the presence of H. E. Kerr, a "brass expert" of Detroit, Mich., and with Jimmy Sheridan on the dictagraph in an adjoining room, Bailey swore McGowan said he got $1,500 from Wiehe the day he left Chicago.

Bailey quoted McGowan as saying that Wiehe wanted to give bim only two or three hundred dollars, but McGowan told him he deserved more than his expenses for having perjured himself.

COTTON'S ADVANCE CONTINUES.

Staple Resumes Bulge on the New Orleans Exchange.

New Orleans, La., Feb. 2.—Cotton's advance in price was resumed this morning. Both bulls and bears bought heavily in the early trading and in half an hour's time had forced an advance of 22 to 26 points, or a quarter cent a pound. This is $2 a bale above Wednesday's closing.

The advance was caused by a higher Liverpool market than expected, coupled with a good demand for spots and a continued good inquiry at southern points.

With roads in good condition better weather means a great increase in the marketing value of the cotton still held on farms and at ginneries.

THE HOBOES' CONVENTION.

Cincinnati, O., Feb. 2.—More delegates having arrived during the night the attendance at the second day's session of the Unskilled Migratory and Casual Workers' association or "Hobo" convention, was larger than yesterday. The police are keeping a close watch on the movements, but so far they have been very orderly. Among the subjects on the program for discussion today were "New Avenues of Employment" and "Transportation to the Job." Joseph Fels, the single tax advocate, was expected to talk on "Colonization."

The woman suffragists of Dusseldorf now insist on compulsory military service for women as well as for men.

Hassenpfeffer dinner, Saturday, 11 to 2 p. m.—25c, at the Hof Brau.

TRAIN DERAILED; MAN HURT.

St. Louis, Mo., Feb. 2.—Vandalia train No. 13, known as the St. Louis Special, which was due here at 8:30 o'clock this morning was derailed near St. Jacob, Ill., this morning. Brief reports to the Vandalia headquarters state Engineer Hickman was injured. A broken rail caused the derailment. One of the double-header engines went off the track and the other turned over.

Mid-Winter term at the International Business College commences Monday, Feb. 5. New classes will be formed in all departments at this time. 1-3t

MADE HIM BARE HIS TEETH.

Alleged Dynamiter at Los Angeles Gives Queer Testimony.

Los Angeles, Cal., Feb. 2.—Bert H. Conners, outrial here for conspiracy to dynamite the hall of records building, was led down in front of the jury box yesterday with the hand of Deputy District Attorney G. Ray Horton pulling his lips away from his teeth, as the teeth of a horse are bared before a sale.

In concluding his argument Horton declared dents on fulminating caps introduced as evidence, were the imprints of Conners' teeth, showing where he had clinched the caps to fuses attached in turn to the sticks of dynamite found near the building. As Horton spoke Conners was seen to close his lips firmly.

"Look at him! Look at him!" cried the prosecutor. "He does not dare open his mouth; he does not dare show his teeth."

Conners' attorney, Lecompte Davis, pulled him from his chair and stood him up before the jury box.

Horton grasped the prisoner's jaw, pulling the lower lip away from the teeth, calling attention to the fact that Conners' teeth are far apart.

When he had finished and released the prisoner he passed the fulminating caps into the jury box, declaring they bore the marks of the teeth the jurors had just seen.

PRIZE WALTZ AT THE ODEON SATURDAY. 2-2t

TRANSFERS OF REAL ESTATE

Compiled by J. C. Heller, Abstractor, 725 Court Street.

Fred Lambert to De Etta Young, east ½ south ½ lot 471, Hamilton's fourth addition, for $2,600.

William J. Rodenbeck et al. to Arthur E. Rodenbeck, west 30 feet lot 11, and east 9 feet lot 10, McCulloch's fourth addition, for $2,600.

Arthur E. Rodenbeck to William J. and Bessie Rodenbeck, lot 12 and east 20 feet lot 11, McCulloch's fourth addition, for $3,700.

COUNTRY.

Adam Bruick to William J. and Serena Shanebrook, part west ¼ southwest south of canal, section 23, and west ½ northwest ¼, section 26, Milan township, for $10,488.

CALLS EXTRA SESSION.

Philippine Assembly Adjourns With Too Much Undone.

Manila, Feb. 2.—After a stormy all night meeting the legislative assembly took final adjournment at 6 o'clock this morning, thus closing this session of the legislature. Because of squabbles between the houses over questions of privilege only about seventy bills have been passed by the assembly and many important measures are still outstanding. Governor General Forbes immediately called an extra five days' session to settle outstanding measures. A repetition of last year's deadlock over the appropriation bills seems likely.

LIVED HERE IN EARLY DAY.

Frederick C. Sanders Passes Away at Indianapolis.

Frederick C. Sanders, a brother of William Sanders, of this city, died Wednesday night at his home in Indianapolis at the age of 80 years. Mr. Sanders came from Cincinnati to Fort Wayne in 1850, was employed about the home of a banker here for $5 a month and later became a driver on the Wabash and Erie canal before removing to Indianapolis.

WATERWAY ADVOCATE DIES.

Daytona, Fla., Feb. 2.—George H. Munroe, of Joliet, Ill., treasurer of the Lakes to the Gulf Deep Waterways association, former Illinois state senator and one of the largest orange growers in Florida, dropped dead last night in the bath room of his winter home here. Apoplexy is given as the cause.

Nose Stopped Up With Catarrh

A Common Sense Treatment for Colds and Catarrh—Gives Instant Relief.

No matter how miserable you are with catarrh or a cold in the head, nose stopped up, throat sore, eyes running, dull pain in the head, dry cough, fever, foul breath, Ely's Cream Balm will give you instant relief.

It gets right at the root of the trouble, cleanses, heals and strengthens the raw, sore membranes, stops the nasty discharge so that you are not constantly blowing the nose and spitting. In a few minutes after applied you can just feel it doing its work of clearing the head, the pain and soreness are relieved, the breathing becomes natural and the stuffed up feeling is gone. This cleansing, healing antiseptic Balm contains no mercury, cocaine or other harmful drugs. It is easy to apply, pleasant to use, and never fails to give relief, even in the worst cases.

Never neglect a cold, and don't suffer the miseries of catarrh nor disgust your friends with your hawking, spitting and foul breath. Get a 50 cent bottle of Ely's Cream Balm from your druggist, and start the treatment at once. You will find that it will be the best investment you ever made.

BOARD PAID FOR THE SANDWICHES

Annual Report Shows That Bill Was Paid Out of the Funds.

ACCOUNT IS MADE

Among the items charged in the annual report of the financial operations of the Fort Wayne fire department is $15.05 for coffee and sandwiches at the Mayflower mills fire. This bill was presented and for a long time nobody knew just who had given the order to the Wayne hotel under which the refreshments were served but it eventually came to light and the bill was paid.

It is also shown by the report that $52.60 was returned to the general fund at the close of 1911, that amount having been left over after the payment of all salaries during the year. The January appropriation was $71,640 and $1,006 was added in November, making a total of $72,746.

Of the fire force account appropriation from which the incidentals of the department were paid $3.75 was left over and that Controller Cutshall is right in his assertion that the city can maintain auto apparatus cheaper than horses can be kept is shown by the fact that $4,687.70 was expended for feed alone.

This marks a heavy advance in the price of hay, corn and oats. To this can be added $1,059.75 for horse shoeing, $253.09 for harness, $439.40 for sawdust, $650 for horses and $183.98 for bedding. Hose cost the department $2,825 and fuel cost $1,626.81. The total amount set aside for incidentals was $15,710. Of the incidentals expenditure $610.84 is charged to each of the engine houses.

The fire apparatus is invoiced at $43,159 and the No. 3 house has the most valuable with $13,055 to its account. Central station has $11,305 worth of fire fighting implements. Horses in the department are valued at $10,830, hose at $10,220 and the miscellaneous supplies are held at $7,390.30. Property in the line department is valued at $24,143.25, making a total of $102,375.60, representing the city's holdings in this department of its government.

Total appropriations for salaries, upkeep of the department and incidentals during last year were $88,456. A new item in the annual report is an exhaustive account of the precautionary measures taken by the inspection of buildings and other methods employed to lessen the probable loss of life.

Forty-eight buildings, including all of the big establishments where great numbers of people are employed, were thoroughly inspected and twenty-five fire escapes were ordered and erected. A number of changes were ordered in the construction of and location of doors, hallways and doors were ordered to give access to the escape, red lights were ordered to be put in, and in one instance manufacturers were ordered to make more space between their machines.

Only nine of the forty-eight buildings was found properly equipped and passed by the inspectors. The report of fire losses has not been completed by Chief Hilbrecht.

Police Alarm System.

In his report on the police alarm system Chief Electrician Robert J. Gaskill reported all outside construction in good working order and all boxes inspected and tested. He charges most of the trouble of the year to defective material used in construction.

There are forty boxes in the system operated on four circuits and the table of troubles shows that 124 cases were taken care of during the year. His inventory of the property included in the system is $5,000.

Danderine

Stops Falling Hair and Destroys Dandruff

Makes the Hair Grow, Long, Heavy and Luxuriant and We Can Quickly Prove It

If You Wish to Double the Beauty of Your Hair at Once, Just Get a 25 Cent Bottle and Try This

Surely try a Danderine Hair Cleanse if you wish to immediately double the beauty of your hair with little trouble and at a cost not worth mentioning—just moisten a cloth with a little Danderine and draw it carefully through your hair, taking one small strand at a time, this will cleanse the hair of dust, dirt or any excessive oil—In a few moments you will be amazed. Your hair will be wavy, fluffy and abundant and possess an incomparable softness, lustre and luxuriance, the beauty and shimmer of true hair health.

Besides beautifying the hair, one application of Danderine dissolves every particle of Dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

Danderine is to the hair what fresh showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them. It's exhilarating, stimulating and life-producing properties cause the hair to grow abundantly long, strong and beautiful. It at once imparts a sparkling brilliancy and velvety softness to the hair, and a few weeks' use will cause new hair to sprout all over the scalp. Use it every day for a short time, after which two or three times a week will be sufficient to complete whatever growth you desire.

You can surely have pretty, soft, lustrous hair, and lots of it, if you will just get a 25 cent bottle of Knowlton's Danderine from any drug store or toilet counter and try it as directed.

AT THE MAJESTIC.

IT IS ONE LONG LAUGH.

"Baby Mine" Coming to the Majestic Theater Saturday, Matinee and Night.

"Baby Mine," that rollicking comedy which comes to the Majestic theater Saturday, matinee and night, is proving to be as big a gold mine for William A. Brady, limited, as did "Way Down East." The play proved so popular at Daly's theater, New York city, that its run was lengthened out to a solid year's engagement. The story of "Baby Mine" is the story of one long laugh. A young Chicago business man learns that his wife has been lying to him about certain luncheon engagements, and being of an extremely jealous disposition, he leaves her, going to another city. A sympathetic friend hurries to the aid of the deserted wife and, having read an item in a Chicago newspaper to the effect that over three thousand Chicago men were fondling babies belonging to other people in the fond belief that they were their own, she persuades the unhappy wife to adopt a baby and palm it off on the husband as his own offspring. The plan proves successful and the young husband, having been notified, starts for home filled with joy. Just at this time, however, a rapid fire series of complicating difficulties occur which last until the finish of the play, literally keeping the audience in spams of laughter. Several of the most prominent critics in the country assert that "Baby Mine" is positively the funniest play ever written, and it will be produced here with the same attention as characterized its lengthy stay in the metropolis. "Baby Mine" is now running at the Criterion theater in London. This is its second year in the British metropolis, and before the end of this season it will be seen in Paris, Vienna, Berlin, St. Petersburg, Madrid, Australia, South Africa and South America. The Japanese rights have also been disposed of.

* * *

"School Days" Coming.

With a chorus that is lively and clever, large groups of principals and plenty of winning songs, "School Days" will come to the Majestic week after next. Herman Timberg is retained this season, with most of last year's cast. Many new songs are introduced.

AT THE LYRIC.

The Lyric is showing two great pictures today and night—a Bison; "The Empty Water Keg," a powerful dramatic story of the great American desert. The other two are Majestic comedies and you know that means real laughs. Saturday a Reliance feature is "The Man Under the Bed." This is one of the strongest productions turned out by the Reliance people. The other picture will be the usual Imp comedy. In a few days the ever popular Marion Leonard will again become a regular visitor at the Lyric and the photo-play will be "Under Her Wing."

Mid-Winter term at the International Business College commences Monday, Feb. 5. New classes will be formed in all departments at this time. 1-3t

QUININE DOES'T CURE BAD COLDS

Tells How to Break a Severe Cold and Grippe in a Few Hours.

You will distinctly feel your cold breaking and all the Grippe symptoms leaving after taking the very first dose.

It is a postive fact that Pape's Cold Compound, taken every two hours, until three consecutive doses are taken, will end the Grippe and break up the most severe cold, either in the head, chest, back, stomach or limbs.

It promptly relieves the most miserable headache, dullness, head and nose stuffed up, feverishness, sneezing, sore throat, running of the nose, mucous catarrhal discharges, soreness, stiffness and rheumatic twinges.

Pape's Cold Compound is the result of three years' research at a cost of more than fifty thousand dollars and contains no quinine, which we have conclusively demonstrated is not effective in the treatment of colds or grippe.

Take this harmless compound as directed, with the knowledge that there is no other medicine, made anywhere else in the world, which will cure your cold or end grippe misery as promptly and without any other assistance or bad after-effects as a 25-cent package of Pape's Cold Compound, which any druggist in the world can supply. adv

Last year in the Philippines more than a half million boys and girls were brought under the influence of American educational institutions, and the Philippine government spent over $3,025,000 of local revenue for education. There are at present employed as supervisors and classroom teachers over 9,000 American and native instructors.

AND YOU SOAKED ME $2.00 FOR MINE!
WHILE THEY LAST 98
AW DAMON! CAN'T YOU TAKE A JOKE!

PRESIDENT ASKS LAWS FOR ALASKA

(Continued from Page 3.)

more than fifty years. A failure of the state to make and enforce such leases would enable the government by an action of forfeiture to recover the power sites and all plants that might be erected theron, and this power of penalizing those who succeed to the control would furnish a motive to compel the observance of the policy of the government.

The secretary of the interior has suggested another method by which the water power site shall be leased directly by the government to those who exercise a public franchise under provisions imposing a rental for the water power to create a fund to be expended by the general government for the improvement of the stream and the benefit of the local community where the power site is, and permitting the state to regulate the rates at which the converted power is sold. The latter method suggested by the secretary is a more direct method for federal control, and in view of the probable union and systematic organization and welding together of the power derived from water within a radius of three or four hundred miles, I think it better that the power of control should remain in the national government than that it should be turned over to the states. Under such a system the federal government would have such direct supervision of the whole matter that any honest administration could easily prevent the abuses which a monopoly of absolute ownership in private persons or companies would make possible.

Bureau of National Parks.

I earnestly recommend the establishment of a bureau of national parks. Such legislation is essential to the proper management of those wondrous manifestations of nature, so startling and so beautiful that every one recognizes the obligations of the government to preserve them for the edification and recreation of the people. The Yellowstone park, the Yosemite, the Grand canyon of the Colorado, the Glacier National park, and the Mount Rainier National park and others furnish appropriate instances. In only one case have we made anything like adequate preparation for the use of a park by the public. That case is the Yellowstone National park. Every consideration of patriotism and the love of nature and of beauty and of art requires us to expend money enough to bring all these natural wonders within easy reach of our people. The first step in that direction is the establishment of a responsible bureau which shall take upon itself the burden of supervising the parks and of making recommendations as to the best method of improving their accessibility and usefulness.

International Commission on the Cost of Living.

There has been a strong movement among economists, business men and others interested in economic investigation to secure the appointment of an international commission to look into the cause for the high prices of the necessities of life. There is no doubt but that a commission could be appointed of such unprejudiced and impartial persons, experts in investigation of economic facts, that a great deal of very valuable light could be shed upon the reasons for the high prices that have so distressed the people of the world, and information given upon which action might be taken to reduce the cost of living. The very satisfactory report of the railway stock and bonds commission indicates how useful a investigation of this kind can be when undertaken by men who have had adequate experience in economic inquiries and a level-headness and judgment correctly to apply sound principles to the facts found.

For some years past the high and steadily increasing cost of living has been a matter of such grave public concern that I deem it of great public interest that an international conference be proposed at this time for the purpose of preparing plans, to be submitted to the various governments, for an international inquiry into the high cost of living, its extent, causes, effects, and possible remedies. I therefore recommend that, to enable the president to invite foreign governments to such a conference, to be held at Washington or elsewhere, the congress provide an appropriation, not to exceed $20,000, to defray the expenses of preparation and of participation by the United States.

The numerous investigations on the subject, official or other, already made in various countries (such as Austria, Belgium, Canada, Denmark, France, Germany, Great Britain, Italy, the Netherlands, and the United States) have themselves strongly demonstrated the need of further study of world-wide scope. Those who have conducted these investigations have found that the phenomenon of rising prices is almost if not quite general throughout the world; but they are baffled in the attempt to trace the causes by the impossibility of making any accurate international comparisons. This is because, in spite of the number of investigations already made, we are still without adequate data and because as yet no two countries estimate their price levels on the same basis or by the same methods.

As already indicated, the preliminary conference itself would entail a comparatively small expense, and most of the subsequent investigations for which it would prepare the way could be carried out by existing bureaus in this and other governments as part of their regular work and would require little, if any, additional appropriations for such bureaus.

Commission on Industrial Relations.

The extraordinary growth of industry in the past two decades and its revolutionary changes have raised new and vital questions as to the relations between employers and wage earners which have become matters of pressing public concern. These questions have been somewhat obscured by the profound changes in the relations between competing producers and producers as a class and consumers—in other words, by the changes which, among other results, have given rise to what is commonly called the trust problem. The large-scale production characteristic of modern industry, however, involves the one set of relations no less than the other. Any interruption to the normal and peaceful relations between employer and wage-earner involves public discomfort and in many cases public disaster. Such interruptions become, therefore, quite as much a matter of public concern as restraint of trade or monopoly.

Industrial relations concern the public for a double reason. We are directly interested in the maintenance of peaceful and stable industrial conditions for the sake of our own comfort and well-being; but society is equally interested, in its sovereign civic capacity, in seeing that our institutions are effectively maintaining justice and fair dealing between any classes of citizens whose economic interests may seem to clash. Railway strikes on such a scale as has recently been witnessed in France and in England, a strike of coal mine workers such as we have more than once witnessed in this country, and such a wholesale relinquishing of a public service as that of the street cleaners recently in New York, illustrate the serious danger to public well-being and the inadequacy of the existing social machinery either to prevent such occurrences or to adjust them on any equitable and permanent basis after they have arisen.

In spite of the frequency with which we are exposed to these dangers and in spite of the absence of provision for dealing with them, we continue to assume with easy-going confidence that in each new case, somehow or other, the parties to the dispute will find some solution which will be agreeable to themselves and consistent with the public interest. We all see the grave objections to strikes and lockouts, however necessary they may be in extreme cases; and we are ready to criticize the more extreme phases of the industrial conflict such as boycotts and blacklists; but we leave the situation such that industrial disputes lead inevitably to a state of industrial war in which these are the only weapons left to the two combatants. No more clumsy or expensive method of determining the rate of wages and the hours and conditions of labor could well be devised. The successful operation of the Erdman act as between interstate railroads and their employes shows how much good can be done by proper legislation.

At the moment when the discomforts and dangers incident to industrial strife are actually felt by the public there is usually an outcry for the establishment of some tribunal for the immediate settlement of the particular dispute. But what is needed is some system, devised by patient and deliberate study in advance, that will meet these constantly occurring and clearly foreseeable emergencies—not a makeshift to tide over an existing crisis. Not during the rainstorm but in fair weather should the leaking roof be examined and repaired.

The magnitude and complexity of modern industrial disputes have put upon some of our statutes and our present mechanism for adjusting such differences—where we can be said to have any mechanism at all—a strain they were never intended to bear and for which they are unsuited. What is urgently needed today is a re-examination of our laws bearing upon the relations of employer and employe and a careful and discriminating scrutiny of the various plans which are being tried in several of our own states and in other countries. This would seem to be the first natural steep in bringing about an adjustment of these relations better suited to the newer conditions of industry.

Numerous special investigations, official and unofficial, have revealed conditions in more than one industry which have immediately been recognized on all sides as entirely out of harmony with accepted American standards. It is probable that to a great extent the remedies for these conditions so far as the remedies involve legislation, lie in the field of state action; but such a comprehensive inquiry as is necessary to furnish a basis for intelligent action must be undertaken on national initiative and must be nation-wide in its scope. In view of the results that have followed the activities of the federal government in education, in agriculture, and in other fields which do not lie primarily within the field of federal legislation, there can be no serious argument against the propriety or the wisdom of an inquiry by the federal government into the general conditions of labor in the United States, notwithstanding the fact that some of the remedies will lie with the separate states, or even entirely outside the sphere of governmental activity, in the hands of private individuals and of voluntary agencies. One legitimate object of such an official investigation and report is to enlighten and inform public opinion, which of itself will often induce or compel the reform of unjust conditions or the abatement of unreasonable demands.

The special investigations that have been made of recent industrial conditions, whether private or official, have been fragmentary, incomplete, and at best only partially representative or typical. Their lessons, nevertheless, are important, and until something comprehensive and adequate is available they serve a useful purpose, and they will necessarily continue to be made. But unquestionably the time is now ripe for a searching inquiry into the subject of industrial relations which shall be official, authoritative, balanced, and well rounded, such as only the federal government can successfully undertake. The present widespread interest in the subject makes this an opportune time for an investigation, which in any event can not long be postponed. It should be non-partisan, comprehensive, thorough, patient, and courageous.

There is already available much information on certain aspects of the subject in the reports of the federal and state bureaus of labor and in other official and unofficial publications. One essential part of the proposed inquiry would naturally be to assemble, digest, and interpret this information so far as it bears upon our present industrial conditions. In addition to this the commission should inquire into the general conditions of labor in our principal industries into the existing relations between employers and employes in those industries, into the various methods which have been tried for maintaining motually satisfactory relations between employes and employers and for avoiding or adjusting trade disputes, and into the scope, methods and resources of federal and state bureaus of labor and the methods by which they might more adequately meet the responsibilities which, through the work of the commission above recommended, would be more clearly brought to light and defined.

Misbranding Imported Goods.

My attention has been called to the injustice which is done in this country by the sale of articles in the trade purporting to be made in Ireland, when they are not so made, and it is suggested that the justice of the enactment of a law which, so far as the jurisdiction of the federal government can go, would prevent a continuance of this misrepresentation to the public and fraud upon those who are entitled to use the statement in the sale of their goods. I think it to be greatly in the interest of fair dealing, which ought always to be encouraged by law, for congress to enact a law making it a misdemeanor, punishable by fine or imprisonment, to use the mails or to put into interstate commerce any articles of merchandise which bear upon their face a statement that they have been manufactured in some particular country when the fact is otherwise.

Building for Public Archives.

I can not close this message without inviting the attention of congress again to the necessity for the erection of a building to contain the public archives. The unsatisfactory distribution of records, the lack of any proper index or guide to their contents, is well known to those familiar with the needs of the government in this capital. The land has been purchased and nothing remains now but the erection of a proper building. I transmit a letter written by Prof. J. Franklin Jameson, director of the department of historical research of the Carnegie Institution of Washington, in which he speaks upon this subject as a member of a committee appointed by the executive council of the American Historical association to bring the matter to the attention of the president and congress.

WM. H. TAFT.

The White House, Feb. 2, 1912.

SEQUEL OF AN ELOPEMENT.

New Orleans, Feb. 2.—Several revolver shots fired in the crowded corridor of the local postoffice yesterday afternoon by J. H. McAdoo, of Shreveport, La., marked a chapter in the story of the elopement several weeks ago of Mrs. McAdoo, 20 years old, with John J. Daly, 37 years of age, a hotel man of St. Louis and Shreveport. Daly was shot in the leg. According to the police McAdoo said he had traced his wife and Daly to several cities in Texas. Upon seeing them together yesterday, McAdoo says he lost control of himself and began firing. Mrs. McAdoo rushed between the men, but was uninjured. All were arrested.

Chicken Dinner, Saturday, 11 to 2—25c, at the Hof Brau.

WILL FIGHT THIS EVENING.

Los Angeles, Feb. 2.—Johnny Coulon, of Chicago, and Frankie Conley, of Kenosha, Wis., will fight twenty rounds at the Vernon arena tomorrow afternoon for the bantamweight championship. The stipulated weight is 116 pounds, and while Conley will weigh in at that figure, Coulon will be about five pounds lighter.

FOR SALE—House and lot No. 444 W. DeWald St., must be sold at once to close up estate. This is a bargain. For particulars call at law office of Underwood & Geake, Physicians' Defense Bldg. (Phone 158), or phone 7190 Blue. 1-3t

HORSES PLUNGE INTO A WINDOW

Runaway Team Causes Near Panic in Randall Hotel Lobby.

WERE CUT BY GLASS

Dashing down West Columbia street at 9:30 o'clock this morning a team of runaway horses owned by B. F. Runyan, of Eel River township, crashed through one of the big glass windows of the Randall hotel lobby and caused a near panic among guests who were seated about the place.

The team took fright in front of the Mayflower mills, where they had been standing while the owner was having some wheat weighed and they tore westward at a frightful speed. Apparently unable to turn as Harrison street was reached, the team darted up on the sidewalk in front of the Randall hotel and into the glass front of the lobby, shattering one of the big plate glass sections and smashing in a storm door at the entrance.

The impact was terrific and there was much excitement about the hotel for a time, guests who had been seated near the window scattering to places of safety as the shattered glass fell about them. One of the horses was badly cut about the nose and the forelegs by the broken glass.

Auto Strikes Street Car.

An electric auto driven by Miss Centlivre, of Spy Run avenue, who was accompanied by three other young people, did not respond to Miss Centlivre's attempt to stop the machine and crashed into a Huffman street car at Berry and Calhoun streets shortly after 11 o'clock this morning. The glass in the auto was smashed and the mechanism somewhat damaged. The street car was in charge of Motorman Eastman and Conductor Engle. Nobody was injured.

Hassenpfeffer dinner, Saturday, 11 to 2 p. m.—25c, at the Hof Brau.

FUNERAL SERVICE WRITTEN OUT.

Marion, Ind., Feb. 2.—A typewritten stenographic report of the funeral of Clarkson Willcuts, a merchant, shot by a highwayman, today was presented to the murdered man's son, Calvin Willcuts, who is deaf. Grief stricken because he could not hear a word, the son sat through the ceremony, but unknown to him, for his consolation, a stenographer in an adjoining room copied prayers, hymn texts and sermon. Cecil Fordyce, charged with the murder, is said to have confessed to the police.

Harmless Way to Darken the Hair

A Little Sage and Sulphur Makes Gray Hair Vanish—A Remedy for All Hair Troubles.

Who does not now the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur is a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is *loosing* its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a fifty cents bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions, and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented.

DIES OF NERVOUS SHOCK.

Indianapolis, Feb. 2.—Miss Louise Robinson, 79, died from the effects of a nervous shock yesterday when informed that her home was afire. Mrs. M. S. Sherfey, a sister, who was lying ill in bed heard the flames crackling over head. Mrs. Sherfey went down stairs to inform her sister, but the latter collapsed and died before she could be removed.

FOUND DEAD IN HOTEL ROOM.

Indianapolis, Feb. 2.—A. W. Suaret, 28, of Crawfordsville, was found dead here in a room of a hotel. There was no sign of suicide and an autopsy will be held to determine the cause of death. A bell boy discovered the body. It is thought the man had been dead about twelve hours.

Mid-Winter term at the International Business College commences Monday, Feb. 5. New classes will be formed in all departments at this time. 1-3t

What Do You Think of This?

This table shows the tariff on raw sugar compared with the tariff on some other things:

Diamonds,	10 per cent.
Paintings,	15 "
Automobiles,	45 "
Furs,	50 "
Champagne,	70 "
Sugar,	78.87 "

What do you think of that? Of which do you buy the most: sugar or diamonds? The tariff on sugar does not help American sugar-beet growers. They get no more for their beets than is paid to European beet growers. The tariff on sugar does add about $150,000,000 a year to the food cost of American families. Why should there be a sugar tariff eight times greater than a diamond tariff? Why should there be a sugar tariff at all? Read James Creelman's story, "The Plot against Sugar," in Pearson's Magazine for February. You'll learn some things you ought to know.

O. C. Barber, "The Match King," explains, to a dollar, what present railroad capitalization means to your annual expense, in the same magazine. Mr. Barber is a big business man. His companies ship about 200,000 carloads of freight a year. He knows about railroads, and he tells the truth about their stock-selling methods. Another article considers William Randolph Hearst as a presidential possibility. What do you think of Mr. Hearst, and the things he has done for which other people are getting credit? Read this article before you answer that. The story of The Four Hundred—the wonderful story of "high society" and the people in it, is continued. Also the great mystery novel, by Anthony Partridge, and seven complete stories.

MANY TRUE BILLS IN DYNAMITE CASE

(Continued from Page 1.)

Labor Leader Testifies.

Frank Morrison, secretary of the American Federation of Labor, was before the federal grand jury almost continuously yesterday testifying in the investigation of the dynamite conspiracy as to the disposal of the $225,000 McNamara defense fund.

Mr. Morrison had said he was ready to explain the disbursements in detail in the hope that the federation's account books promptly might be taken back to Washington, but District Attorney Charles W. Miller declared the government would keep the accounts for several days to prepare data for future use. More than 4,000 entries of the receipt of contributions with a much smaller number of expenditures were shown by the books, according to Mr. Morrison.

"The expenditures include $170,000 paid out through Attorney Clarence Darrow, as was reported to union officials some time ago," said Mr. Morrison.

The amount was correct at that time, although Mr. Darrow received other payments since then."

It was said the examination of the federation's finances was confined entirely to the handling of the defense fund and no inquiry was made into the organization's affairs prior to the arrest of J. J. McNamara last April.

Henry H. Flather, cashier of the bank at Washington where the fund was kept, also testified.

LEE SECRETAL SENTENCED.

Evansville Authorities Took No Chances With Possible Mob.

Evansville, Ind., Feb. 2.—Secrecy accompanied the sentencing of William Lee to life imprisonment today for the murder of his parents and brother at Boonville, last August. Although no open demonstration of disapproval of the verdict of life imprisonment had been seen, court officials and Sheriff Davis felt it would be better to have as little display about the sentencing as possible. The prisoner was brought into court after the adjournment of the morning session and heard sentence pronounced. Two deputies left at 11:35 o'clock to escort him to Michigan City prison.

PROFESSORS BAD JURORS.

Defense in Monroe County Whitecap Cases Have Enough of Them.

Bloomington, Ind., Feb. 2.—College professors do not make good jurors in a whitecaping trial from the viewpoint of the defense in the Harvey McFarland case and by peremptory challenges counsel for Silas Adams reduced from ten to three the number of members of the factulty of Indiana university on the jury that will try Adams. He is one of eight men charged with whipping McFarland. Two professors of the university were on the jury that convicted Tobias Snoddy recently.

LOCAL FORECAST.

Fort Wayne, Ind., Feb. 2.—Forecast for Fort Wayne and vicinity for thirty-six hours ending 7 p. m. Saturday, February 3: Fair and slightly colder tonight; Saturday fair and warmer; lowest temperature tonight about 5 degrees.

GENERAL FORECAST.

Washington, Feb. 2.—Weather forecast:

Indiana—Fair and continued cold tonight; Saturday increasing cloudiness with rising temperature.

Illinois—Fair tonight and Saturday; colder east portion tonight.

Ohio—Generally fair tonight and Saturday, except snow near Lake Erie; colder tonight.

Lower Michigan—Generally fair tonight and Saturday; except snow near the lakes tonight; colder east portion tonight; warmer west portion Saturday.

Summary of Weather Conditions.

The storm which has moved slowly eastward and is central over Ontario this morning has been accompanied by quite general, although not heavy snow over the lake region and Ohio valley, and is being followed by a cold wave which covers the middle and upper Mississippi valley and the upper lake region this morning; zero temperatures are reported as far south as southern Iowa and northern Illinois, while temperatures over Minnesota and Wisconsin are from 10 to 18 degrees below zero. Over the Rocky Mountain region and upper Missouri valley fair weather prevails with moderate temperatures.

Fair weather is probable for this section tonight and Saturday. It will be slightly colder tonight, but the cold will begin to moderate by Saturday.

W. S. PALMER,
Local Forecaster.

OATS GOES UP WHEAT IS DOWN

An Advance of Two Cents Puts Oats at an Even Half a Dollar.

EGGS YET GOLDEN

Oats up 2 cents and wheat down one cent expresses in a few words the market situation today as regards grain, and really aside from what has been said during the last few days, gives the market situation, in general. The fact is there isn't much markets as far as the buying in the city of country produce and grain is concerned, for there are very few country people coming into the city. The advance of oats puts it at 50 cents a bushel and the decline on wheat places that cereal at 94 cents. The price of corn is a hard thing to state. It sells for just what the seller can get, 55 to 62 cents, and depends frequently on how bad the buyer wants it.

Country produce of all kinds range high. Eggs kept up today to the figures given in The Sentinel yesterday, 44 cents a dozen at retail. The demand is large and the supply light. Even storage eggs are getting scarce, "as scarce as hen's teeth," one dealer expressed. Potatoes are keeping up in price, the supply, from the shipper's standpoint being light. Pork and beef have made no material change in price in the last several days. The hog market is active and many porkers are being shipped to the big city centers.

GRAIN AND PROVISIONS.

Chicago Market.

Chicago, Ill., Feb. 2.—Wheat made an excited upward jump today of as much as 1½c a bushel. Receipts northwest proved to be under last year's figures. May started at $1.03 to $1.03¾, a rise of ¼@⅝c to 1¼@1⅝c, and held firmly around $1.03⅝.

Prices at no time suffered any important setbacks. The close was strong with May wheat at $1.04@1.04⅛, a net gain of 1⅝c.

In corn offerings were light. May opened ⅞@1c to ⅞@⅞c up at 68¾@69⅛c and steadied at 69c.

Throughout the session the market remained firm. Closing figures were ⅝@⅞c net higher at 69c for May.

Oats followed the ascent of other grain. May started ⅛c to ⅜c higher at 52⅞c to 53c, touched 53⅜@53½c and climbed to 53⅝c.

Despite heavy stocks of product on hand here, the market for provisions responded to the advance in grain. First transactions were 2½c lower to 5@7½c up, with May delivery $16.20 to $16.22½ for pork, $9.32½ to $9.35 for lard and $8.72½ for ribs.

Range of Prices for the Day.

Toledo Market.

Toledo, O., Feb. 2.—North Lima, 82c bbl., South Lima and Indiana, 77c bbl.

STOCKS AND BONDS.

The Day on Wall Street.

New York, Feb. 2.—The stock market was quieter than during the last two days in the early trading today. Quotations held steady at around last night's close. Heavy buying of Reading was continued and it was advanced ¾. Lorillord rose 3 points and Liggett & Myers lost 1.

The runaway movement in Reading lifted the price to 159 in the first 15 minutes. Traders put out stocks and the general market hardened. United States Steel reacted from 61 to 60, Reading from 159 to 157⅞ and Union Pacific from 162¾ to 161. Lehigh Valley sold a point under yesterday's closing and fractional losses were sustained by most other stocks.

Business contracted considerably in the second hour, but there was a strong steady improvement in values. United States Steel and Reading rallied a point from the low figures and Union Pacific 1½. Bonds were steady.

Profits were taken late in the day and the market declined. Union Pacific and United States Steel and other important stocks sold down to below yesterday's final figures. In the last few minutes prices were bid up again in a rather brisk fashion.

Simon Ackerman, of the Sol Mier company, has purchased the West Wayne street residence property formerly owned by A. B. Jackson.

FREE BOOK OF PLANS

This booklet has pictures from hand drawings of attractive homes and details of windows, doors and gateways.

It is printed on fine heavy paper and is ornamental as well as suggestive, having floor plans, interior sketches and exterior drawings of some of our most successful houses.

You can get from it ideas for your roof or porch, windows, doors, or wall decorations, fireplace or window seat; or, if you wish, an entire floor plan and drawing of a pretty home.

Only a limited number of these booklets is left, but during this week we will give one of them free of charge in exchange for each coupon filled out and sent to us.

Merely sign your name and write the name of one person who is interested in buying or building this year and we will send without expense to you one of these valuable booklets.

I suggest the name of.....

Address.....

as being interested in buying or building a home.

In return for the above information, please send free of expense to me a copy of your booklet of plans and drawings.

Marvelous Crowds! Marvelous Bargains! Marvelous Business!

Certainly Marvelous Beyond Conception Is the

BIG PUBLIC SALE

— OF THE —

White Fruit House

The throngs of people who have jostled each other throughout the large building continuously every day since the opening day certainly have been amply repaid by bargains of such a nature as in all probability will never again be shown in Fort Wayne.

The entire stock, consisting of an enormous amount of Clothing, Furnishing Goods, Dry Goods, Shoes, Groceries, Household Goods, Hardware, Jewelry; IN FACT, EVERYTHING for man, woman and child to eat, drink and wear has been placed on sale for 15 days and MUST BE SOLD—nothing reserved. The prices are such that no other merchant in Indiana dare compete with them.

This sale is an opportunity NO ONE, in justice to themselves, DARE MISS, as an opportunity like this sale happens only once in a lifetime.

For Tomorrow (SATURDAY) We Will Place on Sale Special Bargains That Will Startle This Entire Community.

COME AND HAVE A LOOK AT THEM.

Every Department in the Entire Building will be CHUCK FULL OF SPECIAL OFFERINGS that will be the talk of Fort Wayne for years to come.

RAILROAD AND TRACTION FARE PAID TO ALL FOR A RADIUS OF 50 MILES PURCHASING $25.00 OR OVER.

BELOW ZERO NINE DAYS IN JANUARY

Month Just Closed Gave Unusual Weather Program.

MR. PALMER'S REPORT

On nine days during the month of January, just closed, the temperature in Fort Wayne dropped to a point below the zero mark, according to the tabulated statement just completed by W. S. Palmer, local forecaster at the station of the United States weather bureau, in this city. The highest temperature shown during the month was 42 degrees on the 18th and the lowest was 14 degrees below zero on the 7th. The greatest daily range of temperature was on the 21st, when the fluctuation was 21 degrees, and the least daily range was on the 5th, when the variation between coldest and warmest was but 6 degrees.

The percentage of possible sunshine for the month was 31. The mean atmosphere pressure for the month was 30.--; the highest, 30.65 on the 12th; the lowest, 29.57 on the 8th.

Total precipitation for the month was 1.39 inches; snowfall, 6.8; the greatest precipitation in any 24 hours, 1 inch on the 18th. Snow on the ground at the end of the month was 5 inch. There were 6 clear days, 6 partly cloudy, 19 cloudy and 11 days on which some precipitation occurred.

Prevailing wind during the month was from the southwest, with a total movement of 7,883 miles; average hourly velocity was 10.6 miles, and the maximum velocity for any five minutes was 35 miles per hour fromthe southwest on the 9th.

HARDWARE MEN ELECT.

Indiana Retailers Also Oppose Employers' Liability Law.

Indianapolis, Feb. 2.—Debate on the recently enacted Indiana employers' liability law enlivened yesterday's session of the Indiana Retail Hardware Dealers association. A. J. Weinhart, of Terre Haute, urged the association to make an attempt to kill the law, while the statute was upheld by William Smith, of Brooklyn. The following officers were elected:

W. J. Von Behren, Bloomington, president.

Milo J. Thomas, Corunna, first vice president.

William J. Hubbard, Scottsburg, second vice president.

Charles E. Hall, Indianapolis, treasurer.

H. C. Heldt, Oakland City; O. S. Torbett, Columbia City; E. Barrett, Lawrenceburg, and the officers compose the executive committee.

The selection of a secretary was left to the executive committee and it is believed that M. L. Corey, of Argos, will be re-elected.

SENTINEL WANT ADS ALWAYS GET RESULTS

WOMEN'S HEIGHT A PROBLEM.

San Francisco, Feb. 2.—Registrar Semansky stated today that obtaining the ages of women voters is as nothing compared with ascertaining their height. In the first place, many women object to removing their hats, as the office is unprovided with mirrors. But when hats are removed the clerks are confronted with the delicate task of making allowances for rats, puffs and switches, not to mention French heels. The registrar fears a sudden change in styles may invalidate the women's polling lists.

AGED WOMAN DEAD.

Warsaw, Ind., Feb. 2.—Mrs. Mary Brown died Wednesday at her home on Tamarack street. She had been ill for more than a month and death resulted from gangrene in her right leg. Mrs. Brown was 79 years old and is survived by three children.

FOR SALE—House and lot No. 444 W. DeWald St.; must be sold at once to close up estate. This is a bargain. For particulars call at law office of Underwood & Geake, Physicians' Defense Bldg. (Phone 158), or phone 7190 Blue. 1-3t

BIG GOLD EXPORT.

New York, Feb. 2.—An engagement of $2,000,000 in gold bars was made at the assay office this morning for shipment to Europe. This is the first exportation of gold for Europe in nearly two years.

I have high-class investments in Local Bonds and Local Stocks. C. F. Pfeiffer, Shoaff Bldg.
